## Abstract

## Background

Since the first checklist of German Chalcidoidea and Mymaromatoidea was published over two decades ago, a revision of the status of these superfamilies in Germany is overdue. The previous list contained chalcidoid species mentioned in published papers up to 2000 and was cross-checked with the data compiled by Noyes in the Universal Chalcidoidea Database. Additional species, determined by the first author, were also included. Since then, revisions of several chalcidoid genera have been published synonymising species or describing new species. The previous checklist also contained several erroneous names and doubtful records that turned out to be incorrect placements or questionable citations and are corrected in the present version.

## New information

The updated critical checklist of German Chalcidoidea includes 1,610 species from 19 families.

## Keywords

parasitoids, chalcidoid wasps, fauna, new records

## Introduction

A revised and critical annotated checklist of the German Chalcidoidea and Mymarommatoidea updates the German checklist of Chalcidoidea published in 2001. The new checklist now includes 1,610 species from 19 families. The compiled list includes papers published since 2001 and several species names have been updated, based on the revisions of various genera published in the meantime.

The previous list included names of species described by Dalla Torre (1898), Förster (1841), Förster (1859), Förster (1860) and Förster (1861), or Ratzeburg (1844a), Ratzeburg (1844b), Ratzeburg (1848) and Ratzeburg (1852), many with a doubtful species status. Many of the species described by Förster are probably only colour variants, as for example, Schnee (2008) stated in his revision of the subfamily Anomaloninae (Hymenoptera: Ichneumonidae), based on historic type material from Förster that still exists.

Given the very well-recorded British insect fauna, Noyes calculated the proportion of Chalcidoidea species being about 8% (Noyes 2000). In Germany, around 33,000 insect species are known (Völkl and Blick 2004). Taking the same proportion of Chalcidoidea and Mymarommatoidea, it can be expected that at least 2,600 species of these two superfamilies are present in Germany. Species names follow Noyes (2019), with the database last updated in 2019. Several recent papers dealing with revisions of Eulophidae or Mymaridae (e.g. Hansson and Schmidt 2020, Triapitsyn 2021) have been taken into account.

## Materials and methods

The annotated checklist is based on the three main data sources: 1) The Universal Chalcidoidea Database, hosted by the Natural History Museum London (Noyes 2019), 2) the Fauna Europaea, hosted by the Museum für Naturkunde Berlin (de Jong et al. 2014; accessed December 2020) and 3) the SNSB-Zoologische Staatssammlung München (Schmidt 2021, accessed December 2020). Moreover, the first two authors of this paper have collected and determined several additional species, not yet included in these databases cited above. These specimens are in the private collections of these authors.

References are given for new additions to the checklist, i.e. species that were recorded since the last checklist (Vidal 2001) was published. References for older records are given, if not included in Noyes (2019).

## Data resources

### Checklist of German Chalcidoidea (Insecta, Hymenoptera)

Out of the 24 extant families of Chalcidoidea and Mymarommatoidea worldwide, 19 families are currently recorded from Germany (Table 1). The number of species listed by Mitroiu et al. (2015) exceeds 5,100 species for Europe. The recently-published checklist of British and Irish Chalcidoidea and Mymarommatoidea species comprises 1,754 species (Dale-Skey et al. 2016). Gijswijt compiled the Chalcidoidea species for the Netherlands and listed 1,133 species (Ulenberg 2016). The checklist by Vidal (2001) listed 1,778. Weber et al. (2018) list 1,939 species from Germany, based on the Universal Chalcidoidea Database (Noyes 2019), after removing synonyms, *nomina nuda* and fossil taxa (29 species) and adding four new records for Germany, but including species with doubtful species status.

Table 1.

Number of species of German Chalcidoidea by family in Vidal (2001) and in the present checklist.<sup>1</sup> in Vidal (2001) under Aphelinidae; <sup>2</sup>now placed in Eulophidae; <sup>3</sup>in Vidal (2001) under Torymidae.

Family	Vidal (2001)	Present checklist
Aphelinidae	49	47
Azotidae	n/a	3 <sup>1</sup>
Chalcididae	23	22
Elasmidae	6 <sup>2</sup>	n/a
Encyrtidae	165	193
Eucharitidae	2	1
Eulophidae	443	442
Eupelmidae	32	42
Eurytomidae	111	101
Leucospidae	3	3
Megastigmidae	n/a	12 <sup>3</sup>
Mymaridae	104	88
Mymarommatidae	1	1
Ormyridae	12	9

Family	Vidal (2001)	Present checklist
Perilampidae	40	19
Pteromalidae	663	497
Signiphoridae	2	2
Tetracampidae	11	9
Torymidae	93	93
Trichogrammatidae	18	26
<b>Total</b>	<b>1,778</b>	<b>1,610</b>

The present critical checklist for Germany lists 1,610 species (Table 1, Table 2). The list excludes species with doubtful status or species that were not correctly cited in Vidal (2001) (see Table 3 below). The previous checklist by Vidal (2001), now corrected for species with doubtful status, comprises 1,328 species. The updated checklist thus adds 288 species as new for the German fauna.

Table 2.

Checklist of German Chalcidoidea and Mymaromatoidea. "CL" in the remarks column refers to species in the previous checklist (Vidal 2001).

### List of species excluded from the checklist of German species of Chalcidoidea

The species listed in Table 3 were excluded from the updated critical checklist of species recorded from Germany. We followed the same rationale as Horstmann (2001) for the checklist of German Ichneumonidae (see also Riedel et al. 2021). Horstmann (2001) included only species that were either described as new after 1945 or, for species described before that year, if the species were mentioned at least once in the entomological literature after 1945. Horstmann (2001) excluded species if they were mentioned only once in the literature before 1945 (i.e. in the original citation), because all of these species most likely are representing synonyms.

Table 3.

List of species excluded from the present checklist. The species were included in Vidal (2001) or erroneously omitted from the previous checklist by Vidal (2001). For details see information in the main text and comments given for each species.

Family	Species	Comments
Aphelinidae	<i>Aphelinus circumscriptus</i> (Ratzeburg, 1852)	Not included in Ferrière (1965).
Aphelinidae	<i>Aphelinus flavus</i> (Nees, 1834)	Interpretation of the species is unclear.
Chalcididae	<i>Belaspidea obscura</i> Masi, 1916	According to Delvare et al. (1999), the Central European specimens of <i>B. obscura</i> sensu Bouček belongs to <i>B. nigra</i> Masi; <i>B. obscura</i> is west-Mediterranean and not verified in Germany.
Chalcididae	<i>Chalcis ramicornis</i> Gravenhorst, 1834	Doubtful species status.
Encyrtidae	<i>Encyrtus flavipes</i> Nees, 1834	Not listed in Trjapitzin (1989) for Germany.
Encyrtidae	<i>Encyrtus foersteri</i> Mayr, 1876	Not listed in Trjapitzin (1989) for Germany.
Encyrtidae	<i>Encyrtus mucronatus</i> Ratzeburg, 1848	Not listed in Trjapitzin (1989) for Germany.
Encyrtidae	<i>Leptomastix histrio</i> (Fürster, 1856)	According to Trjapitzin (1989) uncertain collecting location.

Family	Species	Comments
Encyrtidae	<i>Zaomma hirsuta</i> (Ratzeburg, 1852)	Trjapitzin (1989): name unclear, Graham (1969): possible synonym of <i>Apteryencyrtus microphagus</i> (Mayr).
Eucharitidae	<i>Stilbula cyniformis</i> (Rossius, 1792)	Listed erroneously in UCD
Eulophidae	<i>Aprostocetus flavovarius</i> (Nees, 1834)	Graham (1987): possible synonym of <i>A. forsteri</i> (Walker).
Eulophidae	<i>Aulogymnus fumatus</i> (Ratzeburg, 1852)	Doubtful species status.
Eulophidae	<i>Chrysocharis foliicolorum</i> (Christ, 1791)	Not included in Hansson (1985).
Eulophidae	<i>Elachertus aequalis</i> Förster, 1841	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Elachertus aeruginosus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Elachertus albipes</i> Nees, 1841	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus albitalus</i> (Ratzeburg, 1844)	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus coerulescens</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus cyaneus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus deplanatus</i> (Ratzeburg, 1852)	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Elachertus ditissimus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus facialis</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; type probably lost.

Family	Species	Comments
Eulophidae	<i>Elachertus laevis</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; doubtful species status.
Eulophidae	<i>Elachertus lunatus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Elachertus orbicularis</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus pallipes</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus pellucens</i> Förster, 1841	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Elachertus plagiatus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus pulcherimus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Elachertus reticulatus</i> Ratzeburg, 1852	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus subauratus</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Elachertus tardulus</i> Nees, 1834	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Elachertus timidus</i> Förster 1841	Doubtful species status.
Eulophidae	<i>Elachertus walkeri</i> (Ratzeburg, 1848)	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Entedon aequilongus</i> Ratzeburg, 1852	In Graham (1971) not listed for Germany.
Eulophidae	<i>Entedon caudatus</i> Ratzeburg, 1848	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Entedon cavicornis</i> Ratzeburg, 1852	Bouček and Askew (1968): incertae sedis; type probably lost; in Graham (1971) not listed for Germany.

Family	Species	Comments
Eulophidae	<i>Entedon chalybaeus</i> Ratzeburg, 1852	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Entedon confinis</i> Ratzeburg, 1848	Bouček and Askew (1968): incertae sedis; type probably lost; in Graham (1971) not listed for Germany.
Eulophidae	<i>Entedon connexus</i> Ratzeburg, 1852	Bouček and Askew (1968): incertae sedis; type probably lost; in Graham (1971) not listed for Germany.
Eulophidae	<i>Entedon debilis</i> Ratzeburg, 1852	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Entedon fumatus</i> Ratzeburg, 1852	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Entedon hylotomarum</i> (Ratzeburg, 1844)	In Graham (1971) not listed for Germany.
Eulophidae	<i>Entedon inconspicuus</i> Ratzeburg, 1852	In Graham (1971) not listed for Germany.
Eulophidae	<i>Entedon longiventris</i> Ratzeburg, 1848	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Entedon luteipes</i> Ratzeburg, 1848	Bouček and Askew (1968): incertae sedis; type probably lost; in Graham (1971) not listed for Germany.
Eulophidae	<i>Entedon pinetorum</i> Ratzeburg, 1852	Graham (1991): incertae sedis.
Eulophidae	<i>Entedon transparens</i> Ratzeburg, 1848	Bouček and Askew (1968): incertae sedis; type probably lost; in Graham (1971) not listed for Germany.
Eulophidae	<i>Entedon unicostatus</i> Ratzeburg, 1848	Bouček and Askew (1968): incertae sedis; type probably lost; in Graham (1971) not listed for Germany.
Eulophidae	<i>Entedon vaginulae</i> Ratzeburg, 1852	In Graham (1971) not listed for Germany.
Eulophidae	<i>Entedon xanthostoma</i> (Ratzeburg, 1844)	In Graham (1971) not listed for Germany.
Eulophidae	<i>Eulophus ater</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus albifarsus</i> Ratzeburg, 1844	In Bouček (1959) not listed for Germany.

Family	Species	Comments
Eulophidae	<i>Eulophus binotatus</i> Förster, 1841	In Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus blancardellae</i> Bouché, 1834	In Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus breviramulis</i> Förster, 1841	In Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus cephalotes</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus chrysomelae</i> Nees, 1834	In Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus coccorum</i> Ratzeburg, 1848	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus depressus</i> Nees, 1834	In Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus dubitabilis</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus emicans</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus eurytomae</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus fissicornis</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus foveolatus</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus fuscicornis</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus harmocerus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis.

Family	Species	Comments
<i>Eulophus</i>	<i>Eulophus hylesinorum</i> Ratzeburg, 1844	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus inconspicuus</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus lucens</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus mediuss</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus metallicus</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus nitidulus</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus obscurus</i> Ratzeburg, 1848	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus polycerus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus rupicapra</i> Förster, 1841	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophiae	<i>Eulophus scutellaris</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus semicupreus</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus sexradiatus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Eulophus tabidus</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.
Eulophidae	<i>Eulophus tarandus</i> Förster, 1841	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Eulophus tibialis</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost.
Eulophidae	<i>Eulophus vagus</i> Nees, 1834	Bouček and Askew (1968): incertae sedis; type probably lost; in Bouček (1959) not listed for Germany.

Family	Species	Comments
Eulophidae	<i>Eulophus xanthostoma</i> Ratzeburg, 1844	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Pnigalio cruciatus</i> (Ratzeburg, 1848)	Bouček and Askew (1968): incertae sedis; type probably lost; Graham (1969): possible synonym of <i>P. agraules</i> Walker.
Eulophidae	<i>Pnigalio obscurus</i> (Ratzeburg, 1848)	Bouček and Askew (1968): incertae sedis.
Eulophidae	<i>Pnigalio tardulus</i> (Nees, 1834)	Graham (1969): possible synonym of <i>P. pectinicornis</i> L.
Eulophidae	<i>Tetrastichus atrocoeruleus</i> (Nees, 1834)	Not included in Hansson and Schmidt (2020).
Eulophidae	<i>Tetrastichus capitatus</i> (Ratzeburg, 1852)	Not included in Hansson and Schmidt (2020).
Eulophidae	<i>Tetrastichus inunctus</i> (Ratzeburg, 1848)	Not included in Hansson and Schmidt (2020).
Eulophidae	<i>Tetrastichus octonus</i> (Kawall, 1858)	Not included in Hansson and Schmidt (2020).
Eupelmidae	<i>Eupelmus brachynterae</i> (Schwägrichen, 1835)	Gibson and Fusu (2016): name unclear.
Eupelmidae	<i>Eupelmus hostilis</i> Förster, 1860	Gibson and Fusu (2016): Synonym of <i>E. urozonus</i> Dalman.
Eupelmidae	<i>Metapelma insignis</i> (Förster, 1860)	Gibson and Fusu (2016): name unclear, the type (male) is an unidentifiable <i>Anastatus</i> ; in Vidal (2001) as <i>M. insignis</i> (Förster).
Eurytomidae	<i>Eurytoma abrotani</i> (Panzer, 1801)	Not included in Zerova (1995).
Eurytomidae	<i>Eurytoma aterrima</i> (Schrank, 1781)	Not included in Zerova (1995).
Eurytomidae	<i>Eurytoma extincta</i> Ratzeburg, 1852	Not included in Zerova (1995).
Eurytomidae	<i>Eurytoma gracilior</i> Dalla Torre, 1898	Not included in Zerova (1995).

Family	Species	Comments
Eurytomidae	<i>Eurytoma microneura</i> Ratzeburg, 1852	Not included in Zerova (1995).
Eurytomidae	<i>Eurytoma nodulosa</i> Ratzeburg, 1848	Not included in Zerova (1995).
Eurytomidae	<i>Eurytoma petiolata</i> Förster, 1841	Not included in Zerova (1995).
Eurytomidae	<i>Eurytoma pumila</i> Förster, 1841	Not included in Zerova (1995).
Eurytomidae	<i>Eurytoma punctulata</i> Förster, 1841	Not included in Zerova (1995).
Eurytomidae	<i>Eurytoma scabra</i> Förster, 1841	Not included in Zerova (1995).
Eurytomidae	<i>Eurytoma sphegum</i> (Fabricius, 1787)	Not included in Zerova (1995).
Eurytomidae	<i>Tetramesa flavipes</i> (Förster, 1841)	Doubtful species status.
Megastigmidae	<i>Bootanomyia bohemani</i> (Ratzeburg, 1848)	Doubtful species status.
Mymaridae	<i>Alaptus schmitzi</i> Soyka, 1939	Triapitsyn (2017): type location in Poland, not Germany; in Triapitsyn et al. (2020) not listed for Germany.
Mymaridae	<i>Anaphes angustipennis</i> (Debauche, 1948)	In Huber and Thuróczy (2018) not listed for Germany, synonym of <i>A. ovipositor</i> Soyka.
Mymaridae	<i>Erythmelus foersteri</i> (Ratzeburg, 1848)	Doubtful species status.
Ormyridae	<i>Ormyrus chalybeus</i> (Ratzeburg, 1844)	Not included in Zerova and Seryogina (2006).
Ormyridae	<i>Ormyrus cosmozonus</i> Förster, 1860	Förster (1860): described from Tyrol.
Ormyridae	<i>Ormyrus punctulatus</i> (Förster, 1860)	Not included in Zerova and Seryogina (2006).

Family	Species	Comments
Ormyridae	<i>Ormyrus versicolor</i> Förster, 1860	Not included in Zerova and Seryogina (2006).
Ormyridae	<i>Ormyrus violaceus</i> Förster, 1860	Not included in Zerova and Seryogina (2006).
Perilampidae	<i>Chrysolampus aeneicornis</i> Ratzeburg, 1852	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus anguliventris</i> Nees, 1834	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus attenuatus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus brevicornis</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus coeruleovirens</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus dubius</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus ellipticus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus excellens</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus fuscimanus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus gibbosus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus gilvipes</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).

Family	Species	Comments
Perilampidae	<i>Chrysolampus granulatus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014), in Vidal (2001) as <i>C. granularis</i> Förster.
Perilampidae	<i>Chrysolampus indubitus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus interruptus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus laevipetiolatus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus pachymerus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus pallitarsis</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus scapularis</i> Ratzeburg, 1852	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus subcarinatus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus subsessilis</i> Nees, 1834	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus tenuiscapus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Chrysolampus transversus</i> Förster, 1841	Not included in Graham (1969) and Doganlar and Doganlar (2014).
Perilampidae	<i>Perilampus angustus</i> Nees, 1834	Not included in Bouček (1956).
Pteromalidae	<i>Acroclysis nigricornis</i> Förster, 1878	Not included in Graham (1969).

Family	Species	Comments
Pteromalidae	<i>Caenacis flavipes</i> Masi, 1931	Not included in Graham (1969); Masi (1911): specimens in HMB, collected by Strand in Norway and Germany, status unclear.
Pteromalidae	<i>Cleonymus apicalis</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Cleonymus cyanus</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Cleonymus elongatus</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Cleonymus eximius</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Cleonymus viridinitens</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Coelopisthia eurynota</i> (Förster, 1841)	Graham (1969): possible synonym of <i>Coelopisthia extenta</i> (Walker).
Pteromalidae	<i>Dirhicnus clandestinus</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Gastracanthus erythrogaster</i> (Dalla Torre, 1898)	Not included in Graham (1969).
Pteromalidae	<i>Halticoptera corrusca</i> (Gravenhorst, 1807)	Not included in Graham (1969).
Pteromalidae	<i>Halticoptera plana</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Holcaeus glabriculus</i> (Nees, 1834)	Not included in Graham (1969).
Pteromalidae	<i>Holcaeus siccatorum</i> (Ratzeburg, 1852)	Not included in Graham (1969).
Pteromalidae	<i>Homoporus femoralis</i> (Förster, 1841)	Not included in Graham (1969).

Family	Species	Comments
Pteromalidae	<i>Lariophagus teutonus</i> (Dalla Torre, 1898)	Doubtful species status.
Pteromalidae	<i>Macroglenes brevicornis</i> (Nees, 1834)	Not included in Graham (1969), Mitroiu (2010); possible synonym of <i>M. chalybaeus</i> (Haliday); Dale-Skey et al. (2016): invalid.
Pteromalidae	<i>Meraporus foveolatus</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Meraporus modestus</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Mesopolobus bidentis</i> (Ratzeburg, 1848)	Not included in Graham (1969).
Pteromalidae	<i>Mesopolobus clavatus</i> (Ratzeburg, 1844)	Not included in Graham (1969).
Pteromalidae	<i>Mesopolobus crassipes</i> (Ratzeburg, 1844)	Not included in Graham (1969).
Pteromalidae	<i>Mesopolobus dilutipes</i> (Ratzeburg, 1848)	Not included in Graham (1969).
Pteromalidae	<i>Metacolus azurescens</i> (Ratzeburg, 1852)	Graham (1969): possible synonym of <i>M. azureus</i> (Ratzeburg).
Pteromalidae	<i>Mokrzeckia halidayana</i> (Ratzeburg, 1848)	Tselikh and Целих (2012): Synonym of <i>M. pini</i> (Hartig).
Pteromalidae	<i>Neocatolaccus proximus</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Pachyneuron flavipes</i> (Förster, 1841)	Not included in Graham (1969).

Family	Species	Comments
Pteromalidae	<i>Pachyneuron innoxius</i> (Förster 1841)	Not included in Graham (1969).
Pteromalidae	<i>Pachyneuron piceae</i> (Ratzeburg, 1848)	Not included in Graham (1969).
Pteromalidae	<i>Pachyneuron ratzeburgi</i> Özdikmen, 2011	Not included in Graham (1969).
Pteromalidae	<i>Polycystus oscinidis</i> Kurdjumov, 1958	Noyes (2019): unavailable name, genus synonym of <i>Cyrtogaster</i> (Dale-Skey et al. 2016).
Pteromalidae	<i>Psilocera verticillata</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus aberrans</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus abieticola</i> Ratzeburg, 1848	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus acicularis</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus acuminatus</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus aequus</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus aerosus</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus agilis</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus albescens</i> Ratzeburg, 1844	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus alternans</i> Förster, 1841	Not included in Graham (1969).

Family	Species	Comments
Pteromalidae	<i>Pteromalus ambiguus</i> Förster, 1861	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus angustus</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Pteromalus anomalipennis</i> Förster, 1841	Doubtful species status, in Vidal (2001) as <i>P. anomalipes</i> Förster.
Pteromalidae	<i>Pteromalus apicalis</i> Nees, 1834	Doubtful species status.
Pteromalidae	<i>Pteromalus arborivagus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus atramentarius</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus aurantiacus</i> (Ratzeburg, 1852)	Doubtful species status.
Pteromalidae	<i>Pteromalus aurifacies</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus aurinitens</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus barycerus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus blandus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus breviscapus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus brunnicans</i> Ratzeburg, 1848	Doubtful species status.

Family	Species	Comments
Pteromalidae	<i>Pteromalus carinatus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus cerinopus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus chalcophanes</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus chalybaeus</i> Nees, 1834	Doubtful species status.
Pteromalidae	<i>Pteromalus chrysia</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus clavipes</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus coerulescens</i> Ratzeburg, 1852	Doubtful species status.
Pteromalidae	<i>Pteromalus coeruleus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus colosseus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus compactus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus compos</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus concinnus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus conoideus</i> Ratzeburg, 1848	Doubtful species status.

Family	Species	Comments
Pteromalidae	<i>Pteromalus crassus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus cryptocephali</i> Ratzeburg, 1852	Doubtful species status.
Pteromalidae	<i>Pteromalus cubocephalus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus cupreus</i> Nees, 1834	Doubtful species status.
Pteromalidae	<i>Pteromalus curculionoides</i> (Bouché, 1834)	Doubtful species status.
Pteromalidae	<i>Pteromalus cylindraceus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus dahlbomi</i> Ratzeburg, 1844	Doubtful species status.
Pteromalidae	<i>Pteromalus dalmanni</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus decipiens</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus depressus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus devorator</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus diadema</i> Ratzeburg, 1852	Doubtful species status.
Pteromalidae	<i>Pteromalus diatus</i> Schmidt, 1851	Doubtful species status.

Family	Species	Comments
Pteromalidae	<i>Pteromalus difficilis</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus dimidius</i> Dalla Torre, 1898	Doubtful species status.
Pteromalidae	<i>Pteromalus diminuator</i> Förster , 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus dirutor</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus divitissimus</i> Dalla Torre, 1898	Doubtful species status.
Pteromalidae	<i>Pteromalus ecarinatus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus egregius</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus elatus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus elongatus</i> Ratzeburg, 1852	Doubtful species status.
Pteromalidae	<i>Pteromalus eminens</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus esuriens</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus euryops</i> Förster, 1861	Listed in Noyes (2019) for Germany, but collecting location in Switzerland (Förster 1861).
Pteromalidae	<i>Pteromalus exiguum</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus exoletus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus exsertus</i> Förster, 1841	Doubtful species status.

Family	Species	Comments
Pteromalidae	<i>Pteromalus extensus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus facilis</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus fagi</i> Ratzeburg, 1852	Doubtful species status.
Pteromalidae	<i>Pteromalus faunigena</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus ferox</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus fervidus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus festivus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus flavipalpis</i> Ratzeburg, 1844	Doubtful species status.
Pteromalidae	<i>Pteromalus fugax</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus furtivus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus fuscopalpus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus genuinus</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus germanicus</i> Özdikmen, 2011	Doubtful species status.
Pteromalidae	<i>Pteromalus gnavis</i> Förster, 1841	Doubtful species status.
Pteromalidae	<i>Pteromalus gracillimus</i> Dalla Torre, 1898	Doubtful species status.

Family	Species	Comments
Pteromalidae	<i>Rhopalicus atricornis</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Rhopalicus magdalensis</i> (Ratzeburg, 1844)	Not included in Graham (1969).
Pteromalidae	<i>Rhopalicus opisthotomus</i> (Ratzeburg, 1848)	Not included in Graham (1969).
Pteromalidae	<i>Rhopalicus virescens</i> (Ratzeburg 1844)	Not included in Graham (1969).
Pteromalidae	<i>Roptrocerus polychromus</i> Förster, 1856	Not included in Graham (1969).
Pteromalidae	<i>Roptrocerus xylobius</i> Förster, 1856	Not included in Graham (1969).
Pteromalidae	<i>Scutellista obscura</i> (Förster, 1878)	Doubtful species status.
Pteromalidae	<i>Semiotellus punctifrons</i> (Nees, 1834)	Doubtful species status.
Pteromalidae	<i>Sphegigaster clavicornis</i> Förster, 1841	Not included in Graham (1969), in Vidal (2001) as <i>Chrysolampus clavicornis</i> Förster.
Pteromalidae	<i>Stenomalina bicolor</i> Förster, 1841	Not included in Graham (1969).
Pteromalidae	<i>Stenomalina fallax</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Stenomalina spectabilis</i> (Förster, 1841)	Graham (1969): possible synonym of <i>S. liparae</i> (Giraud).
Pteromalidae	<i>Trichomalopsis punctata</i> (Ratzeburg, 1844)	Not included in Graham (1969).

Family	Species	Comments
Pteromalidae	<i>Trichomalus cinctus</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Trichomalus cristatus</i> Förster, 1841	Graham (1969): ?Synonym of <i>T. posticus</i> (Walker).
Pteromalidae	<i>Trichomalus exquisitus</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Trichomalus fulgidus</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Trichomalus generalis</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Trichomalus glabellus</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Trichomalus intestinarius</i> (Förster, 1841)	Graham (1969): possible synonym of <i>T. posticus</i> (Walker).
Pteromalidae	<i>Trichomalus notabilis</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Trichomalus obsessorius</i> (Förster, 1841)	Not included in Graham (1969).
Pteromalidae	<i>Trichomalus pilosus</i> (Ratzeburg, 1844)	Not included in Graham (1969).
Pteromalidae	<i>Trichomalopsis caesareus</i> (Dalla Torre, 1889)	Nomen nudum according to Graham (1969) who writes: "Type ♀ (Germany) recognized by Delucchi (1958) who stated that it is a valid species. I have not seen the type and cannot recognize the species."
Pteromalidae	<i>Trigonoderus bimaculatus</i> (Nees, 1834)	Not included in Graham (1969).
Pteromalidae	<i>Trigonoderus immaculatus</i> (Nees, 1834)	Not included in Graham (1969).

Family	Species	Comments
Pteromalidae	<i>Trigonoderus occultus</i> (Förster, 1841)	Graham (1969): possible synonym of <i>T. filatus</i> Walker.
Torymidae	<i>Pseudotorymus tarsatus</i> Nees, 1834	Graham and Gijswijt (1998): possible synonym of <i>P. sapphirinus</i> (Fonscolombe).
Torymidae	<i>Torymus approximatus</i> Förster, 1841	Doubtful species status.
Torymidae	<i>Torymus associatus</i> Förster, 1841	Doubtful species status.
Torymidae	<i>Torymus confluens</i> Ratzeburg, 1852	Doubtful species status.
Torymidae	<i>Torymus difficilis</i> Nees, 1834	Doubtful species status.
Torymidae	<i>Torymus kaltenbachi</i> Förster, 1840	Doubtful species status.
Torymidae	<i>Torymus minutus</i> Förster, 1840	Doubtful species status.
Torymidae	<i>Torymus resinanae</i> Ratzeburg, 1852	Doubtful species status.
Trichogrammatidae	<i>Aphelinoidea bischoffi</i> (Novicky, 1946)	Triapitsyn (2018): "Its listings from Germany (e.g. Viggiani (2011)) are incorrect, as both localities of the type series are in Burgenland, Austria, the other one (of the unspecified number of paratypes) being Jungerberg (near [W of] Jois, 47°57'38"N 16°46'44"E) between Jois and Winden am See (Novicky (1946): 46, as "Jungenberg")."

For the present checklist of German Chalcidoidea, we followed this principle in that we excluded species that were described by early authors during the 19<sup>th</sup> century, including Dalla Torre (1898), Förster (1841), Förster (1859), Förster (1860), Förster (1861) and Ratzeburg (1844a), Ratzeburg (1844b), Ratzeburg (1848), Ratzeburg (1852) and that were not mentioned again in the literature after the original description. Since the type material is often regarded as being lost, an exact verification of the species status with previously or later described species is no longer possible (Bouček 1964, Graham 1969). Therefore, many of these species are expected to represent synonyms of known valid species from Germany. By excluding these species from the checklist, an attempt was made to minimise the risk of including species with doubtful status. The species that were not included in the main checklist are listed in Table 3, with notes explaining the reason for excluding the species from the checklist.

## Author contributions

All authors of this paper contributed equally to the compilation of the datasets and read and approved the final version of the manuscript.
