## Abstract

## Background

The cicadas of the Indian subcontinent, like many other insects in the region, have remained understudied since the early part of the 20th Century, and await modern taxonomic, systematic and phylogenetic treatment. This paper presents an updated systematic catalogue of cicadas (Hemiptera: Cicadidae) from India, Bangladesh, Bhutan, Myanmar, Nepal and Sri Lanka, the first in over a century.

## New information

This paper treats 281 species, including: India and Bangladesh (189 species), Bhutan (19 species), Myanmar (81 species), Nepal (46 species) and Sri Lanka (22 species). For each species all recognized junior synonyms are included with information on the type material and additional specimens where relevant. The global distributional range and notes on the taxonomy of each species are included where appropriate. Two lists are provided: (1) species known to occur in India and Bangladesh (treated as a geographic unit), Bhutan, Myanmar, Nepal and Sri Lanka; and (2) species previously listed from these countries in error. A bibliography of species descriptions is provided, with the papers containing the original descriptions provided where copyright allows.

## Keywords

Biodiversity Inventory, Systematic Catalogues, Biodiversity Hotspots, Indian Subcontinent, Himalaya, Western Ghats

## Introduction

We share our planet with an estimated 8.7 million species (Mora et al. 2011), of which approximately 80% await scientific description. Insects, although understudied, are known to account for over half the world's described biodiversity (Footitt and Adler 2009), and likely constitute a much greater proportion of the undescribed biodiversity. The cicadas (Hemiptera: Cicadidae) of the Indian subcontinent, like many other insects in the region, have remained understudied since the early part of the 20th Century and await, for the most part, modern taxonomic, systematic and phylogenetic treatment.

The first illustrated publication dealing with the insect fauna of India was “*An epitome of the natural history of the insects of India and the islands in the Indian Seas*” by Donovan (1800), which included many superb illustrations made by the author. One cicada species (*Cicada indica* Donovan 1800) was described by Donovan in his epitome, although the illustration is dated as 1st of February 1804 (Fig. 1). The original description states that the specimen was collected in Bengal, a claim doubted by Distant: “According to Donovan, a single specimen of this species was found in Bengal by Mr. Fichtel, and deposited in the Imperial Cabinet at Vienna, but that habitat I consider liable to the greatest doubt.” (Distant 1889a). Donovan may have confused Fabricius' label “Indiis” as India, when it could refer to the West Indies, East Indies or occasionally to Africa. In the present study *Cicada indica* is listed as unlikely to be from the Indian subcontinent, being synonymised with *Tacua speciosa speciosa* (Illiger, 1800) which is found in Indonesia and Malaysia.

By far the most influential figure in the history of cicadas in India is William Lucas Distant (12 November 1845 – 4 February 1922). Distant worked at the Natural History Museum, then the British Museum (Natural History) from 1889 to 1920, during which time he

described a tremendous number of insect species. Over 100 cicada species which occur on the Indian subcontinent and were described by Distant are currently recognised as valid. His most significant works relevant to this fauna were: "A Monograph of Oriental Cicadidae" (Distant 1889b, Distant 1891, Distant 1892c); "The fauna of British India, including Ceylon and Burma" (Distant 1906c); and "A Synonymic Catalogue of Homoptera, Part I - Cicadidae" (Distant 1906b). In particular "The fauna of British India, including Ceylon and Burma" (Distant 1906c) provided the first treatment of the region as a whole, with 148 cicada species recognised in 44 genera. This was followed by an appendix (Distant 1916) which listed an additional 24 species and 3 new genera for the region, bringing the total to 172 cicada species in 47 genera.

Figure 1.

Donovan's illustration of *Cicada indica* Donovan 1800. This stunning species is a junior synonym of *Tacua speciosa speciosa* (Illiger, 1800) and is not found on the Indian subcontinent, an example of the historical misattribution of species from the "East Indies" with India.

Publication source: <http://biodiversitylibrary.org/page/25494957>

Apart from a few isolated species descriptions, the cicada fauna of the Indian subcontinent has not been subjected to a detailed taxonomic and systematic review since Distant (1906c), Distant (1916), hence, it is highly likely that many unrecognized and undescribed cicada species exist in this region.

This study serves as a modern reference point for the cicada fauna of India, Bangladesh, Bhutan, Myanmar, Nepal and Sri Lanka, and hopefully, provides a backbone to recording efforts and studies of the underlying taxonomy. Pakistan, formerly a part of "British India" has been excluded from full review in this catalogue as it has recently been updated by Ahmed and Sanborn (2010), however the fauna are briefly compared.

The checklists presented here are full of compromises but our guiding intention has been to present all the relevant information in a manner that is as compact and informative as possible. No doubt there are errors which have crept in, or which have not been discovered in the previous literature, and we welcome all suggestions to rectify any errors or omissions. To aide future studies the next incarnation will be digital, and the list of species is already in the process of migrating to a [website](#), where updates will be maintained as and when changes occur. The website will also allow the community to share images and information on each species, providing an up-to-date resource, hopefully for many years to come.

Historically the regions making up the Indian subcontinent have had a complex nomenclature (Figs 2, 3), further compounded by different authors interpreting locality labels to mean different regions. In particular the confusion between East India, East Indies, India, Indo-China and Indonesia, will mean that some species included in this list are unlikely to occur in the focal region, but are included until further study proves otherwise.

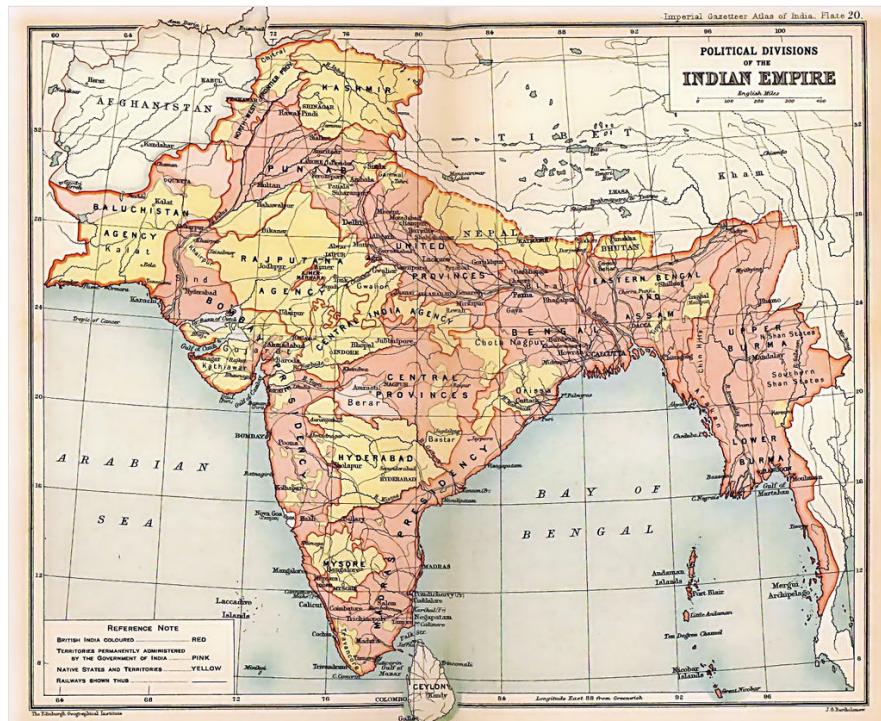

Figure 2.

Map of the Indian subcontinent showing the historical extent of “British India” published in 1909. Map source Edinburgh Geographical Institute; J. G. Bartholomew and Sons. [Public domain], via Wikimedia Commons.

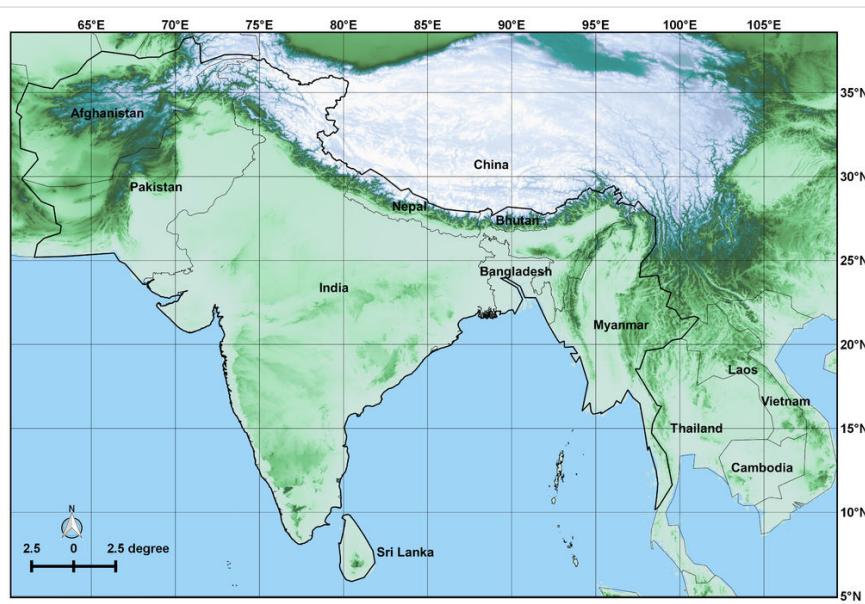

Figure 3.

Map of the Indian subcontinent, including countries as politically delineated at present that were at one time considered part of “British India” and countries surrounding “British India” with which the fauna of Bangladesh, Bhutan, India, Myanmar, Nepal, Pakistan and to a lesser extent Sri Lanka likely overlaps.

## Materials and methods

### Checklists

The checklist was based on the “*The fauna of British India, including Ceylon and Burma*” (Distant 1906c) and its supplement (Distant 1916), the four catalogues which list the global cicada literature (Distant 1906b, Metcalf 1963, Duffels and van der Laan 1985, Sanborn 2014) and the material housed at the Natural History Museum, London. In addition species which have been described after 2010 were incorporated by searching Google Scholar (<https://scholar.google.co.uk/>) and ScienceDirect (<http://www.sciencedirect.com/>) using a combination of “India”, “Bangladesh”, “Bhutan”, “Myanmar”, “Nepal”, “Sri Lanka”, and “cicada” and “Cicadidae”. The checklist is based on either the locality of the type specimen, the locality of specimens whose identity has been verified or substantial literature evidence. This checklist follows the higher taxonomy of Sanborn (2014) with updated generic combinations including current information as of September 2015. Institutional abbreviations are summarized in Table 1.

**Table 1.**

Summary of institutional abbreviations used in the checklists. Data sourced from Evenhuis (2015).

<b>Abbreviation</b>	<b>Institution</b>
AMS	Australian Museum, Sydney, Australia
BPBM	Bernice P. Bishop Museum, Honolulu, USA
CAS	California Academy of Sciences, San Francisco, California, USA

ZMUC	Zoological Museum, University of Copenhagen, Copenhagen, Denmark

Due to the significant gap since the last major reviews by Distant, and the dramatic changes in the geographic boundaries of the countries involved (Figs 2, 3), two lists have been developed:

(1) Species present in India and Bangladesh (treated here as a single unit), Bhutan, Myanmar, Nepal and Sri Lanka.

(2) Species historically included in the countries listed above, but on analysis are very unlikely to be present in these countries, with reasons for their exclusion listed in the notes.

We have not considered the cicada fauna of Pakistan as these species have recently been studied (Ahmed and Sanborn 2010).

## Specimen Images

All type specimens examined were photographed (dorsal and ventral) and are accessible at: <http://www.indiancicadas.org/>.

## Bibliography

For each species recorded from the Indian subcontinent the original description was sourced. In addition, any publication listing the focal region (as summarized by the four major catalogues) was sourced and confirmed. The citation of each authority is linked in this manuscript through the Notes field and in addition is publically accessible on Mendeley as the “Cicadas of the Indian subcontinent”: <http://mnd.ly/1OFGZc1>. Original species descriptions without copyright restrictions can be downloaded from the NHM data portal: [ht tp://dx.doi.org/10.5519/0028307](http://dx.doi.org/10.5519/0028307).

## Data resources

The bibliography is publically accessible on Mendeley: <http://mnd.ly/1OFGZc1>

The species descriptions are available on the NHM data portal: [http:// dx.doi.org/10.5519/0028307](http://dx.doi.org/10.5519/0028307)

The checklist files for each individual country are available on the NHM data portal: [http:// dx.doi.org/10.5519/0028307](http://dx.doi.org/10.5519/0028307)

The above files and information, along with images of specimens examined are also available on the Cicadas of India website: <http://www.indiancicadas.org/>

## Checklist 1 - Species recorded from India, Bangladesh, Bhutan, Myanmar, Nepal and Sri Lanka

### *Abroma apicalis* Ollenbach, 1929

#### Nomenclature:

*Abroma apicalis* Ollenbach, 1929

#### Material

#### Holotype:

- a. scientificName: *Abroma apicalis* Ollenbach, 1929; continent: Asia; country: India; locality: Dehra Dun; individualCount: 1; sex: female; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Uttar Pradesh; India.

**Notes:** Authority: Ollenbach 1929

### *Abroma bengalensis* Distant, 1906

#### Nomenclature:

*Abroma bengalensis* Distant 1906

#### Material

#### Holotype:

- a. scientificName: *Abroma bengalensis* Distant, 1906; continent: Asia; country: India; locality: Kurseong, Bengal; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009605; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal; India. [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Distant 1906c

### *Abroma maculicollis* (Guérin-Méneville, 1838)

#### Nomenclature:

*Cicada maculicollis* Guérin-Méneville, 1838

#### Materials

#### Holotype:

- a. scientificName: *Abroma maculicollis* (Guérin-Méneville, 1838); continent: Asia; country: India; locality: Bengal; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Abroma maculicollis* (Guérin-Méneville, 1838); continent: Asia; country: Malaysia; locality: Kuala Lumpur; eventDate: 13/04/1932; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009606; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal; India; Malay Peninsula; Ceylon; Borneo; Malay States; Perak; Malacca; Singapore Island; Johore; Penang; Uttar Pradesh; Malaya. [Sanborn, 2014] Borneo, Sabah, Bengal, China, Sumatra, Java, India, Peninsular Malaysia, Sarawak, Manipur, West Bengal, Sri Lanka, Malay Peninsula.

**Notes:** Authority: Guérin-Méneville 1838

***Abroma nubifurca* (Walker, 1858)****Nomenclature:**

*Cicada nubifurca* Walker, 1858

*Cicada apicalis* Kirkaldy, 1891

**Material****Holotype:**

- a. scientificName: *Abroma nubifurca* (Walker, 1858); continent: Asia; country: Sri Lanka; locality: Ceylon; sex: female; catalogNumber: BMNH(E) 1009607; recordedBy: R. Templeton; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Ceylon. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] Ceylon.

**Notes:** Authority: Walker 1858b

***Aetanna tigroides* (Walker, 1858)****Nomenclature:**

*Dundubia tigroides* Walker, 1858

**Materials****Holotype:**

- a. scientificName: *Aetanna tigroides* (Walker, 1858); continent: Asia; country: India; locality: Hindostan; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009432; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Aetanna tigroides* (Walker, 1858); continent: Asia; country: India; locality: Dehra Dun; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009433; recordedBy: P.W. Mackinnon; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Hindustan; Tenasserim; India; Laos; Borneo; Banguey.

**Notes:** Authority: Walker 1858a; Species description states female, however Distant 1889a later figured a male. The holotype is likely a male as there is only one specimen in the NHMUK collection.

### ***Ambragaeana stellata* subsp. *stellata* (Walker, 1858)**

#### **Nomenclature:**

*Huechys stellata* Walker, 1858

#### **Materials**

##### ***Holotype:***

- a. scientificName: *Ambragaeana stellata stellata* (Walker, 1858); continent: Asia; country: India; locality: Hindostan; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009594; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

##### ***Other material:***

- a. scientificName: *Ambragaeana stellata stellata* (Walker, 1858); continent: Asia; country: India; locality: Margherita, Assam; individualCount: 1; sex: male; catalogNumber: BMNH (E) 1009595; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Assam; Khasi Hills. [Metcalf, 1963] Hindustan; India; Assam; Northern India. [Sanborn, 2014] Thailand, Hindustan, India, China.

**Notes:** Authority: Walker 1858a

### ***Ambragaeana stellata* var. *a* (Distant, 1892)**

#### **Nomenclature:**

*Gaeana stellata* var. *a* Distant, 1892

#### **Material**

##### ***Holotype:***

- a. scientificName: *Ambragaeana stellata* var. *a* (Distant, 1892); continent: Asia; country: India; locality: Margherita, Assam; sex: female; recordedBy: William Doherty; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; Northern India.

**Notes:** Authority: Distant 1892c

## ***Angamiana aetherea* Distant, 1890**

### **Nomenclature:**

*Angamiana aetherea* Distant, 1890

### **Materials**

#### **Syntype:**

- a. scientificName: *Angamiana aetherea* Distant, 1890; continent: Asia; country: India; locality: Naga Hills; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009378; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Angamiana aetherea* Distant, 1890; continent: Asia; country: India; locality: Naga Hills; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009825; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- c. scientificName: *Angamiana aetherea* Distant, 1890; continent: Asia; country: India; locality: Naga Hills; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009823; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- d. scientificName: *Angamiana aetherea* Distant, 1890; continent: Asia; country: India; locality: Naga Hills; individualCount: 1; sex: male; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; India. [Sanborn, 2014] Assam, Continental India.

**Notes:** Authority: Distant 1890b; Unsure of number of specimens in species description, NHMUK has 2 male and 2 female specimens matching type description.

## ***Balinta delinenda* (Distant, 1888)**

### **Nomenclature:**

*Gaeana delinenda* Distant, 1888

### **Materials**

#### **Syntype:**

- a. scientificName: *Balinta delinenda* (Distant, 1888); continent: Asia; country: India; locality: Cochin; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009597; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Balinta delinenda* (Distant, 1888); continent: Asia; country: Bangladesh; locality: Silhet; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; Cochin; India; Cochin China; Indochina. [Sanborn, 2014] Vietnam, India.

**Notes:** Authority: Distant 1888a; Two specimens used in species description, however only one is present in the NHMUK collection, an additional specimen can be found

under "*Balinta* sp" which may be the other syntype, however this requires additional study.

### ***Balinta octonotata* subsp. *octonotata* (Westwood, 1845)**

#### **Nomenclature:**

*Cicada octonotata* Westwood, 1845

*Huechys picta* Walker, 1858

#### **Materials**

##### **Syntype:**

- a. scientificName: *Balinta octonotata octonotata* (Westwood, 1845); continent: Asia; country: India; locality: Assam; sex: male; recordedBy: Mr Robinson; institutionCode: OUMNH; basisOfRecord: PreservedSpecimen
- b. scientificName: *Balinta octonotata octonotata* (Westwood, 1845); continent: Asia; country: India; locality: Assam; sex: female; recordedBy: Mr Robinson; institutionCode: OUMNH; basisOfRecord: PreservedSpecimen

##### **Other material:**

- a. scientificName: *Balinta octonotata octonotata* (Westwood, 1845); continent: Asia; country: India; locality: Sikkim; eventDate: ??/??/1905; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009598; recordedBy: Moller; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: Sikkim; Margherita (Assam). Burma: Upper Regions. [Metcalf, 1963] Assam; Java; Sikkim; India; Burma. [Duffels and van der Laan, 1985] Bhutan; Nepal. [Sanborn, 2014] Assam.

**Notes:** Authority: Westwood 1845

### ***Balinta octonotata* var. *a* (Westwood, 1845)**

#### **Nomenclature:**

*Gaeana octonotata* var. *a* Distant, 1892

#### **Materials**

##### **Syntype:**

- a. scientificName: *Balinta octonotata* var. *a* Distant, 1892; continent: Asia; country: India; locality: Assam, Margherita; recordedBy: William Doherty; basisOfRecord: PreservedSpecimen
- b. scientificName: *Balinta octonotata* var. *a* Distant, 1892; continent: Asia; country: Myanmar; locality: Burma; recordedBy: C.T. Bingham; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; Burma.

**Notes:** Authority: Westwood 1845

***Balinta octonotata* var. *b* (Westwood, 1845)****Nomenclature:**

*Gaeana octonotata* var. *b* Distant, 1892

**Material****Holotype:**

- a. scientificName: *Balinta octonotata* var. *b* Distant, 1892; continent: Asia; country: Myanmar; locality: Upper Burma; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Upper Burma.

**Notes:** Authority: Westwood 1845

***Balinta sanguiniventris* Ollenbach, 1929****Nomenclature:**

*Balinta sanguiniventris* Ollenbach, 1929

**Material****Holotype:**

- a. scientificName: *Balinta sanguiniventris* Ollenbach, 1929; continent: Asia; country: India; locality: Murphuleni, Assam; individualCount: 1; sex: male; recordedBy: H. Inglis; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; India.

**Notes:** Authority: Ollenbach 1929

***Balinta tenebricosa* subsp. *tenebricosa* (Distant, 1888)****Nomenclature:**

*Gaeana tenebricosa* Distant, 1888

**Materials****Holotype:**

- a. scientificName: *Balinta tenebricosa tenebricosa* (Distant, 1888); continent: Asia; country: Myanmar; locality: Moolay River, Teinzo, Burma; eventDate: ??/05/1886; individualCount: 1; sex: male; catalogNumber: NHMUK 010214244; recordedBy: Leonardo Fea; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Balinta tenebricosa tenebricosa* (Distant, 1888); continent: Asia; country: Vietnam; locality: Tonkin; eventDate: ??/06/1917; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009599; recordedBy: R.V. de Salvaza; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; Laos. [Sanborn, 2014] China, Guangxi, Burma, Thailand, Laos, Vietnam.

**Notes:** Authority: Distant 1888d

### ***Balinta tenebricosa* var. *a* (Distant, 1888)**

**Nomenclature:**

*Gaeana tenebricosa* var. *a* Distant, 1892

### **Material**

**Holotype:**

- a. scientificName: *Balinta tenebricosa* var. *a* Distant, 1892; continent: Asia; country: Myanmar; locality: Burma; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma.

**Notes:** Authority: Distant 1888d

### ***Basa singularis* (Walker, 1858)**

**Nomenclature:**

*Dundubia singularis* Walker, 1858

### **Materials**

**Holotype:**

- a. scientificName: *Basa singularis* (Walker, 1858); continent: Asia; country: India; locality: E. India, Hindostan; sex: male; catalogNumber: BMNH(E) 1009538; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Basa singularis* (Walker, 1858); continent: Asia; country: India; locality: Sikkim; verbatimElevation: 4000 ft; eventDate: ??/07/1895; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009539; recordedBy: J.G. Pilcher; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Darjeeling. [Metcalf, 1963] Hindustan; India; Bengal; Sikkim. [Sanborn, 2014] India.

**Notes:** Authority: Walker 1858b

### ***Bijaurana sita* Distant, 1912**

**Nomenclature:**

*Bijaurana sita* Distant, 1912

## Material

### Holotype:

- a. scientificName: *Bijaurana sita* Distant, 1912; continent: Asia; country: India; locality: United Provinces; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009608; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] United Provinces; India.

**Notes:** Authority: Distant 1912c

## *Bijaurana typica* Distant, 1912

### Nomenclature:

*Bijaurana typica* Distant, 1912

## Materials

### Syntype:

- a. scientificName: *Bijaurana typica* Distant, 1912; continent: Asia; country: Nepal; locality: Bijaura; eventDate: 28-29/04/1907; sex: male; catalogNumber: BMNH(E) 1009609; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Bijaurana typica* Distant, 1912; continent: Asia; country: Nepal; locality: Nepal; institutionCode: NZSI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Nepal; Natal. [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Distant 1912c; Multiple specimens (number unknown) used in species description.

## *Calcagninus divaricatus* Bliven, 1964

### Nomenclature:

*Calcagninus divaricatus* Bliven, 1964

## Material

### Holotype:

- a. scientificName: *Calcagninus divaricatus* Bliven, 1964; continent: Asia; country: India; locality: Singara, Nilgiri Hills, South India; verbatimElevation: 3500 ft; eventDate: 8/05/1963; individualCount: 1; sex: male; recordedBy: P. Susai Nathan; institutionCode: CAS; basisOfRecord: PreservedSpecimen

**Distribution:** [Duffels and van der Laan, 1985] South India.

**Notes:** Authority: Bliven 1964

## ***Calcagninus nilgirensis* (Distant, 1887)**

### **Nomenclature:**

*Leptopsaltria nilgirensis* Distant, 1887

### **Material**

#### **Holotype:**

- a. scientificName: *Calcagninus nilgirensis* (Distant, 1887); continent: Asia; country: India; locality: Nilgiri Hills, northern slopes (Madras); verbatimElevation: 5000 ft; eventDate: 2/06/1887; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009564; recordedBy: G.F. Hampson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Neelgiri Hills (northern slopes, 5000 ft). [Metcalf, 1963] Madras; India.

**Notes:** Authority: Distant 1887b

## ***Calcagninus picturatus* (Distant, 1888)**

### **Nomenclature:**

*Leptopsaltria picturatus* Distant, 1888

### **Material**

#### **Holotype:**

- a. scientificName: *Calcagninus picturatus* (Distant, 1888); continent: Asia; country: India; locality: Nilgiri Hills, northern slopes (Madras); verbatimElevation: 5000 ft; eventDate: 28/06/1887; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009563; recordedBy: G.F. Hampson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Neelgiri Hills (northern slopes, 5000 ft). [Metcalf, 1963] Madras; India.

**Notes:** Authority: Distant 1888c

## ***Callogaeana annamensis* var. b (Distant, 1892)**

### **Nomenclature:**

*Gaeana annamensis* var. b Distant, 1892

*Gaeana festiva* var. b Distant, 1892

## Material

### Holotype:

- a. scientificName: *Callogaeana annamensis* var. b (Distant, 1892); continent: Asia; country: India; locality: south of Brahmapootra, Assam; recordedBy: A.W. Chennell; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam.

**Notes:** Authority: Distant 1892c

## *Callogaeana festiva* subsp. *festiva* (Fabricius, 1803)

### Nomenclature:

*Tettigonia festiva* Fabricius, 1803

*Cicada thalassina* Percheron, 1838 (nec Germar, 1830)

*Cicada percheronii* Guerin-Meneville, 1844

## Materials

### Holotype:

- a. scientificName: *Callogaeana festiva festiva* (Fabricius, 1803); continent: Asia; country: Indonesia; locality: Sumatra; recordedBy: D. Daldorff; institutionCode: MZLU; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Callogaeana festiva festiva* (Fabricius, 1803); continent: Asia; country: India; locality: Sikkim; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009591; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Sikkim; Darjeeling. [Metcalf, 1963] Sumatra; India; Bengal; Malabar; Asia; Cuba (?); Eastern India; Assam; Sikkim; Molucca Islands; Laos; Amboina; Malay Archipelago; Amboina (?); Malay Peninsula; East Indies. [Duffels and van der Laan, 1985] Bhutan. [Sanborn, 2014] China, Hunan, Guangxi, Yunnan, Indonesia, Sikkim, India, Thailand, Sumatra, Laos, Malaysia, Indochina, Bhutan, Southeast Asia.

**Notes:** Authority: Fabricius 1803

## *Champaka spinosa* (Fabricius, 1787)

### Nomenclature:

*Tettigonia spinosa* Fabricius, 1787

*Tettigonia bispinosa* Gmelin, 1789 (nom. nov. pro.)

*Cosmopsaltria abdulla* Distant, 1881

*Platylomia maculata* Liu, 1940

## Material

### Holotype:

- a. scientificName: *Champaka spinosa* (Fabricius, 1787); continent: Asia; country: Indonesia; locality: Sumatra; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Sumatra; New Guinea; Madras; Philippine Islands; Eastern India; Japan; Singapore Island; Penang; India; Malay Peninsula; Borneo; British North Borneo; Kyushu; Oriental Region; Sarawak; Burma; Assam; Sikkim; Tenasserim; Northern Borneo; Malaya; Malacca; Perak; Johore; Southern Japan; Japan (?); Kyushu (?); Malay Archipelago. [Sanborn, 2014] Malaysia, Borneo, Indonesia, Krakataus, Sarawak, Sabah, Peninsular Malaysia, Sumatra, Philippines, Singapore, New Guinea, Thailand, West Malaysia, East Malaysia, Brunei, Kalimantan, Java, India?, New Guinea, Vietnam, Thailand, Luzon.

**Notes:** Authority: Fabricius 1787

## *Chremistica germana* (Distant, 1888)

### Nomenclature:

*Cicada germana* Distant, 1888

## Material

### Holotype:

- a. scientificName: *Chremistica germana* (Distant, 1888); continent: Asia; country: Myanmar; locality: Teinzo, Burma; sex: male; recordedBy: Leonardo Fea; institutionCode: MSNG; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; Siam; Malay States; Penang; Malay Peninsula; Borneo; Sumatra; Java; Mentawai Island; Siberut; India. [Sanborn, 2014] Sarawak, Burma, Peninsular Malaysia, Siam, Sumatra, India, Southeast Asia, Indonesia, Thailand.

**Notes:** Authority: Distant 1888d. Metcalf (1963) listed India in reference Burma being part of "British India". The type locality (Teinzo) is within modern day Myanmar and the species has not yet been recorded from modern day India, however the species may be present on the India/Myanmar border.

## ***Chremistica mixta* (Kirby, 1891)**

### **Nomenclature:**

*Dundubia mixta* Kirby, 1891

### **Material**

#### *Holotype:*

- a. scientificName: *Chremistica mixta* (Kirby, 1891); locality: Locality unknown; individualCount: 1; sex: female; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Ceylon. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] Sri Lanka.

**Notes:** Authority: Kirby 1891

## ***Chremistica ribhoi* Hajong & Yaakop, 2013**

### **Nomenclature:**

*Chremistica ribhoi* Hajong & Yaakop, 2013

### **Materials**

#### *Holotype:*

- a. scientificName: *Chremistica ribhoi* Hajong & Yaakop, 2013; continent: Asia; country: India; locality: Near Siden village, North-East India; verbatimElevation: 432 m; eventDate: 9/06/2006; individualCount: 1; sex: male; institutionCode: NZSI; basisOfRecord: PreservedSpecimen

#### *Paratype:*

- a. scientificName: *Chremistica ribhoi* Hajong & Yaakop, 2013; continent: Asia; country: India; locality: Lailad, near Nongkyllem Wildlife Sanctuary; verbatimElevation: 416; individualCount: 23; sex: male; institutionCode: ERC-ZSI; basisOfRecord: PreservedSpecimen
- b. scientificName: *Chremistica ribhoi* Hajong & Yaakop, 2013; continent: Asia; country: India; locality: Lailad, near Nongkyllem Wildlife Sanctuary; verbatimElevation: 416; individualCount: 7; sex: female; institutionCode: ERC-ZSI; basisOfRecord: PreservedSpecimen

**Distribution:** [Sanborn, 2014] Cooch Behar, Alipurduar, Kalingpong, N. Paschimbanga, NE India; Guwahati, Assam, NE India; Ri Bhoi District, Meghalaya, NE India.

**Notes:** Authority: Hajong and Yaakop 2013; Species description included 1 male holotype, 23 male and 7 female paratypes.

## ***Chremistica seminiger* (Distant, 1909)**

### **Nomenclature:**

*Rihana seminiger* Distant, 1909

### **Material**

#### **Holotype:**

- a. scientificName: *Chremistica seminiger* (Distant, 1909); continent: Asia; country: India; locality: Nilgiri Hills; individualCount: 1; sex: male; recordedBy: H.L. Andrewes; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Madras; Nilgiri Hills; India. [Sanborn, 2014] India.

**Notes:** Authority: Distant 1909

## ***Cicada conspurcata* (Fabricius, 1777)**

### **Nomenclature:**

*Tettigonia conspurcata* Fabricius, 1777

### **Material**

#### **Holotype:**

- a. scientificName: *Cicada conspurcata* (Fabricius, 1777); continent: Asia; country: India; recordedBy: Dr Fothergill; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India.

**Notes:** Authority: Fabricius 1777

## ***Cicada olivierana* Metcalf, 1963**

### **Nomenclature:**

*Cicada olivierana* Metcalf, 1963

*Cicada ferruginea* Olivier, 1790 (nec Fabricius, 1787)

### **Material**

#### **Holotype:**

- a. scientificName: *Cicada olivierana* Metcalf, 1963; continent: Asia; locality: Indes Orientales; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] East Indies; India.

**Notes:** Authority: Metcalf 1963; type distribution only states "indes Orientales" (i.e. East Indies) and as this encompassed a large area of Asia it cannot be confirmed or denied as being from India. Metcalf (1963) stated India in reference to various lists and catalogues which all referred to the type specimen as from India.

## ***Cicadatra acberi* (Distant, 1888)**

### **Nomenclature:**

*Tibicen acberi* Distant, 1888

### **Material**

#### **Holotype:**

- a. scientificName: *Cicadatra acberi* (Distant, 1888); continent: Asia; country: India; locality: Cashmere Valley; verbatimElevation: 6300 ft; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009573; recordedBy: Leech; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Kashmir, India. [Sanborn, 2014] Pakistan, India.

**Notes:** Authority: Distant 1888c

## ***Cicadatra anoae* (Walker, 1850)**

### **Nomenclature:**

*Cicada anoae* Walker, 1850

### **Material**

#### **Holotype:**

- a. scientificName: *Cicadatra anoae* (Walker, 1850); continent: Asia; country: India; locality: North Bengal; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal; India; Northern Bengal; Afghanistan.

**Notes:** Authority: Walker 1850

## ***Cicadatra gingat* China, 1926**

### **Nomenclature:**

*Cicadatra gingat* China, 1926

### **Material**

#### **Holotype:**

- a. scientificName: *Cicadatra gingat* China, 1926; continent: Asia; country: Pakistan; locality: Razmak, Waziristan; verbatimElevation: 6000 - 7000 ft; eventDate: ??/06/1926; individualCount: 1; sex: male; recordedBy: E.B. Howell; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Northwestern Frontier Province; Northwestern India. [Sanborn, 2014] Pakistan, India.

**Notes:** Authority: China 1926

## *Cicadatra inconspicua* Distant, 1912

### Nomenclature:

*Cicadatra inconspicua* Distant, 1912

### Material

#### Holotype:

- a. scientificName: *Cicadatra inconspicua* Distant, 1912; continent: Asia; country: India; locality: Mhow; eventDate: ??/??/1905; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009572; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Central Provinces; India.

**Notes:** Authority: Distant 1912a

## *Cicadatra raja* Distant, 1906

### Nomenclature:

*Cicadatra raja* Distant, 1906

### Material

#### Holotype:

- a. scientificName: *Cicadatra raja* Distant, 1906; continent: Asia; country: India; locality: Aglar Valley (Jumna River), Masuri; verbatimElevation: 3000 ft; eventDate: 18/06/1904; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009568; recordedBy: P.W. Mackinnon; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Northwestern India. [Sanborn, 2014] Pakistan, India.

**Notes:** Authority: Distant 1906d

## *Cicadatra sankara* (Distant, 1904)

### Nomenclature:

*Tibicen sankara* Distant, 1904

### Materials

#### Syntype:

- a. scientificName: *Cicadatra sankara* (Distant, 1904); continent: Asia; country: India; locality: Chamasari; verbatimElevation: 5000 ft; eventDate: ??/05/1903; sex: male; catalogNumber: BMNH(E) 1009569; recordedBy: P.W. Mackinnon; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Cicadatra sankara* (Distant, 1904); continent: Asia; country: India; locality: Chamasari; verbatimElevation: 5000 ft; eventDate: ??/05/1903; sex: female; recordedBy: P.W. Mackinnon; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Baluchistan; Oriental Region; Northern India; Uttar Pradesh. [Sanborn, 2014] Pakistan, India.

**Notes:** Authority: Distant 1904b

### ***Cicadatra walkeri* Metcalf, 1963**

#### **Nomenclature:**

*Cicadatra walkeri* Metcalf, 1963

*Cicada striata* Walker, 1850 (nec Linnaeus, 1758)

#### **Material**

#### **Holotype:**

- a. scientificName: *Cicadatra walkeri* Metcalf, 1963; locality: Locality unknown; sex: female; catalogNumber: BMNH(E) 1009570; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Quetta; North Bengal. [Metcalf, 1963] India; Quetta; Bengal; Pakistan; Oriental Region; Baluchistan. [Sanborn, 2014] Pakistan, India.

**Notes:** Authority: Metcalf 1963

### ***Cicadatra xantes* (Walker, 1850)**

#### **Nomenclature:**

*Cicada xantes* Walker, 1850

*Cicada subvenosa* Walker, 1858

#### **Material**

#### **Holotype:**

- a. scientificName: *Cicadatra xantes* (Walker, 1850); continent: Asia; country: India; locality: N. India; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009566; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Hindustan; Northern India; Oriental Region; Sind; Peshawar. [Sanborn, 2014] Pakistan, India.

**Notes:** Authority: Walker 1850

### ***Cicadetta intermedia* (Ollenbach, 1929)**

#### **Nomenclature:**

*Melampsalta intermedia* Ollenbach, 1929

## Material

### *Holotype:*

- a. scientificName: *Cicadetta intermedia* (Ollenbach, 1929); continent: Asia; country: India; locality: Kotkhai, Simla Hill States, Punjab; eventDate: ??/05/1924; individualCount: 1; sex: female; recordedBy: B.M. Bhatia; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Punjab; India.

**Notes:** Authority: Ollenbach 1929

## *Cicadetta minuta* (Ollenbach, 1929)

### **Nomenclature:**

*Melampsalta minuta* Ollenbach, 1929

## Materials

### *Syntype:*

- a. scientificName: *Cicadetta minuta* (Ollenbach, 1929); continent: Asia; country: India; locality: Kanasar, Chakrata, United Provinces; verbatimElevation: 5000 - 7000 ft; eventDate: ??/06/1923; individualCount: 1; sex: male; recordedBy: C.F.C. Beeson; institutionCode: IFRI; basisOfRecord: PreservedSpecimen
- b. scientificName: *Cicadetta minuta* (Ollenbach, 1929); continent: Asia; country: India; locality: Kanasar, Chakrata, United Provinces; verbatimElevation: 5000 - 7000 ft; eventDate: ??/06/1923; individualCount: 1; sex: female; recordedBy: C.F.C. Beeson; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] United Provinces; India; Uttar Pradesh.

**Notes:** Authority: Ollenbach 1929

## *Cryptotympana aquila* (Walker, 1850)

### **Nomenclature:**

*Fidicina aquila* Walker, 1850

## Material

### *Holotype:*

- a. scientificName: *Cryptotympana aquila* (Walker, 1850); continent: Asia; country: Korea; locality: Corea; sex: female; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Korea, Borneo, Sumatra, Malay Peninsula, Tonkin, Malay States, Japan, Perak, Malacca, Singapore Island, Johore, Penang, Hong Kong Island, Oriental Region, Java, Sarawak, Malaya, Korea (?), Formosa, Philippine Islands. [Duffels and van der Laan, 1985] Taiwan, Malaysia, Korea. [Sanborn, 2014] Sumatra,

Malay Peninsula, Borneo, Indo-China, Borneo, Thailand, Burma, Laos, Vietnam, Malaysia, Sarawak, China, Brunei, Korea, Sabah, Southeast Asia.

**Notes:** Authority: Walker 1850

### ***Cryptotympana auropilosa* Hayashi, 1987**

**Nomenclature:**

*Cryptotympana auropilosa* Hayashi, 1987

### **Material**

**Holotype:**

- a. scientificName: *Cryptotympana auropilosa* Hayashi, 1987; continent: Asia; country: Myanmar; locality: Rangoon; individualCount: 1; sex: female; recordedBy: Archbald; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Sanborn, 2014] Burma.

**Notes:** Authority: Hayashi 1987a

### ***Cryptotympana corvus* (Walker, 1850)**

**Nomenclature:**

*Fidicina corvus* Walker, 1850

*Fidicina invarians* Walker, 1858

### **Materials**

**Holotype:**

- a. scientificName: *Cryptotympana corvus* (Walker, 1850); continent: Asia; country: Bangladesh; locality: Silhet; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009382; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Cryptotympana corvus* (Walker, 1850); continent: Asia; country: India; locality: Sikkim; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Sikkim; Darjeeling; Assam; Sylhet; Naga Hills; Neelgiri Hills (southern slopes). [Metcalf, 1963] Assam; Hindustan; East Bengal; India; Tonkin; Sikkim; Bengal; Eastern Himalayas; Madras; Uttar Pradesh. [Duffels and van der Laan, 1985] Himalaya. [Sanborn, 2014] China, Indo-China, Himalayas, India, Bangladesh, Bhutan, Nepal.

**Notes:** Authority: Walker 1850; Species description states female, however the labelled type specimen examined in the NHMUK is male.

## *Cryptotympana edwardsi* Kirkaldy, 1902

### Nomenclature:

*Cryptotympana edwardsi* Kirkaldy, 1902

### Material

#### Holotype:

- a. scientificName: *Cryptotympana edwardsi* Kirkaldy, 1902; continent: Asia; country: India; sex: male; recordedBy: Edwards; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India. [Sanborn, 2014] India.

**Notes:** Authority: Kirkaldy 1902

## *Cryptotympana exalbida* Distant, 1891

### Nomenclature:

*Cryptotympana exalbida* Distant, 1891

### Materials

#### Syntype:

- a. scientificName: *Cryptotympana exalbida* Distant, 1891; continent: Asia; country: India; locality: Nilgiri N. Slopes; verbatimElevation: 3500 ft; eventDate: 25/05/1888; individualCount: 4; sex: female; catalogNumber: BMNH(E) 1009387; occurrenceRemarks: Voucher number corresponds to one specimen.; recordedBy: G. Hampson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

#### Other material:

- a. scientificName: *Cryptotympana exalbida* Distant, 1891; continent: Asia; country: Sri Lanka; locality: Oduchuddan; eventDate: ??/05/1910; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009386; occurrenceRemarks: Specimen not part of type series, see taxon notes.; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Sikkim; Ceylon; Madras. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] India, Sri Lanka.

**Notes:** Authority: Distant 1891; In the NHMUK there is a male specimen bearing a type label and a note from Broomfield dated 1978. This male specimen was described later by Distant (1913a). The type series includes four females from "Continental India: Neelgiri Hills, northern slopes, 3500 feet (Hampson-coll. Dist.)".

## *Cryptotympana insularis* Distant, 1887

### Nomenclature:

*Cryptotympana insularis* Distant, 1887

## Materials

### Lectotype:

- a. scientificName: *Cryptotympana insularis* Distant, 1887; continent: Asia; country: India; locality: Port Blair, Andaman Islands; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009379; recordedBy: Meldola; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

### Paralectotype:

- a. scientificName: *Cryptotympana insularis* Distant, 1887; continent: Asia; country: India; locality: Port Blair, Andaman Islands; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009380; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Andaman Islands. [Sanborn, 2014] Andaman Islands.

**Notes:** Authority: Distant 1887a; Lectotype designated by Hayashi (1987b).

## *Cryptotympana intermedia* (Signoret, 1849)

### Nomenclature:

*Cicada intermedia* Signoret, 1849

## Materials

### Holotype:

- a. scientificName: *Cryptotympana intermedia* (Signoret, 1849); continent: Asia; country: Indonesia; locality: Java; sex: male; recordedBy: Patrie; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Cryptotympana intermedia* (Signoret, 1849); continent: Asia; country: India; locality: N. Bengal; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Java; Bengal; Tenasserim; Japan; China; India; Ceylon; Mysore; Malay States; Honshu; Kyushu; Ryukyu Islands; Oriental Region; Formosa; Sikkim; Malaya; Java (?); Ceylon (?); Northern Bengal; Madras; United Providences. [Duffels and van der Laan, 1985] Ceylon; Nepal. [Sanborn, 2014] India, Nepal, Burma, Himalayas.

**Notes:** Authority: Signoret 1849 Not likely to be found in Sri Lanka.

## *Cryptotympana limborgi* Distant, 1888

### Nomenclature:

*Cryptotympana limborgi* Distant, 1888

## Material

### Holotype:

- a. scientificName: *Cryptotympana limborgi* Distant, 1888; continent: Asia; country: Myanmar; locality: Tenasserim; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009385; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Tenasserim; East Bengal; Upper Tenasserim. [Sanborn, 2014] Burma.

**Notes:** Authority: Distant 1888a

## *Cryptotympana mandarina* Distant, 1891

### Nomenclature:

*Cryptotympana mandarina* Distant, 1891

*Fidicina operculata* Walker, 1850 (nom. nud.)

*Cryptotympana mimica* Distant, 1917

## Material

### Holotype:

- a. scientificName: *Cryptotympana mandarina* Distant, 1891; continent: Asia; country: China; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Lee, 2014] China: Fujian, Guangdong, Hunan, Guangxi, Hainan, Sichuan, Guizhou, Yunnan, Tibet. Vietnam; Laos; Cambodia; Thailand; Myanmar. [Metcalf, 1963] Northern India; China; Tonkin; Hong Kong Island; Tenasserim; Hainan; Indochina; Formosa; Japan; Kiangsu; Kwangsi; Sikang; Kiangsi. [Sanborn, 2014] Hongkong, Hainan, Tenasserim, Tonkin, Formosa, China, Hunan, Hubei, Jiangsu, Jiangxi, Zhejiang, Fujian, Taiwan, Guangdong, Guangxi, Guizhou, Sichuan, Yunnan, Laos, Vietnam, India, Southeast Asia, Thailand, Myanmar, Cambodia, Indochina.

**Notes:** Authority: Distant 1891; Metcalf (1963) lists Northern India in reference to Atkinson (1884), however according to Distant (1891) "Mr. Atkinson\* states that "the Indian Museum possesses a specimen" of *C. operculata*, Carreno, but this is probably erroneous, as he writes that the species was recorded from N. India, though Walker perhaps the greatest obscurantist who has yet appeared in entomology gave no locality to the specimens he identified under Carreno's name, without any reference to the place or manner of their description."

## *Cryptotympana recta* (Walker, 1850)

### Nomenclature:

*Fidicina recta* Walker, 1850

## Material

### Holotype:

- a. scientificName: *Cryptotympana recta* (Walker, 1850); continent: Asia; country: Bangladesh; locality: Silhet; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009381; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Sylhet; North Khasi Hills; Neelgiri Hills (south slopes). [Metcalf, 1963] Assam; East Bengal; India; China; Tonkin. [Sanborn, 2014] Sumatra, Malay Peninsula, Borneo, India, Indo-China, Bangladesh, China, Vietnam, Laos, Thailand, Sunda, Asia, Guangxi, Cambodia.

**Notes:** Authority: Walker 1850; The species description was based on a single female type specimen and the male of the species was later described in Distant (1879).

## *Cryptotympana vesta* (Distant, 1904)

### Nomenclature:

*Cicada vesta* Distant, 1904

### Materials

#### Syntype:

- a. scientificName: *Cryptotympana vesta* (Distant, 1904); continent: Asia; country: India; locality: Bombay; sex: male; catalogNumber: BMNH(E) 1009384; recordedBy: R.M. Dixon; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Cryptotympana vesta* (Distant, 1904); continent: Asia; country: India; locality: Bombay; sex: female; recordedBy: R.M. Dixon; basisOfRecord: PreservedSpecimen

#### Other material:

- a. scientificName: *Cryptotympana vesta* (Distant, 1904); continent: Asia; country: India; locality: Assam; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009383; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bombay; India; Siam. [Sanborn, 2014] Thailand, India.

**Notes:** Authority: Distant 1904b

## *Distantalna splendida* subsp. *splendida* (Distant, 1878)

### Nomenclature:

*Tosena splendida* Distant, 1878

### Materials

#### Syntype:

- a. scientificName: *Distantalna splendida splendida* (Distant, 1878); continent: Asia; country: India; locality: Naga Hills; verbatimElevation: 2000 - 6000 ft; sex: male; catalogNumber:

- BMNH(E) 1009376; recordedBy: A.W. Chennell; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Distantalna splendida splendida* (Distant, 1878); continent: Asia; country: India; locality: Khasia Hills; verbatimElevation: 4500 - 6000 ft; sex: female; recordedBy: A.W. Chennell; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Distantalna splendida splendida* (Distant, 1878); continent: Asia; country: Myanmar; locality: Akyab (Sittwe); individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; India; Burma; Indochina; Naga Hills. [Sanborn, 2014] China, Yunnan, India, Burma, Thailand, Assam, Southeast Asia, Vietnam, Myanmar, Indochina.

**Notes:** Authority: Distant 1878b

### ***Dundubia emanatura* Distant, 1889**

**Nomenclature:**

*Dundubia emanatura* Distant, 1889

**Materials**

**Syntype:**

- a. scientificName: *Dundubia emanatura* Distant, 1889; continent: Asia; country: India; locality: Nilgiris, southern slopes; verbatimElevation: 3000 ft; eventDate: 12/04/1888; sex: female; catalogNumber: BMNH(E) 1009526; recordedBy: G. Hampson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Dundubia emanatura* Distant, 1889; continent: Asia; country: India; locality: Karwar; sex: male; catalogNumber: BMNH(E) 1009527; recordedBy: E.F.T. Atkinson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bombay; Madras; India. [Duffels and van der Laan, 1985] India; Andaman Islands; Nicobar Islands. [Duffels and van der Laan, 1985] India; Andaman Islands; Nicobar Islands.

**Notes:** Authority: Distant 1889b

### ***Dundubia ensifera* Bloem & Duffels, 1976**

**Nomenclature:**

*Dundubia ensifera* Bloem & Duffels, 1976

**Materials**

**Holotype:**

- a. scientificName: *Dundubia ensifera* Bloem & Duffels, 1976; continent: Asia; country: India; locality: Sibs.[agar], Assam; individualCount: 1; sex: male; recordedBy: E.F.T. Atkinson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Paratype:**

- a. scientificName: *Dundubia ensifera* Bloem & Duffels, 1976; continent: Asia; country: India; locality: Mtn. Khasi, Chenell; verbatimElevation: 1500 - 3000 ft; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Dundubia ensifera* Bloem & Duffels, 1976; continent: Asia; country: Bangladesh; locality: Silhet; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Duffels and van der Laan, 1985] Pakistan (?); India. [Sanborn, 2014] Bangladesh.

**Notes:** Authority: Bloem and Duffels 1976

***Dundubia feae* (Distant, 1892)****Nomenclature:**

*Cosmopsaltria feae* Distant, 1892

*Dundubia longina* Distant, 1917

**Materials****Paralectotype:**

- a. scientificName: *Dundubia feae* (Distant, 1892); continent: Asia; country: Myanmar; locality: Carin, Asciuii Ghecu, Tennasserim; verbatimElevation: 1400 - 1500 m; eventDate: ??/03-04/1888; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009530; occurrenceRemarks: Not Lectotype specimen; recordedBy: Leonardo Fea; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Lectotype:**

- a. scientificName: *Dundubia feae* (Distant, 1892); continent: Asia; country: Myanmar; locality: Carin, Asciuii Ghecu, Tennasserim; verbatimElevation: 1400 - 1500 m; individualCount: 1; sex: male; recordedBy: Leonardo Fea; institutionCode: MSNG; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; Kiangsu; China. [Sanborn, 2014] China, Soochow, Karennee, Laos, Thailand, Vietnam, Jiangsu, Unnan, Sichuan, Burma, Japan, India, Tenasserim, Laos, Tonkin, Guangxi, Hainan, Myanmar.

**Notes:** Authority: Distant 1892c; Lectotype was designated by Beuk (1996). There are an additional 3 male (2 MSNG; 1 BMNH) and 1 female (MSNG) paralectotypes, however only the examined material is included in this paper. Not from India: Sanborn (2014) states India in reference to Hua (2000) but no other records from India exist, it is likely the result of a mistranslation of Indo-China. The type locality (Carin Asciuii Ghecu, Tennasserim) is not near the India/Myanmar border.

## ***Dundubia hastata* (Moulton, 1923)**

### **Nomenclature:**

*Cosmopsaltria hastata* Moulton, 1923

### **Materials**

#### *Lectotype:*

- a. scientificName: *Dundubia hastata* (Moulton, 1923); continent: Asia; country: Thailand; locality: W. Coast Siam; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009528; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

#### *Paralectotype:*

- a. scientificName: *Dundubia hastata* (Moulton, 1923); continent: Asia; country: Thailand; locality: W. Coast Siam; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009529; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Moulton, 1923] Terutau Island, Siam; North Khasia Hills; Assam; Indo-China. [Metcalf, 1963] Siam; Indochina; Assam; Malay Archipelago; Malay Peninsula; Terutau Island. [Sanborn, 2014] Thailand, Indochina, India, Malaysia, Vietnam.

**Notes:** Authority: Moulton 1923; Lectotype designated by Beuk (1996).

## ***Dundubia laterocurvata* Beuk, 1996**

### **Nomenclature:**

*Dundubia laterocurvata* Beuk, 1996

### **Materials**

#### *Holotype:*

- a. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: Myanmar; locality: Mogauag; eventDate: 16330; individualCount: 1; sex: male; recordedBy: Cpt. L.C. Kuitert; institutionCode: SEMC; basisOfRecord: PreservedSpecimen

#### *Paratype:*

- a. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: India; locality: Assam; individualCount: 2; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: India; locality: Assam; individualCount: 1; sex: male; institutionCode: ZMAN; basisOfRecord: PreservedSpecimen
- c. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: India; locality: Darjiling District; verbatimElevation: 2000 ft; individualCount: 1; sex: male; recordedBy: Bemet; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- d. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: India; locality: Dilkoosha, Assam; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

- e. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: India; locality: Nazeerah, Assam; individualCount: 1; sex: male; recordedBy: Foster; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- f. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: India; locality: North India; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- g. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: India; locality: North Khasia; individualCount: 1; sex: male; institutionCode: ZMAN; basisOfRecord: PreservedSpecimen
- h. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: India; locality: Sikkim, E. Himalayas; individualCount: 1; sex: female; recordedBy: Knyvett; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- i. scientificName: *Dundubia laterocurvata* Beuk, 1996; continent: Asia; country: India; locality: Sonapur, Assam; individualCount: 1; sex: male; recordedBy: L.W. Middleton; institutionCode: ZMAN; basisOfRecord: PreservedSpecimen

**Distribution:** [Sanborn, 2014] Northern India, Northern Burma.

**Notes:** Authority: Beuk 1996; An additional 21 male paratypes (9 SEM; 6 ZMA; 6 NHMUK) and 1 female paratype (NHMUK) were designated in the species description, however only the material from India is included here.

### ***Dundubia myitkyinensis* Beuk, 1996**

**Nomenclature:**

*Dundubia myitkyinensis* Beuk, 1996

### **Material**

**Holotype:**

- a. scientificName: *Dundubia myitkyinensis* Beuk, 1996; continent: Asia; country: Myanmar; locality: Myitkyina, Burma; eventDate: 20/05/1945; individualCount: 1; sex: male; recordedBy: Grant W. Miller; institutionCode: SEMC; basisOfRecord: PreservedSpecimen

**Distribution:** [Sanborn, 2014] Burma.

**Notes:** Authority: Beuk 1996; An additional 1 female paratype (SEM) was designated in the species description.

### ***Dundubia nagarasingna* Distant, 1881**

**Nomenclature:**

*Dundubia nagarasingna* Distant, 1881

*Cosmopsaltria fratercula* Distant, 1912

*Dundubia helena* Distant, 1912

## Materials

### Lectotype:

- a. scientificName: *Dundubia nagarasingna* Distant, 1881; continent: Asia; country: Myanmar; locality: N.W. Burma; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009496; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

### Paralectotype:

- a. scientificName: *Dundubia nagarasingna* Distant, 1881; continent: Asia; country: Myanmar; locality: N.W. Burma; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009494; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; Northwestern Burma; India; Tenasserim; Cochin China; Indochina; China; Siam; Japan. [Sanborn, 2014] Peninsular Malaysia, Thailand, China, Yunnan, India, Burma, Cambodia, Laos, Vietnam, Indochina, Tenasserim, Conchin China, Siam, Malay Peninsula, Myanmar, .

**Notes:** Authority: Distant 1881; Lectotype designated by Beuk (1996).

## *Dundubia oopaga* (Distant, 1881)

### Nomenclature:

*Cosmopsaltria oopaga* Distant, 1881

*Cosmopsaltria andersoni* Distant, 1883

### Material

### Lectotype:

- a. scientificName: *Dundubia oopaga* (Distant, 1881); continent: Asia; country: Myanmar; locality: Burma; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009518; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

### Distribution:

[Metcalf, 1963] Burma; India; Siam; Indochina. [Duffels and van der Laan, 1985] Thailand; Andaman Islands; Nicobar Islands. [Sanborn, 2014] China, Yunnan, Nanking, India, Burma, Peninsular Malaysia, Borneo, Sarawak, Cambodia, Laos, Thailand, Vietnam, Malay Peninsula, Sumatra, Conchin-China, Jiansu, Indochina, Sabah, Tenasserim, Siam, Indonesia, Myanmar.

**Notes:** Authority: Distant 1881; Lectotype designated by Beuk (1996).

## *Dundubia rufivena* subsp. *rufivena* Walker, 1850

### Nomenclature:

*Dundubia rufivena* Walker, 1850

*Dundubia intemerata* Walker, 1857

*Fidicina confinis* Walker, 1870

*Dundubia mellea* Distant, 1889**Material****Syntype:**

- a. scientificName: *Dundubia rufivena rufivena* Walker, 1850; continent: Asia; country: Indonesia; locality: Java; individualCount: 2; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Java; Malay Peninsula; Sumatra; Nias; Sumbawa; Borneo; Molucca Islands; British North Borneo; Malay States; Amboina; Malaya; North Borneo; Sarawak; Southeastern Borneo; Penang; Sulu Islands; Lombok; Timor; Palawan; Singapore Island; Perak; Johore; Western Borneo; Malacca; Malay Archipelago; Krakatau; Verlaten Island; New Guinea; Sebesi; Mentawai Islands; Siberut; Sipora; Christmas Island; Lang Island. [Duffels and van der Laan, 1985] SE Asia; Malaysia; Sabah; Borneo; Philippines. [Sanborn, 2014] Borneo, Sabah, Sarawak, Java, New Guinea, Krakatau, Verlaten, Sebesi, Nias, Mentawi, Ambiona, Sumatra, Siam, Peninsular Malaysia, Celebes, Singapore, Indonesia, Bantam Island, Sabah, Assam, Philippine Republic, Laos, Irian Jaya, Malacca, India, Myanmar, Malaysia, Elopura, Moluccas, Sumbawa.

**Notes:** Authority: Walker 1850

*Dundubia terpsichore* (Walker, 1850)**Nomenclature:**

*Cephaloxys terpsichore* Walker, 1850

*Dundubia mannifera* var. a Distant, 1892 (nom. nov. pro.)

**Material****Holotype:**

- a. scientificName: *Dundubia terpsichore* (Walker, 1850); continent: Asia; country: India; locality: E. India; sex: female; catalogNumber: BMNH(E) 1009531; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Eastern India; Assam; Perak; Malay Peninsula; Indochina; Malaya; Bengal. [Sanborn, 2014] China, Malaysia, Borneo, Sarawak, Sabah, Myanmar, Tenesserim, Assam, Indo-China, Thailand, Sumatra, Sunda, Asia, Vietnam.

**Notes:** Authority: Walker 1850

*Dundubia vaginata* subsp. *vaginata* (Fabricius, 1787)**Nomenclature:**

*Tettigonia vaginata* Fabricius, 1787

*Cicada virescens* Olivier, 1790

*Dundubia immacula* Walker, 1850

*Dundubia sobria* Walker, 1850

*Dundubia manifera* Stål, 1866

*Dundubia manifera* var. a Distant, 1889

## Material

### Holotype:

- a. scientificName: *Dundubia vaginata vaginata* (Fabricius, 1787); continent: Asia; country: Indonesia; locality: Sumatra; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Sikkim and Naga Hills; Assam; Seesbagar; North Khasi Hills (1500-3000 ft). Burma: Bhamo; Moulmein. Tenasserim: Myitta-in-the-Valley. [Metcalf, 1963] Sumatra; Java; Assam; Australia; Tenasserim; Hong Kong Island; Borneo; Philippine Island; Morotai; Penang; Sikkim; India; Burma; Nias; Malay Peninsula; Celebes; China; Sinkep Island; Malacca; Palawan; Indochina; Malay States; Australia (?); Malayan Region; Oriental China; Tara bland; Mindanao; Sibuyan Island; Northern Australia; North Borneo; Banguey; Sarawak; Malaya; Malay Archipelago; Johore; Sulu Islands; Molucca Islands; Amboina; Lombok; Sumbawa; Timor; Singapore Island; Perak; Korea; British India; Kwangtang; Eastern China; Mentawai Islands; Pagi Islands; Jainan bland; Bengal; Oriental Region; Siberut. [Sanborn, 2014] China, Malaysia, Australia, Sikkim, Assam, Burma, Tenasserim, Sumatra, Java, Borneo, Celebes, Philippines, Irian Jaya, Sarawak, Sabah, Greater Sunda Islands, Southeast Asia, Peninsular Malaysia, India, Brunei, Hong Kong, Taiwan, Langkawi Island, Vietnam, Greater Sunda Islands, Philippine Republic, Japan, Malay Archipelago, Mindanao, southern China, Southern Myanmar, Panay, Luzon, Sibuyan, Palawan, Yunnan.

**Notes:** Authority: Fabricius 1787

## *Emathia aegrota* Stål, 1866

### Nomenclature:

*Emathia aegrota* Stål, 1866

*Tibicen aurengzebe* Distant, 1881

## Material

### Holotype:

- a. scientificName: *Emathia aegrota* Stål, 1866; continent: Asia; country: India; locality: Bombay; sex: male; institutionCode: NHRS; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Bombay; Khandala. [Metcalf, 1963] Bombay; India.

**Notes:** Authority: Stål 1866a

### ***Euterpnosia crowfooti* (Distant, 1912)**

**Nomenclature:**

*Terpnosia crowfooti* Distant, 1912

**Material**

**Holotype:**

- a. scientificName: *Euterpnosia crowfooti* (Distant, 1912); continent: Asia; country: India; locality: Badamtam, near Darjeeling; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009553; recordedBy: A.R. Crowfoot; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal; Northern India; Indochina; India. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] Vietnam, Nepal, India.

**Notes:** Authority: Distant 1912b

### ***Euterpnosia madhava* (Distant, 1881)**

**Nomenclature:**

*Pomponia madhava* Distant, 1881

**Material**

**Holotype:**

- a. scientificName: *Euterpnosia madhava* (Distant, 1881); continent: Asia; country: India; locality: Assam; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009549; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; India; Indochina. [Duffels and van der Laan, 1985] Bhutan. [Sanborn, 2014] Vietnam, China, Xizang, Bhutan, India.

**Notes:** Authority: Distant 1881

### ***Formotosena montivaga* (Distant, 1889)**

**Nomenclature:**

*Tosena montivaga* Distant, 1889

**Materials**

**Syntype:**

- a. scientificName: *Formotosena montivaga* (Distant, 1889); continent: Asia; country: India; locality: Naga Hills; individualCount: 1; sex: female; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

- b. scientificName: *Formotosena montivaga* (Distant, 1889); continent: Asia; country: India; locality: Naga Hills; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009375; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- c. scientificName: *Formotosena montivaga* (Distant, 1889); continent: Asia; country: India; locality: Naga Hills; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- d. scientificName: *Formotosena montivaga* (Distant, 1889); continent: Asia; country: India; locality: Naga Hills; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalfe, 1963] India; Assam; Fukien. [Sanborn, 2014] Thailand, India, Assam, Fukien.

**Notes:** Authority: Distant 1889a

### ***Gaeana atkinsoni* Distant, 1889**

#### **Nomenclature:**

*Gaeana atkinsoni* Distant, 1889

#### **Material**

#### **Holotype:**

- a. scientificName: *Gaeana atkinsoni* Distant, 1889; continent: Asia; country: India; locality: Karwar, India; individualCount: 1; sex: male; catalogNumber: NHMUK 010214245; recordedBy: E.F.T. Atkinson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalfe, 1963] Bombay; India; Travancore; Northern India. [Sanborn, 2014] Western ghats, southern India; India).

**Notes:** Authority: Distant 1889b

### ***Gaeana consors* Atkinson, 1884**

#### **Nomenclature:**

*Gaeana consors* Atkinson, 1884

*Gaeana maculata* var. a Distant, 1892

#### **Materials**

#### **Syntype:**

- a. scientificName: *Gaeana consors* Atkinson, 1884; continent: Asia; country: India; locality: Naga Hills; institutionCode: NZSI; basisOfRecord: PreservedSpecimen
- b. scientificName: *Gaeana consors* Atkinson, 1884; continent: Asia; country: India; locality: Samagutting, Assam; institutionCode: NZSI; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Sikkim; Assam; Naga and Khasi Hills; Margherita. Burma: Carin Ghelu. [Metcalfe, 1963] Assam; Sikkim; Burma; China;

India. [Sanborn, 2014] China, Guangdong, Hunan, Guangxi, Thailand, Guizhou, Sichuan, Yunnan, Burma, Sikkim, India, Burma, Assam, Tonkin.

**Notes:** Authority: Atkinson 1884

### ***Gaeana maculata* subsp. *maculata* (Drury, 1773)**

**Nomenclature:**

*Cicada maculata* Drury, 1773

### **Materials**

**Holotype:**

- a. scientificName: *Gaeana maculata maculata* (Drury, 1773); continent: Asia; country: China; recordedBy: Dr Fothergill; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Gaeana maculata maculata* (Drury, 1773); continent: Asia; country: India; locality: Naga Hills; verbatimElevation: 2000 - 6000 ft; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009596; recordedBy: A.W. Chennell; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Sikkim; Naga Hills; Khasi Hills; Samagooting; Dhansiri Valley; (var *consors*) Margherita. [Metcalf, 1963] China; Syria; India; Asia; Sikkim; Burma; Hong Kong Island; Australia; South Australia; Tonkin; Assam; Northern Territory (?); Indochina; Kwangtung; Australia (?); Northern Territory; Japan; Kwangsi; Hainan Island; Fukien; Bengal. [Sanborn, 2014] China, Kwangsi, Sikkim, Assam, Naga Hills, Khasi Hills, Margherita, Samagooting Valley, Dhansiri Valley, Burma, Karenne, Tonkin, Hong Kong, Myanmar, India, Vietnam, Guangxi, Jiangxi, Fujian, Guangdong, Hainan, Guizhou, Sichuan, Japan, Indonesia, Malaysia, Burma, Bangladesh, Australia, Southeast Asia, Sri Lanka, North Vietnam, South China.

**Notes:** Authority: Drury 1773

### ***Graptotettix guttatus* Stål, 1866**

**Nomenclature:**

*Graptotettix guttatus* Stål, 1866

### **Materials**

**Holotype:**

- a. scientificName: *Graptotettix guttatus* Stål, 1866; continent: Asia; country: India; locality: Himalaya; sex: female; institutionCode: NHRS; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Graptotettix guttatus* Stål, 1866; locality: Locality unknown; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009585; recordedBy: E.F.T. Atkinson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Himalayas; Sikkim; China; Assam. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] China.

**Notes:** Authority: Stål 1866a

### ***Graptotettix thoracicus* Distant, 1892**

**Nomenclature:**

*Graptotettix thoracicus* Distant, 1892

### **Material**

**Holotype:**

- a. scientificName: *Graptotettix thoracicus* Distant, 1892; continent: Asia; country: Myanmar; locality: Momeit [Mong Mit]; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009586; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma.

**Notes:** Authority: Distant 1892b

### ***Gudaba maculata* Distant, 1912**

**Nomenclature:**

*Gudaba maculata* Distant, 1912

### **Materials**

**Syntype:**

- a. scientificName: *Gudaba maculata* Distant, 1912; continent: Asia; country: India; locality: Sikkim; eventDate: ??/??/1907; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009561; recordedBy: C.T. Bingham; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Gudaba maculata* Distant, 1912; continent: Asia; country: India; locality: Dehra Dun; eventDate: 6/07/1912; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009617; recordedBy: N.C. Chatterji; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Sikkim; United Provinces; Northern India. [Sanborn, 2014] China, Yunnan, Hainan, Thailand, Sikkim, India.

**Notes:** Authority: Distant 1912b

### ***Gudaba marginatus* (Distant, 1897)**

**Nomenclature:**

*Calcagninus marginatus* Distant, 1897

## Material

### Holotype:

- a. scientificName: *Gudaba marginatus* (Distant, 1897); continent: Asia; country: Myanmar; locality: North Chin Hills; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009560; recordedBy: Watson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma. [Sanborn, 2014] China, Burma.

**Notes:** Authority: Distant 1897; Metcalf (1963) listed India in reference to Mathur (1953) in which Burma was considered a part of "British India". The type locality (Chin Hills) extends into India (Lushai Hills - Nagaland), thus this species may be recorded in Nagaland in future.

## *Haphsa bindusara* (Distant, 1881)

### Nomenclature:

*Pomponia bindusara* Distant, 1881

## Material

### Holotype:

- a. scientificName: *Haphsa bindusara* (Distant, 1881); continent: Asia; country: Myanmar; locality: Upper Tenasserim; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009459; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] Burma: Teinzo; Karen Hills. Upper Tenasserim. [Metcalf, 1963] Tenasserim; India; Burma; Laos; Indochina. [Sanborn, 2014] Pakistan (?), Burma, India, Yunnan, China, Laos, Thailand, Tenasserim, Indochina, North Vietnam, Myanmar, Vietnam, Bangladesh (?).

**Notes:** Authority: Distant 1881; Metcalf (1963) stated "India" in reference to Atkinson (1886) who was referring to the type specimen from Upper Tenasserim (Myanmar). Metcalf (1963) also listed India in reference to Mathur (1953) who stated "India.-Burma: Katha, Mohnyin Res." as a part of then "British India". Listings of India since then are likely to be in reference to published localities, most likely that from Metcalf (1963). In addition, Sanborn (2014) listed Pakistan and Bangladesh in reference to a specimen collected in Chittagong (former "East Pakistan" now Bangladesh), however the identification of the specimen from Chaudhry et al. (1970) (*Aola* sp.? *bindusara*) has not been confirmed thus the Bangladesh distribution is not conclusive at this point.

## *Haphsa durga* (Distant, 1881)

### Nomenclature:

*Cosmopsaltria durga* Distant, 1881

## Material

### Holotype:

- a. scientificName: *Haphsa durga* (Distant, 1881); continent: Asia; country: India; locality: N. Khasi Hills, British Assam; verbatimElevation: 1500 - 3000 ft; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009451; recordedBy: A.W. Chennell; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Assam, North Khasi Hills (1500-3000 ft); Naga Hills. [Metcalf, 1963] Assam; India; Laos. [Sanborn, 2014] China, Yunnan, India, Laos, Thailand, Vietnam, Assam, Guangdong, Fujian.

**Notes:** Authority: Distant 1881

## *Haphsa karenensis* Ollenbach, 1929

### Nomenclature:

*Haphsa karenensis* Ollenbach, 1929

*Meimuna nauhkae* Boulard, 2005

## Material

### Holotype:

- a. scientificName: *Haphsa karenensis* Ollenbach, 1929; continent: Asia; country: Myanmar; locality: Karen Hills, Thandaung; individualCount: 1; sex: male; recordedBy: W.S. Wood; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; India. [Sanborn, 2014] Thailand.

**Notes:** Authority: Ollenbach 1929; Metcalf (1963) listed India in reference Burma being part of "British India". The type locality (Thandaung) is within modern day Myanmar and the species has not yet been recorded from modern day India.

## *Haphsa nicomache* (Walker, 1850)

### Nomenclature:

*Dundubia nicomache* Walker, 1850

*Cicada delineata* Walker, 1858

## Material

### Holotype:

- a. scientificName: *Haphsa nicomache* (Walker, 1850); continent: Asia; country: India; locality: N. India; sex: male; catalogNumber: BMNH(E) 1009463; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: North India; Sikkim; Margherita (Upper Assam); Naga Hills. [Metcalf, 1963] India; Hindustan; Northern India; Sikkim;

Mysore; Assam; Bengal; Northern Bengal; Northern United Provinces; Uttar Pradesh. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] India, North India, Pakistan.

**Notes:** Authority: Walker 1850

### ***Haphsa scitula* (Distant, 1888)**

#### **Nomenclature:**

*Pomponia scitula* Distant, 1888

#### **Materials**

#### **Syntype:**

- a. scientificName: *Haphsa scitula* (Distant, 1888); continent: Asia; country: Myanmar; locality: Meetan, Tenasserim; sex: male; recordedBy: Leonardo Fea; institutionCode: MSNG; basisOfRecord: PreservedSpecimen
- b. scientificName: *Haphsa scitula* (Distant, 1888); continent: Asia; country: Myanmar; locality: Teinzo, Burma; eventDate: ??/??/1886; sex: male; catalogNumber: BMNH(E) 1009407; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Margherita (Upper Assam). Burma: Teinzo. Tenasserim: Meetan. [Metcalf, 1963] Burma; Tenasserim; India; Tonkin; Assam; Indochina; Cambodia; Yunnan; Madras; China. [Sanborn, 2014] China, Yunnan, Burma, Annam, Cambodia, Pakistan, India, Xinjiang, Guangxi, Thailand, Tonkin, Asia, Vietnam, Indochina, Myanmar, Bangladesh.

**Notes:** Authority: Distant 1888d

### ***Haphsa stellata* Lee, 2009**

#### **Nomenclature:**

*Haphsa stellata* Lee, 2009

#### **Materials**

#### **Holotype:**

- a. scientificName: *Haphsa stellata* Lee, 2009; continent: Asia; country: India; locality: Yercaud, Shevaroy Hills, South India; verbatimElevation: 4500 ft; eventDate: ??/06/1997; individualCount: 1; sex: male; recordedBy: Y. J. Lee; basisOfRecord: PreservedSpecimen

#### **Paratype:**

- a. scientificName: *Haphsa stellata* Lee, 2009; continent: Asia; country: India; locality: Yercaud, Shevaroy Hills, South India; verbatimElevation: 4500 ft; eventDate: ??/05/1999; individualCount: 1; sex: male; recordedBy: Y. J. Lee; basisOfRecord: PreservedSpecimen

**Distribution:** [Lee, 2009] India. [Sanborn, 2014] India.

**Notes:** Authority: Lee 2009b

## ***Huechys beata* Chou et al., 1997**

### **Nomenclature:**

*Huechys beata* Chou et al., 1997

*Huechys sanguinea* var. b Distant, 1892

### **Materials**

#### **Syntype:**

- a. scientificName: *Huechys beata* Chou et al., 1997; continent: Asia; country: India; locality: Assam; recordedBy: A.W. Chennell; basisOfRecord: PreservedSpecimen
- b. scientificName: *Huechys beata* Chou et al., 1997; continent: Asia; country: Indonesia; locality: Sumatra; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; Sumatra; Malay Archipelago; India; Tonkin; Kwangsi; Fukien; China. [Sanborn, 2014] China, Guangxi, Yunnan, India, Malaysia, Thailand, Vietnam, Thailand, Indonesia, Assam, Sumatra, South China.

**Notes:** Authority: Chou et al. 1997; Originally *Huechys sanguinea* var. b Distant, 1892;

## ***Huechys haematica* Distant, 1888**

### **Nomenclature:**

*Huechys haematica* Distant, 1888

### **Material**

#### **Holotype:**

- a. scientificName: *Huechys haematica* Distant, 1888; continent: Asia; country: Myanmar; locality: Mt. Mooleyit, Tenasserim; verbatimElevation: 600 - 1200 m; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India; Tenasserim; Philippines. [Haupt 1924] Tenasserim (Mt. Mooleyit); Calcutta. [Metcalf, 1963] Tenasserim; India; Philippine Islands; Bengal; Kwangsi; China. [Sanborn, 2014] China, Guangxi, India, Philippines.

**Notes:** Authority: Distant 1888a

## ***Huechys incarnata* subsp. *testacea* (Fabricius, 1787)**

### **Nomenclature:**

*Tettigonia testacea* Fabricius, 1787

### **Material**

#### **Holotype:**

- a. scientificName: *Huechys incarnata testacea* (Fabricius, 1787); continent: Asia; country: India; locality: Tranquebariae (Tharangambadi); basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Tranquebar; Madras; India; China; Asia; Bengal; Sumatra.

**Notes:** Authority: Fabricius 1787

### *Huechys sanguinea* subsp. *philaemata* (Fabricius, 1803)

**Nomenclature:**

*Tettigonia philaeamata* Fabricius, 1803

*Huechys sanguinea* var. *a* Distant, 1892

### **Material**

**Holotype:**

- a. scientificName: *Huechys sanguinea philaeamata* (Fabricius, 1803); continent: Asia; country: China; recordedBy: Dru Drury; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] China; India; Java; Assam; Philippine Islands; Bengal; Tenasserim; Northern Bengal; Silhet; Northern India; Burma; Hong Kong Island; Japan; Formosa; Borneo; Kiangsu; Chekiang; Anhwei; Shantung; Kiangsu (?); Eastern China; Kwangsi; Asia. [Duffels and van der Laan, 1985] Taiwan; China. [Sanborn, 2014] China, Haichos, Nanking, Soochow, Hangchow, Burma, Formosa, Anhui, Jiangsu, Jiangxi, Zhejiang, Taiwan, Hainan, Guangxi, Yunnan, India, Vietnam.

**Notes:** Authority: Fabricius 1803

### *Huechys sanguinea* subsp. *sanguinea* (De Geer, 1773)

**Nomenclature:**

*Cicada sanguinea* De Geer, 1773

*Tettigonia sanguinolenta* Fabricius, 1775

*Huechys vesicatoria* Smith, 1871

*Huechys quadrispinosa* Haupt, 1924

*Huechys sanguinea* *philaemata* *albifascia* Kato, 1927

### **Materials**

**Holotype:**

- a. scientificName: *Huechys sanguinea sanguinea* (De Geer, 1773); continent: Asia; country: China; institutionCode: NHRS; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Huechys sanguinea sanguinea* (De Geer, 1773); continent: Asia; country: Indonesia; locality: Sumatra; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009587; recordedBy: Levick; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Sikkim; Assam; Calcutta. Burma: Kakhien Hills (Rangoon); Thagata (Tenasserim). [Metcalf, 1963] China; France; Sumatra; America; India; Bengal; Hong Kong Island; Asia; Java; Malacca; Timor; Tenasserim; Singapore Island; Sikkim; Calcutta; Japan; Sibsagar; Tonkin; Burma; Nias; Molucca Islands; Sumbawa; Borneo; Laos; Lombok; Assam; Malay Peninsula; Malay States; Macao; Hupeh; Formosa; Palawan; Tanimbar Islands; Philippine Islands; Sulu Island; Amboina; Perak; Johore; Penang; Oriental Region; Cochin China; Sunda Islands; Indochina; Malay Archipelago; Malaya; Sarawak; Fukien; Kwangtung; Southern Asia; Eastern India; Madras; Siam; Celebes; Southern China; Telo Island; Batu Islands; Kiangsu; Kwangsi; Lower Burma; Chekiang; Indonesia; Hainan. [Duffels and van der Laan, 1985] Taiwan; Andaman Islands; Nicobar Islands; Japan; China; Philippines. [Sanborn, 2014] China, Soochow, Kwangsi, Canton, Macao, Han-lik, Hangchow, Sikhim, Assam, Brahmaputra, Calcutta, Burma, Rangoon, Kakhein Hills, Tenasserim, Thagata, Myitta, Malay Peninsula, Sumatra, Borneo, Timor Laut, Tonkin, Than-Moi, Formosa, Pakistan, India, Hong Kong, Siam, Singapore, Hunan, Shaanxi, Henan, Hubei, Jiangsu, Zhejiang, Jiangxi, Fujian, Taiwan, Guangdong, Hainan, Guangxi, Sichuan, Yunnan, Indonesia, Kalimantan, Sikkim, Maymer, Andaman Island, Nicobar Island, Southeast Asia, Timor, South China, Palawan, Leyte.

**Notes:** Authority: De Geer 1773

### *Huechys thoracica* Distant, 1879

#### Nomenclature:

*Huechys thoracica* Distant, 1879

#### Material

#### Holotype:

- a. scientificName: *Huechys thoracica* Distant, 1879; continent: Asia; country: Myanmar; locality: Upper Tenasserim; sex: female; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Burma: Karen Hills; Ruby Mines; Myitta (Tenasserim). [Metcalf, 1963] Tenasserim; Hindustan; Burma; Upper Burma; Assam; Malaya Peninsula; Silhet; India. [Duffels and van der Laan, 1985] India. [Sanborn, 2014] China, Yunnan, Burma, Malaysia, Southeast Asia, Vietnam.

**Notes:** Authority: Distant 1879

### *Hyalessa expansa* (Walker, 1858)

#### Nomenclature:

*Carineta expansa* Walker, 1858

## Materials

### Holotype:

- a. scientificName: *Hyalessa expansa* (Walker, 1858); continent: Asia; country: India; locality: Hindostan; sex: male; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Hyalessa expansa* (Walker, 1858); continent: Asia; country: India; locality: Himalaya (eastern); individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009465; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Eastern Himalaya Mts; Sikkim. [Metcalf, 1963] Hindustan; India; China; Sikkim; Eastern Himalayas; Northern Bengal; Assam. [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Walker 1858a

## *Hyalessa mahoni* (Distant, 1906)

### Nomenclature:

*Oncotympana mahoni* Distant, 1906

### Material

### Holotype:

- a. scientificName: *Hyalessa mahoni* (Distant, 1906); continent: Asia; country: India; locality: Mussooree; verbatimElevation: 5000 ft; eventDate: 29/07/1905; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009466; recordedBy: Mahoni; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Mysore; India; Northwestern India; Uttar Pradesh.

**Notes:** Authority: Distant 1906d

## *Hyalessa melanoptera* (Distant, 1904)

### Nomenclature:

*Pomponia melanoptera* Distant, 1904

### Materials

### Syntype:

- a. scientificName: *Hyalessa melanoptera* (Distant, 1904); continent: Asia; country: India; locality: Mussoorie; verbatimElevation: 4000 ft; eventDate: ??/09/1903; sex: male; catalogNumber: BMNH(E) 1009469; recordedBy: P.W. Mackinnon; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Hyalessa melanoptera* (Distant, 1904); continent: Asia; country: India; locality: Mussoorie; verbatimElevation: 4000 ft; eventDate: ??/09/1903; sex: female; recordedBy: P.W. Mackinnon; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Mysore; India; Uttar Pradesh.

**Notes:** Authority: Distant 1904b

### ***Hyalessa obnubila* (Distant, 1888)**

**Nomenclature:**

*Pomponia obnubila* Distant, 1888

### **Materials**

**Holotype:**

- a. scientificName: *Hyalessa obnubila* (Distant, 1888); continent: Asia; country: India; locality: Simla; institutionCode: NZSI; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Hyalessa obnubila* (Distant, 1888); continent: Asia; country: India; locality: Dharamsala, W. Himalaya; eventDate: ??/??/1919; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009467; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: Simla; Tehri-Garhwal. [Metcalf, 1963] Punjab; India; Uttar Pradesh. [Duffels and van der Laan, 1985] Bhutan; Nepal. [Sanborn, 2014] Pakistan, India, Bhutan, Nepal.

**Notes:** Authority: Distant 1888c; Distant (1906c) states that the type specimen is male.

### ***Hyalessa stratoria* (Distant, 1905)**

**Nomenclature:**

*Oncotympana stratoria* Distant, 1905

### **Material**

**Holotype:**

- a. scientificName: *Hyalessa stratoria* (Distant, 1905); continent: Asia; country: China; locality: Yunnan; sex: male; institutionCode: MNHN; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Yunnan; China. [Duffels and van der Laan, 1985] Nepal; China. [Sanborn, 2014] China, Yunnan, Nepal.

**Notes:** Authority: Distant 1905e

### ***Karenia ravidia* Distant, 1888**

**Nomenclature:**

*Karenia ravidia* Distant, 1888

## Material

### Holotype:

- a. scientificName: *Karenia ravidia* Distant, 1888; continent: Asia; country: Myanmar; locality: Catcin Cauri, Kakhien Hills, Burma; eventDate: ??/11/1886; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009612; recordedBy: Leonardo Fea; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma. [Sanborn, 2014] China, Yunnan, Burma, Thailand.

**Notes:** Authority: Distant 1888a

## *Khimbya cuneata* (Distant, 1897)

### Nomenclature:

*Pomponia cuneata* Distant, 1897

## Material

### Holotype:

- a. scientificName: *Khimbya cuneata* (Distant, 1897); continent: Asia; country: Myanmar; locality: North Chin Hills; sex: male; recordedBy: Watson; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma.

**Notes:** Authority: Distant 1897; Metcalf (1963) listed India in reference to Mathur (1953) in which Burma was considered a part of "British India". The type locality (Chin Hills) extends into India (Lushai Hills - Nagaland), thus this species may be recorded in Nagaland in future.

## *Khimbya diminuta* (Walker, 1850)

### Nomenclature:

*Dundubia diminuta* Walker, 1850

## Material

### Holotype:

- a. scientificName: *Khimbya diminuta* (Walker, 1850); locality: Locality unknown; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009452; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: Bombay; Karwar. Burma: Thaungyin (Tenasserim). [Metcalf, 1963] India; Bombay; Tenasserim.

**Notes:** Authority: Walker 1850

## ***Khimbya evanescens* (Walker, 1858)**

### **Nomenclature:**

*Dundubia evanescens* Walker, 1858

### **Material**

#### **Syntype:**

- a. scientificName: *Khimbya evanescens* (Walker, 1858); continent: Asia; country: India; locality: Hindostan; sex: male; catalogNumber: BMNH(E) 1009455; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Hindustan; India; Burma; Uttar Pradesh. [Sanborn, 2014] Hindustan.

**Notes:** Authority: Walker 1858a; Multiple male specimens used in species description;

## ***Khimbya immsi* Distant, 1912**

### **Nomenclature:**

*Khimbya immsi* Distant, 1912

### **Material**

#### **Lectotype:**

- a. scientificName: *Khimbya immsi* Distant, 1912; continent: Asia; country: India; locality: Goalpara, Assam; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009456; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; India.

**Notes:** Authority: Distant 1912c

## ***Khimbya sita* (Distant, 1881)**

### **Nomenclature:**

*Cosmopsaltria sita* Distant, 1881

### **Material**

#### **Holotype:**

- a. scientificName: *Khimbya sita* (Distant, 1881); continent: Asia; country: India; locality: Bombay Province; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009453; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Bombay Province; Karwar. [Metcalf, 1963] Southern India; Bombay (?); India; Tonkin. [Sanborn, 2014] China, Guangxi, India, Vietnam.

**Notes:** Authority: Distant 1881

## ***Kumanga sandaracata* (Distant, 1888)**

### **Nomenclature:**

*Baeturia sandaracata* Distant, 1888

### **Material**

#### **Holotype:**

- a. scientificName: *Kumanga sandaracata* (Distant, 1888); continent: Asia; country: Myanmar; locality: Teinzo, Burma; individualCount: 1; sex: male; recordedBy: Leonardo Fea; institutionCode: MSNG; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma.

**Notes:** Authority: Distant 1888d

## ***Lahugada dohertyi* (Distant, 1891)**

### **Nomenclature:**

*Pomponia dohertyi* Distant, 1891

### **Material**

#### **Holotype:**

- a. scientificName: *Lahugada dohertyi* (Distant, 1891); continent: Asia; country: India; locality: Margherita, Upper Assam; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009462; recordedBy: W.M. Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Assam. [Sanborn, 2014] India: Margherita, Manas Tiger Reserve, Assam; Cooch Behar, N. Paschimbanga.

**Notes:** Authority: Distant 1891

## ***Lemuriana apicalis* (Germar, 1830)**

### **Nomenclature:**

*Cicada apicalis* Germar, 1830

*Cicada semicinta* Walker, 1850

### **Material**

#### **Holotype:**

- a. scientificName: *Lemuriana apicalis* (Germar, 1830); continent: Asia; country: India; locality: Bengalia; recordedBy: Westermann; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: Bombay; Karwar; Mussooree. [Metcalf, 1963] Bengal; India; Northern India; Mysore; Bombay; Indochina; Madras; United Provinces;

Central Provinces; Uttar Pradesh. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] Vietnam, Nepal, India, Oriental Region.

**Notes:** Authority: Germar 1830

### ***Leptopsaltria andamanensis* Distant, 1888**

**Nomenclature:**

*Leptopsaltria andamanensis* Distant, 1888

**Material**

**Holotype:**

- a. scientificName: *Leptopsaltria andamanensis* Distant, 1888; continent: Asia; country: India; locality: Andaman Islands; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009437; recordedBy: J. Wood-Mason; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Andaman Islands. [Sanborn, 2014] Andaman Islands.

**Notes:** Authority: Distant 1888b

### ***Leptopsaltria samia* (Walker, 1850)**

**Nomenclature:**

*Dundubia samia* Walker, 1850

**Material**

**Holotype:**

- a. scientificName: *Leptopsaltria samia* (Walker, 1850); continent: Asia; country: India; locality: N. India; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009438; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: N. India; Sikkim. [Metcalf, 1963] India; Northern India; Tonkin; Sikkim; Assam. [Sanborn, 2014] China, Guangxi, Yunnan, India, Sikkim, Vietnam, Tonkin, Thailand, North Vietnam.

**Notes:** Authority: Walker 1850

### ***Leptopsaltria tuberosa* (Signoret, 1847)**

**Nomenclature:**

*Cicada tuberosa* Signoret, 1847

## Materials

### Syntype:

- a. scientificName: *Leptopsaltria tuberosa* (Signoret, 1847); continent: Asia; country: Indonesia; locality: Java; basisOfRecord: PreservedSpecimen
- b. scientificName: *Leptopsaltria tuberosa* (Signoret, 1847); continent: Asia; country: Malaysia; locality: Malacca; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906; Distant, 1889/92] Continental India: Sikkim; Assam (Khasi Hills). [Metcalf, 1963] Java; Malacca; India; Japan; Sikkim; Assam; Daito Islands; Kyushu; Honshu; Ryukyu Islands; Formosa; Oriental Region; Japan (?). [Duffels and van der Laan, 1985] Taiwan; Java; India; Nepal. [Sanborn, 2014] Nepal, India.

**Notes:** Authority: Signoret 1847a

## *Lethama locusta* (Walker, 1850)

### Nomenclature:

*Cephaloxys locusta* Walker, 1850

## Materials

### Holotype:

- a. scientificName: *Lethama locusta* (Walker, 1850); continent: Asia; country: India; locality: E. India; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009519; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Lethama locusta* (Walker, 1850); continent: Asia; country: India; locality: E. India; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009520; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Eastern India; Bombay. [Sanborn, 2014] India.

**Notes:** Authority: Walker 1850

## *Linguacicada continuata* (Distant, 1888)

### Nomenclature:

*Cicadetta continuata* Distant, 1888

## Material

### Syntype:

- a. scientificName: *Linguacicada continuata* (Distant, 1888); continent: Asia; country: Pakistan; locality: Quetta, Baluchistan; sex: female; catalogNumber: BMNH(E) 1009613; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Baluchistan; India; Quetta; Pakistan; Northwestern India. [Sanborn, 2014] China, Xinjiang, Pakistan, India.

**Notes:** Authority: Distant 1888b; Multiple specimens (number unknown) used in species description.

### ***Lycurgus subvittus* (Walker, 1850)**

#### **Nomenclature:**

*Cicada subvittus* Walker, 1850

*Cicada strigosa* Walker, 1858

#### **Material**

#### **Holotype:**

- a. scientificName: *Lycurgus subvittus* (Walker, 1850); continent: Asia; country: India; locality: N. India; sex: male; catalogNumber: BMNH(E) 1009611; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Sikkim; N.W. Himalaya. [Metcalf, 1963] India; Hindustan; Northern India; Mysore; Sikkim; United Provinces; Northwestern Himalayas; China; Uttar Pradesh. [Duffels and van der Laan, 1985] China; India. [Sanborn, 2014] China, Mussooree, Himalaya, Sikhim, India.

**Notes:** Authority: Walker 1850

### ***Macrosemia assamensis* (Distant, 1905)**

#### **Nomenclature:**

*Platylomia assamensis* Distant, 1905

#### **Material**

#### **Holotype:**

- a. scientificName: *Macrosemia assamensis* (Distant, 1905); continent: Asia; country: India; locality: Assam; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009516; recordedBy: E.F.T. Atkinson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; India; Uttar Pradesh. [Sanborn, 2014] China, Yunnan, India, Thailand, Vietnam.

**Notes:** Authority: Distant 1905a

### ***Macrosemia beaudouini* (Boulard, 2003)**

#### **Nomenclature:**

*Orientopsaltria beaudouini* Boulard, 2003

## Material

### Holotype:

- a. scientificName: *Macrosemia beaudouini* (Boulard, 2003); continent: Asia; country: Thailand; locality: Houaynamgun, Chiang Mai; eventDate: 2-15/09/2002; individualCount: 1; sex: male; recordedBy: M. Boulard, S. Sulaiya, K Chueata; institutionCode: MNHN; basisOfRecord: PreservedSpecimen

**Distribution:** [Sanborn, 2014] Thailand, Myanmar, Laos.

**Notes:** Authority: Boulard 2003; An additional 6 male paratypes (MNHN) were designated in the species description.

## *Macrosemia saturata* (Walker, 1858)

### Nomenclature:

*Dundubia saturata* Walker, 1858

*Dundubia obtecta* Walker, 1850

### Materials

#### Syntype:

- a. scientificName: *Macrosemia saturata* (Walker, 1858); continent: Asia; country: India; locality: Sikkim, Himalaya, North India; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Macrosemia saturata* (Walker, 1858); continent: Asia; country: India; locality: Sikkim, Himalaya, North India; sex: female; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

#### Other material:

- a. scientificName: *Macrosemia saturata* (Walker, 1858); continent: Asia; country: India; locality: Himalaya; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009470; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Nepal; Ranikhet; Sikkim; Assam; Sylhet (Bangladesh). [Metcalf, 1963] Nepal; Northern Bengal; Assam; Northern India; Java; Sikkim; India; Bengal; Indochina; Malay Peninsula; Uttar Pradesh. [Duffels and van der Laan, 1985] Nepal; Bhutan. [Sanborn, 2014] India, Manipur, Assam, Naga Hills, Utta Pradesh, West Bengal, Indochina, Malay Peninsula, Nepal, Pakistan, Vietnam, Indonesia, Java, Bangladesh, Bhutan.

**Notes:** Authority: Walker 1858b

## *Macrosemia saturata* var. a (Distant, 1891)

### Nomenclature:

*Cosmopsaltria saturata* var. a Distant, 1891

## Material

### *Holotype:*

- a. scientificName: *Macrosemia saturata* var. a (Distant, 1891); continent: Asia; country: India; locality: Naga Hills; recordedBy: William Doherty; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam.

**Notes:** Authority: Distant 1891

## *Macrosemia saturata* var. *b* (Distant, 1891)

### *Nomenclature:*

*Cosmopsaltria saturata* var. b Distant, 1891

## Material

### *Holotype:*

- a. scientificName: *Macrosemia saturata* var. b (Distant, 1891); continent: Asia; country: India; locality: Naga Hills; recordedBy: William Doherty; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam.

**Notes:** Authority: Distant 1891

## *Macrosemia tonkiniana* (Jacobi, 1905)

### *Nomenclature:*

*Cosmopsaltria tonkiniana* Jacobi, 1905

## Material

### *Syntype:*

- a. scientificName: *Macrosemia tonkiniana* (Jacobi, 1905); continent: Asia; country: Vietnam; locality: Chiem-hoa; individualCount: 3; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Tonkin, Indochina, China [Duffels, 1985] Thailand [Sanborn, 2014] Vietnam, China, Yunnan, Hainan, Laos, Thailand, Myanmar, India, Indochina, Tonkin, Hainan.

**Notes:** Authority: Jacobi 1905; Sanborn (2014) states "India" in reference to Hua (2000), which may have been a mistranslation of Indochina, and to Lee (2008), which may be a repeat of the record from Hua (2000).

## ***Macrosemia umbrata* (Distant, 1888)**

### **Nomenclature:**

*Cosmopsaltria umbrata* Distant, 1888

*Macrosemia chantrainei* Boulard, 2003

### **Material**

#### **Holotype:**

- a. scientificName: *Macrosemia umbrata* (Distant, 1888); continent: Asia; country: India; locality: Sikkim; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009471; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Sikkim; Naga Hills. Burma: Bhamo. [Metcalf, 1963] Sikkim; Burma; India; Assam; Northern Bengal; Upper Burma; Uttar Pradesh. [Duffels and van der Laan, 1985] Himalaya; Thailand; Nepal. [Sanborn, 2014] China, Yunnan, Jiangxi, Hainan, Burma, Sikkim, Nepal, India, Thailand, Sri Lanka, Bhutan, Laos, Manipur, Assam, Meghalaya, Uttar Pradesh, West Bengal, Myanmar, Pakistan, Himalayas.

**Notes:** Authority: Distant 1888c

## ***Manna tenuis* Lee & Emery, 2013**

### **Nomenclature:**

*Manna tenuis* Lee & Emery, 2013

### **Materials**

#### **Holotype:**

- a. scientificName: *Manna tenuis* Lee & Emery, 2013; continent: Asia; country: Tibet; locality: Motuo Co 108 km Bomi; verbatimElevation: 900 m; eventDate: 2-8/07/2012; individualCount: 1; sex: male; institutionCode: MNHN; basisOfRecord: PreservedSpecimen

#### **Paratype:**

- a. scientificName: *Manna tenuis* Lee & Emery, 2013; continent: Asia; country: India; locality: Arunachal Pradesh Dist. along near Rapum; verbatimElevation: 2000 m; eventDate: 6-12/07/2010; individualCount: 1; sex: female; recordedBy: Bretschneider; institutionCode: MNHN; basisOfRecord: PreservedSpecimen

**Distribution:** [Lee and Emery, 2013] Tibet; India.

**Notes:** Authority: Lee and Emery 2013; An additional 2 male and 9 female paratypes (AMS) were designated in the species description, however only material from India is included here.

## ***Mata kama* (Distant, 1881)**

### **Nomenclature:**

*Pomponia kama* Distant, 1881

### **Material**

#### **Holotype:**

- a. scientificName: *Mata kama* (Distant, 1881); continent: Asia; country: India; locality: Darjeeling, North India; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009460; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Darjeeling (North India). [Metcalf, 1963] Northern India; Bengal; India; Java; Malay States; Malaya. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] India.

**Notes:** Authority: Distant 1881; Species description states female, however the type specimen is male (Distant 1891).

## ***Mata rama* Distant, 1912**

### **Nomenclature:**

*Mata rama* Distant, 1912

### **Materials**

#### **Syntype:**

- a. scientificName: *Mata rama* Distant, 1912; continent: Asia; country: Bhutan; locality: Bhutan; eventDate: ??/??/1900; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009461; recordedBy: R. Oberthur; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Mata rama* Distant, 1912; continent: Asia; country: Bhutan; locality: Bhutan; eventDate: ??/??/1900; individualCount: 1; sex: female; catalogNumber: NHMUK 010214246; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bhutan; China. [Sanborn, 2014] China, Xizang, Bhutan.

**Notes:** Authority: Distant 1912a

## ***Maua quadrituberculata* subsp. *tavoyana* (Ollenbach, 1929)**

### **Nomenclature:**

*Purana tavoyana* Ollenbach, 1929

*Maua quadrituberculata khunpaworensis* Boulard, 2007

## Materials

### Syntype:

- a. scientificName: *Maua quadrituberculata tavoyana* (Ollenbach, 1929); continent: Asia; country: Myanmar; locality: Tavoy [now Dawei]; eventDate: ??/09/1925; individualCount: 1; sex: male; recordedBy: W.S. Wood; institutionCode: IFRI; basisOfRecord: PreservedSpecimen
- b. scientificName: *Maua quadrituberculata tavoyana* (Ollenbach, 1929); continent: Asia; country: Myanmar; locality: Tavoy [now Dawei]; eventDate: ??/09/1925; individualCount: 5; sex: female; recordedBy: W.S. Wood; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; India. [Sanborn, 2014] Burma, Thailand.

**Notes:** Authority: Ollenbach 1929; Not from India: Metcalf (1963) listed India in reference to Mathur (1953), in which it states "India.-Burma: Tavoy" with Burma being considered part of "British India".

## *Megapomponia intermedia* (Distant, 1905)

### Nomenclature:

*Pomponia intermedia* Distant, 1905

### Material

#### Holotype:

- a. scientificName: *Megapomponia intermedia* (Distant, 1905); continent: Asia; country: Myanmar; locality: Thaungyang Valley, Tennasserim; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009388; recordedBy: C.T. Bingham; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Tenasserim; Indochina; India; Burma. [Sanborn, 2014] Thailand, India, Burma, Indochina, Laos, Myanmar, Vietnam.

**Notes:** Authority: Distant 1905a; Not from India: Metcalf (1963) listed India in reference to Mathur (1953), in which it references a specimen "India.-Burma: Tavoy" with Burma being considered part of "British India". The type locality (Thaungyang Valley, Tennasserim) and Mathur's locality Tavoy (now Dawei) are both in the far south of Myanmar thus this species has been removed from the Indian list. Subsequent "India" localities as stated in Sanborn (2014), in reference to Boulard (2001b), Sanborn et al. (2007) and Lee (2008), are likely to have resulted from this initial error. Hayashi (1993) excluded this species from India.

## *Meimuna cassandra* Distant, 1912

### Nomenclature:

*Meimuna cassandra* Distant, 1912

## Material

### Holotype:

- a. scientificName: *Meimuna cassandra* Distant, 1912; continent: Asia; country: India; locality: near Dehra Dun, N. India; eventDate: 28/06/1911; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009441; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] United Provinces; Northern India.

**Notes:** Authority: Distant 1912c

## *Meimuna gamameda* (Distant, 1902)

### Nomenclature:

*Cosmopsaltria gamameda* Distant, 1902

## Materials

### Syntype:

- a. scientificName: *Meimuna gamameda* (Distant, 1902); continent: Asia; country: Sri Lanka; locality: Pundalu-oya; eventDate: ??/02/1902; sex: male; catalogNumber: BMNH(E) 1009476; recordedBy: E.E. Green; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Meimuna gamameda* (Distant, 1902); continent: Asia; country: Sri Lanka; locality: Pundalu-oya; eventDate: ??/02/1902; sex: female; recordedBy: E.E. Green; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Meimuna gamameda* (Distant, 1902); continent: Asia; country: Sri Lanka; locality: Kandy, Ceylon; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009443; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Ceylon. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] China, Yunnan, Sikkim, Sri Lanka.

**Notes:** Authority: Distant 1902; Sanborn (2014) listed locality including Sikkim in reference to Lei (1994). This may be in error as the species has been recorded from Sri Lanka previously.

## *Meimuna microdon* (Walker, 1850)

### Nomenclature:

*Dundubia microdon* Walker, 1850

*Meimuna omeinensis* Chen, 1940

## Material

### Holotype:

- a. scientificName: *Meimuna microdon* (Walker, 1850); continent: Asia; country: India; locality: N. India; sex: male; catalogNumber: BMNH(E) 1009440; recordedBy: Dr Wallich; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: North India; Sikkim. [Metcalf, 1963] India; Northern India; Tonkin; Sikkim; Indochina. [Sanborn, 2014] China, Yunnan, Tibet, India, Sikkim, Vietnam, South China, India, Hainan.

**Notes:** Authority: Walker 1850

## *Meimuna pallida* Ollenbach, 1929

### Nomenclature:

*Meimuna pallida* Ollenbach, 1929

## Material

### Holotype:

- a. scientificName: *Meimuna pallida* Ollenbach, 1929; continent: Asia; country: India; locality: Kumaon, Tarakhet, United Provinces; sex: male; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] United Provinces; India; Uttar Pradesh.

**Notes:** Authority: Ollenbach 1929

## *Meimuna silhetana* (Distant, 1888)

### Nomenclature:

*Cosmopsaltria silhetana* Distant, 1888

## Material

### Holotype:

- a. scientificName: *Meimuna silhetana* (Distant, 1888); continent: Asia; country: Bangladesh; locality: Silhet; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009450; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; India; Kwangtung; China; Fukien. [Sanborn, 2014] China, Fujian, Guangdong, Sichuan, Yunnan, India, Hong Kong, Yunnan.

**Notes:** Authority: Distant 1888c

## ***Meimuna tavoyana* (Distant, 1888)**

### **Nomenclature:**

*Dundubia tavoyana* Distant, 1888

### **Materials**

#### **Holotype:**

- a. scientificName: *Meimuna tavoyana* (Distant, 1888); continent: Asia; country: Myanmar; locality: Tavoy (now Dawei), Tenasserim; institutionCode: NZSI; basisOfRecord: PreservedSpecimen

#### **Other material:**

- a. scientificName: *Meimuna tavoyana* (Distant, 1888); continent: Asia; country: Myanmar; locality: Burma; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009444; occurrenceRemarks: Specimen not part of type series, see taxon notes.; recordedBy: C.T. Bingham; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Burma: Tavoy (Tenasserim). [Metcalf, 1963] Burma; Tenasserim; Malay Peninsula; Pahang; Thailand. [Sanborn, 2014] Thailand, Tenasserim, Burma, Peninsular Malaysia, Yunnan, Malaysia.

**Notes:** Authority: Distant 1888c; In the NHMUK there is a male specimen bearing a type label, and a note from Beuk dated 1995. This male was described later from Burma by Distant (1891). The type is in the NZSI and is from "Tavoy".

## ***Meimuna tripurasura* (Distant, 1881)**

### **Nomenclature:**

*Dundubia tripurasura* Distant, 1881

### **Material**

#### **Holotype:**

- a. scientificName: *Meimuna tripurasura* (Distant, 1881); continent: Asia; country: India; locality: N. Khasi Hills, British Assam; verbatimElevation: 1500 - 3000 ft; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009442; recordedBy: A.W. Chennell; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: Sikkim; Assam, Margherita and N. Khasi Hills. [Metcalf, 1963] Assam; India; Tonkin; Sikkim; Bengal; Indochina; Kwangsi; China; Kwangtung; Madras; Northern Bengal. [Sanborn, 2014] China, Kwangtung, Kwangsi, Sikkim, Assam, Margherita, Khasi Hills, Sichuan, Yunnan, Sri Lanka, Vietnam, South China, India.

**Notes:** Authority: Distant 1881

## ***Meimuna velitaris* (Distant, 1897)**

### **Nomenclature:**

*Cosmopsaltria velitaris* Distant, 1897

### **Material**

#### *Lectotype:*

- a. scientificName: *Meimuna velitaris* (Distant, 1897); continent: Asia; country: Myanmar; locality: North Chin Hills; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009458; recordedBy: Watson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; India. [Sanborn, 2014] Pakistan, Burma.

**Notes:** Authority: Distant 1897; Metcalf (1963) listed India in reference to Mathur (1953) in which Burma was considered a part of "British India". The type locality (Chin Hills) extends into India (Lushai Hills - Nagaland), thus this species may be recorded in Nagaland in future.

## ***Melampsalta literata* (Distant, 1888)**

### **Nomenclature:**

*Cicadetta literata* Distant, 1888

### **Material**

#### *Holotype:*

- a. scientificName: *Melampsalta literata* (Distant, 1888); continent: Asia; country: India; locality: Cashmere Valley; verbatimElevation: 6300 ft; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009614; recordedBy: Leech; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Kashmir; India; Uttar Pradesh. [Sanborn, 2014] Pakistan, India.

**Notes:** Authority: Distant 1888d

## ***Mogannia aurea* Fraser, 1942**

### **Nomenclature:**

*Mogannia aurea* Fraser, 1942

### **Material**

#### *Holotype:*

- a. scientificName: *Mogannia aurea* Fraser, 1942; continent: Asia; country: India; locality: Kurseong, Sikkim; individualCount: 1; sex: male; recordedBy: Lindgren; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Sikkim.

**Notes:** Authority: Fraser 1942

### ***Mogannia conica* subsp. *conica* (Germar, 1830)**

#### **Nomenclature:**

*Cicada conica* Germar, 1830

*Mogannia conica conica* (Germar, 1830)

*Mogannia illustrata* Amyot & Audinet-Serville, 1843

*Cephaloxys hemelytra* Signoret, 1847

*Mogannia indicans* Walker, 1850

*Mogannia incidans* var.  $\beta$  Walker, 1850

*Mogannia ignifera* Walker, 1850

*Mogannia avicula* Walker, 1850

*Mogannia recta* Walker, 1858

*Mogannia histrionica* Uhler, 1861

#### **Material**

#### **Holotype:**

- a. scientificName: *Mogannia conica conica* (Germar, 1830); continent: Asia; country: Indonesia; locality: Java; recordedBy: Westermann; institutionCode: NHMW; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Java; Philippine Island; Hindustan; India; Tenasserim; China; Sumatra; Assam; Malay Archipelago; Hong Kong Island; Palawan; Malaya; Indochina; Kwangtung; Tonkin. [Duffels and van der Laan, 1985] Nepal; China. [Sanborn, 2014] China, Assam, Khasi Hills, Margherita, Tenasserim, Thaga, Java, Sumatra, Philippines, Tonkin, Malaysia, Guangdong, Hong Kong, Yunnan, Xizang, Indonesia, Vietnam, India, Nepal, Southeast Asia, Thailand, Philippine Republic, Malayan Archipelago, North Vietnam, Palawan.

**Notes:** Authority: Germar 1830

### ***Mogannia cyanea* Walker, 1858**

#### **Nomenclature:**

*Mogannia cyanea* Walker, 1858

*Mogannia cyanea* Walker, 1858

*Mogannia nigrocyanea* Matsumura, 1913

*Mogannia nigrocyanea flavofascia* Kato, 1925

*Mogannia bella* Kato, 1927

*Mogannia chekingensis* Ouchi, 1938

*Mogannia chinensis* Ouchi, 1938 (nec Stål, 1865)

*Mogannia tienmushana* Chen, 1957

*Mogannia ouchii* Metcalf, 1963

## Material

### Holotype:

- a. scientificName: *Mogannia cyanea* Walker, 1858; continent: Asia; country: China; locality: North China; sex: male; catalogNumber: BMNH(E) 1009578; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92]: India: Naga Hills and Margherita (Assam). Burma: Ruby Mines. [Metcalf, 1963]: Northern China, India Burma; China; Assam; Formosa; Oriental Region; Japan; Indochina; Kwangtung; Chekiang; Eastern China; Kwangsi; Fukien. [Duffels and van der Laan, 1985] Taiwan; China; India; Assam; Burma. [Sanborn, 2014] India: Assam, Margherita, Naga Hills; China: Hunan, Zhejiang, Liaoning, Shanxi, Gansu, Hubei, Jiangsu, Jiangxi, Fujian, Guangdong, Guangxi, Sichuan, Yunnan; Burma: , Arisan, Taiwan (Formosa); Hong Kong; Korea, Thailand, Indochina, Southeast Asia, Vietnam.

**Notes:** Authority: Walker 1858b

## *Mogannia effecta* subsp. *effecta* Distant, 1892

### Nomenclature:

*Mogannia effecta* Distant, 1892

## Material

### Holotype:

- a. scientificName: *Mogannia effecta effecta* Distant, 1892; continent: Asia; country: India; locality: N.E. India; sex: male; catalogNumber: BMNH(E) 1009579; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Sikkim; Darjeeling; Naga Hills. [Metcalf, 1963] Sumatra; Northeastern India; India; Sikkim; Assam; Bengal; Northern Bengal; Sumatra (?); Uttar Pradesh. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] China, Vietnam, Nepal, India, Indonesia.

**Notes:** Authority: Distant 1892b

## *Mogannia effecta* var. *a* Distant, 1892

### Nomenclature:

*Mogannia effecta* var. *a* Distant, 1892

### Material

#### Holotype:

- a. scientificName: *Mogannia effecta* var. *a* Distant, 1892; continent: Asia; country: Indonesia; locality: Sumatra; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Sikkim; Darjeeling; Naga Hills. [Metcalf, 1963] Sumatra; Northeastern India; India; Sikkim; Assam; Bengal; Northern Bengal; Sumatra (?); Uttar Pradesh.

**Notes:** Authority: Distant 1892b

## *Mogannia effecta* var. *b* Distant, 1892

### Nomenclature:

*Mogannia effecta* var. *b* Distant, 1892

### Material

#### Holotype:

- a. scientificName: *Mogannia effecta* var. *b* Distant, 1892; continent: Asia; country: Indonesia; locality: Sumatra; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Sikkim; Darjeeling; Naga Hills. [Metcalf, 1963] Sumatra; Northeastern India; India; Sikkim; Assam; Bengal; Northern Bengal; Sumatra (?); Uttar Pradesh.

**Notes:** Authority: Distant 1892b

## *Mogannia funebris* Stål, 1865

### Nomenclature:

*Mogannia funebris* Stål, 1865

### Materials

#### Holotype:

- a. scientificName: *Mogannia funebris* Stål, 1865; continent: Asia; country: Bangladesh; locality: Silhet; sex: female; institutionCode: NHRS; basisOfRecord: PreservedSpecimen

#### Other material:

- a. scientificName: *Mogannia funebris* Stål, 1865; continent: Asia; country: Laos; locality: Xieng Khomang; eventDate: 18/05/1919; individualCount: 1; sex: male; catalogNumber:

BMNH(E) 1009580; recordedBy: R.V. de Salvaza; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; Silhet; India; Burma; Tonkin; British India; Indochina; Uttar Pradesh. [Sanborn, 2014] Vietnam, Myanmar, Bangladesh, India.

**Notes:** Authority: Stål 1865

### ***Mogannia funebris* var. *a* Distant, 1892**

**Nomenclature:**

*Mogannia funebris* var. *a* Distant, 1892

### **Material**

**Holotype:**

- a. scientificName: *Mogannia funebris* var. *a* Distant, 1892; continent: Asia; country: Myanmar; locality: Bhamo, Burma; recordedBy: Leonardo Fea; institutionCode: MSNG; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma.

**Notes:** Authority: Distant 1892a

### ***Mogannia nasalis* subsp. *nasalis* (White, 1844)**

**Nomenclature:**

*Cicada nasalis* White, 1844

*Mogannia chinensis* Stål, 1865

*Mogannia kikowensis* Ouchi, 1938

*Mogannia kikowensis* var. *a* Ouchi, 1938

*Mogannia kikowensis* var. *b* Ouchi, 1938

*Mogannia kikowensis* var. *c* Ouchi, 1938

### **Material**

**Holotype:**

- a. scientificName: *Mogannia nasalis nasalis* (White, 1844); continent: Asia; country: China; locality: Hong Kong; recordedBy: J.C. Bowring; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Hong Kong Island; Fukien; China; Northern China; Formosa; Macao Island; Oriental Region; Japan; Southern China; Kwangtung; Assam; Anhwei. [Duffels and van der Laan, 1985] China. [Sanborn, 2014] China, Macao, Hongkong, Assam, Formosa, Anhui, Zhejiang, Fujian, Taiwan, Hunan, Guangxi, India.

**Notes:** Authority: White 1844

## *Mogannia obliqua* Walker, 1858

### Nomenclature:

*Mogannia obliqua* Walker, 1858

### Materials

#### Syntype:

- a. scientificName: *Mogannia obliqua* Walker, 1858; continent: Asia; country: Indonesia; locality: Java (E. Indies); sex: female; catalogNumber: BMNH(E) 1009581; recordedBy: J.C. Bowring; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Mogannia obliqua* Walker, 1858; continent: Asia; country: India; locality: Hindostan; sex: female; basisOfRecord: PreservedSpecimen

#### Other material:

- a. scientificName: *Mogannia obliqua* Walker, 1858; continent: Asia; country: India; locality: Karen Hill Tracts; eventDate: ??/05-06/1923; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009582; recordedBy: Archbald; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Sikkim; Assam; Naga Hills; Margherita; Mungpoo (Bengal). Burma: Momeit; Rangoon; Charin. [Metcalf, 1963] Hindustan; Java; India; Burma; Sikkim; Assam; Bengal; Malay States; Malaya; Indochina; Malay Peninsula; East Indies; Tenasserim; Northern Bengal; Upper Burma; Indo-Malay Peninsula. [Sanborn, 2014] China, Borneo, Sabah, Thailand, India, Malaysian Archipelago, Java, Bengal, Burma, Malaysia, Vietnam, Indonesia, Myanmar, Vietnam.

**Notes:** Authority: Walker 1858b

## *Mogannia venutissima* var. *a* Stål, 1865

### Nomenclature:

*Mogannia venutissima* var. *a* Stål, 1865

### Material

#### Holotype:

- a. scientificName: *Mogannia venutissima* var. *a* Stål, 1865; continent: Asia; locality: India orientalis; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Eastern India.

**Notes:** Authority: Stål 1865

## *Mogannia venutissima* var. *b* Stål, 1865

### Nomenclature:

*Mogannia venutissima* var. *b* Stål, 1865

## Material

### Holotype:

- a. scientificName: *Mogannia venutissima* var. b Stål, 1865; continent: Asia; locality: India orientalis; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Eastern India.

**Notes:** Authority: Stål 1865

## *Mogannia venutissima* subsp. *venutissima* Stål, 1865

### Nomenclature:

*Mogannia venutissima* Stål, 1865

## Materials

### Syntype:

- a. scientificName: *Mogannia venutissima venutissima* Stål, 1865; continent: Asia; locality: India orientalis; sex: male; institutionCode: NHRS; basisOfRecord: PreservedSpecimen
- b. scientificName: *Mogannia venutissima venutissima* Stål, 1865; continent: Asia; locality: India orientalis; sex: female; institutionCode: NHRS; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Eastern India; India; Malaya; Malay Archipelago; Sikkim; Malay Peninsula; Krakatau Islands. [Sanborn, 2014] Indonesia, Krakatau.

**Notes:** Authority: Stål 1865

## *Mogannia viridis* (Signoret, 1847)

### Nomenclature:

*Cephaloxys viridis* Signoret, 1847

*Cephaloxys rostrata* Walker, 1850

*Mogannia distinguenda* Distant, 1920

## Material

### Holotype:

- a. scientificName: *Mogannia viridis* (Signoret, 1847); continent: Asia; country: Indonesia; locality: Java; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Mungpoo (Bengal); Naga Hills and Margherita (Assam). Burma: Momeit. [Metcalf, 1963] Java; India; Burma; Malay Peninsula; Bengal; Assam; Malay States; Banguey Island; Malaya; Perak; Borneo; Malacca; Singapore Island; Johore; Penang; Tenasserim; Indochina; Philippine Islands; Sikkim; Sumatra; Upper Burma; Malay Archipelago. [Sanborn, 2014] Borneo, Sarawak, Java, India, Burma, Peninsular Malaysia, Banguey Island, Philippines, Sabah, Banguey Island, Vietnam, Indonesia, Sumatra, Myanmar.

**Notes:** Authority: Signoret 1847b

### ***Mosaica irregularis* Lee & Emery, 2013**

#### **Nomenclature:**

*Mosaica irregularis* Lee & Emery, 2013

#### **Material**

#### *Holotype:*

- a. scientificName: *Mosaica irregularis* Lee & Emery, 2013; continent: Asia; country: India; locality: Arunachal Pradesh Dist. along near Rapum; verbatimElevation: 2000 m; eventDate: 6-12/07/2010; individualCount: 1; sex: male; recordedBy: Bretschneider; institutionCode: MNHN; basisOfRecord: PreservedSpecimen

**Distribution:** [Lee and Emery, 2013] India.

**Notes:** Authority: Lee and Emery 2013

### ***Tanna thalia* (Walker, 1850)**

#### **Nomenclature:**

*Dundubia thalia* Walker, 1850

*Cicada sphinx* Walker, 1850

*Pomponia horsfieldi* Distant, 1893

#### **Material**

#### *Syntype:*

- a. scientificName: *Tanna thalia* (Walker, 1850); locality: Locality unknown; individualCount: 3; sex: male; catalogNumber: BMNH(E) 1009406; occurrenceRemarks: Voucher number corresponds to one specimen.; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] Continental India: Sikkim; Mussoore; Darjeeling. [Metcalf, 1963] Borneo; India; Java; Sikkim; Mysore; Bengal; Tibet; Sarawak; British India; Yunnan; Northern India; China; Assam; Uttar Pradesh. [Duffels and van der Laan, 1985] Tibet; China; Nepal; China. [Sanborn, 2014] China, Yunna, Tibet, India, Sikkim, Darjiling, Yunnan, Sichuan, Xizang, Indonesia, Java.

**Notes:** Authority: Walker 1850

### ***Neoterpnosia donghai* Lee & Emery, 2014**

#### **Nomenclature:**

*Neoterpnosia donghai* Lee & Emery, 2014

## Materials

### Holotype:

- a. scientificName: *Neoterpnosia donghai* Lee & Emery, 2014; continent: Asia; country: India; locality: Monigong, Lungte, 1225m, Arunachal Pradesh; verbatimElevation: 1225 m; individualCount: 1; sex: male; catalogNumber: MNHN (EH) 16438; recordedBy: G. Bretschneider; institutionCode: MNHN; basisOfRecord: PreservedSpecimen

### Paratype:

- a. scientificName: *Neoterpnosia donghai* Lee & Emery, 2014; continent: Asia; country: India; locality: Monigong, Lungte, 1225m, Arunachal Pradesh; verbatimElevation: 1225 m; individualCount: 2; sex: male; recordedBy: G. Bretschneider; institutionCode: AMS; basisOfRecord: PreservedSpecimen
- b. scientificName: *Neoterpnosia donghai* Lee & Emery, 2014; continent: Asia; country: India; locality: Monigong, Lungte, 1225m, Arunachal Pradesh; verbatimElevation: 1225 m; individualCount: 1; sex: female; recordedBy: G. Bretschneider; institutionCode: AMS; basisOfRecord: PreservedSpecimen

**Distribution:** [Lee and Emery, 2014] India.

**Notes:** Authority: Lee and Emery 2014a

## *Neoterpnosia oberthuri* (Distant, 1912)

### Nomenclature:

*Terpnosia oberthuri* Distant, 1912

### Material

### Holotype:

- a. scientificName: *Neoterpnosia oberthuri* (Distant, 1912); continent: Asia; country: Bhutan; locality: Maria-Basti; eventDate: ???/??/1898; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009550; recordedBy: Mr Durel (R. Oberthur coll.); institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bhutan; China.

**Notes:** Authority: Distant 1912a

## *Neoterpnosia versicolor* (Distant, 1912)

### Nomenclature:

*Terpnosia versicolor* Distant, 1912

### Material

### Holotype:

- a. scientificName: *Neoterpnosia versicolor* (Distant, 1912); continent: Asia; country: Myanmar; locality: Ruby Mines, Burma; individualCount: 1; sex: male; catalogNumber:

BMNH(E) 1009551; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma. [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Distant 1912a

### *Oxypleura atkinsoni* (Distant, 1912)

**Nomenclature:**

*Platypleura atkinsoni* Distant, 1912

### **Material**

**Holotype:**

- a. scientificName: *Oxypleura atkinsoni* (Distant, 1912); continent: Asia; country: Myanmar; locality: Tenasserim; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009501; recordedBy: E.F.T. Atkinson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Tenasserim.

**Notes:** Authority: Distant 1912d

### *Paharia lacteipennis* (Walker, 1850)

**Nomenclature:**

*Cephaloxys lacteipennis* Walker, 1850

### **Material**

**Holotype:**

- a. scientificName: *Paharia lacteipennis* (Walker, 1850); continent: Asia; country: India; locality: N. India; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009602; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Northern India; Afghanistan; Baluchistan. [Duffels and van der Laan, 1985] Afghanistan; Kazakhstan (U.S.S.R.); Kashmir. [Sanborn, 2014] Pakistan, Kazakhstan, Afghanistan, India.

**Notes:** Authority: Walker 1850; Walker (1850) specified the type as a male in the species description, Distant (1892a) later states, in error, that the type was a female.

### *Panka simulata* Distant, 1905

**Nomenclature:**

*Panka simulata* Distant, 1905

*Tibicen nubiferca* Distant, 1892 (nec Walker, 1858)

## Material

### Holotype:

- a. scientificName: *Panka simulata* Distant, 1905; continent: Asia; country: Sri Lanka; locality: Ceylon; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Ceylon. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] Ceylon.

**Notes:** Authority: Distant 1905d

## *Paranosia andersoni* (Distant, 1892)

### Nomenclature:

*Terpnosia andersoni* Distant, 1892

## Material

### Holotype:

- a. scientificName: *Paranosia andersoni* (Distant, 1892); continent: Asia; country: China; locality: W. Yunnan, China; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009545; recordedBy: Dr Anderson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] China; Yunnan; Sikkim; Burma; Tenasserim; Western Yunnan; Kiangsu; India. [Duffels and van der Laan, 1985] Thailand; Nepal; Bhutan; China. [Sanborn, 2014] China, Jiangsu, Jiangxi, Yunnan, Burma, India, Nepal, Bhutan, Thailand, Laos, Southeast Asia.

**Notes:** Authority: Distant 1892c

## *Paratanna parata* Lee, 2012

### Nomenclature:

*Paratanna parata* Lee, 2012

## Materials

### Holotype:

- a. scientificName: *Paratanna parata* Lee, 2012; continent: Asia; country: India; locality: Shembaganur, Madura, Indes anglaises; individualCount: 1; sex: male; institutionCode: IRSNB; basisOfRecord: PreservedSpecimen

### Paratype:

- a. scientificName: *Paratanna parata* Lee, 2012; continent: Asia; country: India; locality: Shembaganur, Indes anglaises; individualCount: 1; sex: male; institutionCode: IRSNB; basisOfRecord: PreservedSpecimen

- b. scientificName: *Paratanna parata* Lee, 2012; continent: Asia; country: India; locality: Shamba, ganur; individualCount: 1; sex: male; institutionCode: IRSNB; basisOfRecord: PreservedSpecimen
- c. scientificName: *Paratanna parata* Lee, 2012; continent: Asia; country: India; locality: Indes anglaises, Madura, Shembaganur; individualCount: 2; sex: female; recordedBy: R. De Buck; institutionCode: IRSNB; basisOfRecord: PreservedSpecimen
- d. scientificName: *Paratanna parata* Lee, 2012; continent: Asia; country: India; locality: Shembaganur, Madura, Indes; individualCount: 1; sex: female; institutionCode: IRSNB; basisOfRecord: PreservedSpecimen

**Distribution:** [Lee, 2012] India.

**Notes:** Authority: Lee 2012a

### ***Pauropsalta exaequata* (Distant, 1892)**

**Nomenclature:**

*Melampsalta exaequata* Distant, 1892

**Material**

**Holotype:**

- a. scientificName: *Pauropsalta exaequata* (Distant, 1892); continent: Asia; country: India; locality: Naga Hills; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009616; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Assam. [Sanborn, 2014] India.

**Notes:** Authority: Distant 1892c

### ***Platylomia amicta* (Distant, 1889)**

**Nomenclature:**

*Dundubia amicta* Distant, 1889

**Material**

**Holotype:**

- a. scientificName: *Platylomia amicta* (Distant, 1889); continent: Asia; country: India; locality: Karwar (Karnataka); individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009473; recordedBy: E.F.T. Atkinson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bombay; India.

**Notes:** Authority: Distant 1889a

## ***Platylomia brevis* Distant, 1912**

### **Nomenclature:**

*Platylomia brevis* Distant, 1912

### **Material**

#### **Holotype:**

- a. scientificName: *Platylomia brevis* Distant, 1912; continent: Asia; country: India; locality: N. India; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009478; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Northern India; Himalayas. [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Distant 1912d

## ***Platylomia ficulnea* (Distant, 1892)**

### **Nomenclature:**

*Cosmopsaltria ficulnea* Distant, 1892

### **Materials**

#### **Lectotype:**

- a. scientificName: *Platylomia ficulnea* (Distant, 1892); continent: Asia; country: Myanmar; locality: Carin Ghecu; verbatimElevation: 1300 - 1400 m; individualCount: 1; sex: male; recordedBy: Leonardo Fea; institutionCode: MSNG; basisOfRecord: PreservedSpecimen

#### **Paralectotype:**

- a. scientificName: *Platylomia ficulnea* (Distant, 1892); continent: Asia; country: Myanmar; locality: Karen Hills; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009484; occurrenceRemarks: Not Lectotype, see taxon notes.; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: Assam. Burma: Karennee; Karen Hills. [Metcalf, 1963] Burma; Assam. [Sanborn, 2014] Burma, India.

**Notes:** Authority: Distant 1892c; Beuk (1998) designated a male Lectotype: "Lectotype [male] (here designated) of *Cosmopsaltria ficulnea* Distant: 'Carin Ghecu / 1300-1400 m / L. Fea II-III.88' [printed] and '*Cosmopsaltria / ficulnea / type Dist.*' [Distant's handwriting]". Hence the specimen labelled as the Lectotype in NHMUK is actually the Paralectotype. An additional 2 male (1MSNG, 1 NHMUK) paralectotypes were designated.

## *Platylomia insignis* Distant, 1912

### Nomenclature:

*Platylomia insignis* Distant, 1912

### Material

#### Holotype:

- a. scientificName: *Platylomia insignis* Distant, 1912; continent: Asia; country: Bhutan; locality: Maria-Basti; eventDate: ??/??/1898; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009472; recordedBy: Mr Durel (R. Oberthur coll.); institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bhutan; China.

**Notes:** Authority: Distant 1912d

## *Platylomia larus* (Walker, 1858)

### Nomenclature:

*Dundubia larus* Walker, 1858

### Materials

#### Holotype:

- a. scientificName: *Platylomia larus* (Walker, 1858); continent: Asia; country: Sri Lanka; sex: female; catalogNumber: BMNH(E) 1009477; recordedBy: R. Templeton; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

#### Other material:

- a. scientificName: *Platylomia larus* (Walker, 1858); continent: Asia; country: India; locality: Bombay; individualCount: 1; recordedBy: Leith; basisOfRecord: PreservedSpecimen
- b. scientificName: *Platylomia larus* (Walker, 1858); continent: Asia; country: India; locality: Neelgiri Hills, Koonoor; verbatimElevation: 600 ft; individualCount: 1; recordedBy: G. Hampson; basisOfRecord: PreservedSpecimen
- c. scientificName: *Platylomia larus* (Walker, 1858); continent: Asia; country: Sri Lanka; locality: Ceylon; individualCount: 1; recordedBy: R. Templeton; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Bombay; Neelgiri Hills (Koonoor, 6000 ft). Ceylon. [Metcalf, 1963] Ceylon; India; Eastern India; Bombay; Kiangsu. [Duffels and van der Laan, 1985] Ceylon; China. [Sanborn, 2014] China, Jiangsu, India, Sri Lanka.

**Notes:** Authority: Walker 1858b

## *Platylomia malickyi* Beuk, 1998

### Nomenclature:

*Platylomia malickyi* Beuk, 1998

### Materials

#### Holotype:

- a. scientificName: *Platylomia malickyi* Beuk, 1998; continent: Asia; country: Thailand; locality: Changmai Zoo Lichtfalle; verbatimElevation: 400 m; eventDate: 24-30/04/1989; individualCount: 1; sex: male; recordedBy: Chantaramongkol and Malicky; institutionCode: IZUI; basisOfRecord: PreservedSpecimen

#### Paratype:

- a. scientificName: *Platylomia malickyi* Beuk, 1998; continent: Asia; country: Myanmar; locality: Maymyo; eventDate: 29/04/1901; individualCount: 1; sex: female; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Platylomia malickyi* Beuk, 1998; continent: Asia; country: Myanmar; locality: Maymyo; eventDate: ??/05/1910; individualCount: 1; sex: female; recordedBy: H.L. Andrewes; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Sanborn, 2014] Burma, Laos, Thailand, Vietnam, Southern China, Yunnan, China, Myanmar, Cambodia.

**Notes:** Authority: Beuk 1998; An additional 30 male paratypes (9 IZUI; 2 BPBM; 10 SUU; 1 MNHN; 4 NHMUK; 2 ZMAN; 1 USNM; 1 CASC) and 5 female paratypes (1 BPBM; 2 SUU; 2 NHMUK) were designated in the species description, however only the material from Myanmar is included here.

## *Platylomia operculata* Distant, 1913

### Nomenclature:

*Platylomia operculata* Distant, 1913

### Material

#### Lectotype:

- a. scientificName: *Platylomia operculata* Distant, 1913; continent: Asia; locality: Indo-China; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009486; recordedBy: R.V. de Salvaza; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Indochina. [Sanborn, 2014] Thailand, Burma, Laos, India, Indochina, Vietnam, China, Yunnan, Guangxi, Jiangxi, Hainan, Laos, Cambodia, Myanmar.

**Notes:** Authority: Distant 1913b; Female described by Boulard (2005). Sanborn (2014) listed India in reference to Boulard (2005). This species was described from Indo-China and there are currently no records of this species known from the Indian region, however it is present in the surrounding countries.

## ***Platylomia radha* (Distant, 1881)**

### **Nomenclature:**

*Dundubia radha* Distant, 1881

*Dundubia similis* Distant, 1882

### **Materials**

#### **Lectotype:**

- a. scientificName: *Platylomia radha* (Distant, 1881); continent: Asia; country: India; locality: Masuri Hills; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

#### **Other material:**

- a. scientificName: *Platylomia radha* (Distant, 1881); continent: Asia; country: India; locality: Sikkim; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009517; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Madras Presidency; Naga Hills; Sikkim; Assam. Burma: Teinzo. [Metcalf, 1963] Madras; India; Burma; Siam; Thailand; Sikkim; Assam; Indochina; Bengal. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] India, China, Yunnan, Burma, Sikkim, Nepal, Thailand, Peninsular Malaysia, Assam, Bhutan, Nepal, Cambodia, Laos, Vietnam, China Hainan, Sichuan, yunnan, Indo-China, Peninsular Thailand, Taiwan, Guangxi, Jingxi, Hainan, Southeast Asia, Vietnam.

**Notes:** Authority: Distant 1881; Lectotype designated by Beuk (1998).

## ***Platylomia vibrans* (Walker, 1850)**

### **Nomenclature:**

*Dundubia vibrans* Walker, 1850

*Dundubia lateralis* Walker, 1850

### **Material**

#### **Holotype:**

- a. scientificName: *Platylomia vibrans* (Walker, 1850); continent: Asia; country: Bangladesh; locality: Silhet; sex: male; catalogNumber: BMNH(E) 1009481; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Margherita (Assam); Naga Hills; Sylhet (Bangladesh). [Metcalf, 1963] India; Assam; East Bengal; Ceram; Malay Peninsula; Malacca.

**Notes:** Authority: Walker 1850

***Platyplectron affinis* subsp. *affinis* (Fabricius, 1803)****Nomenclature:**

*Tettigonia affinis* Fabricius, 1803

*Platyplectron nicobarica* Butler, 1877 (nec Atkinson, 1884)

**Materials****Holotype:**

- a. scientificName: *Platyplectron affinis affinis* (Fabricius, 1803); continent: Asia; country: India; locality: India Orientali; individualCount: 1; institutionCode: MZLU; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Platyplectron affinis affinis* (Fabricius, 1803); continent: Asia; country: India; locality: Nicobar Islands; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009510; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Cape of Good Hope (?); Eastern India; Nicobar Islands. [Sanborn, 2014] India Oriental.

**Notes:** Authority: Fabricius 1803

***Platyplectron affinis* subsp. *distincta* Atkinson, 1884****Nomenclature:**

*Platyplectron affinis distincta* Atkinson, 1884

*Platyplectron nicobarica* Atkinson, 1884 (nec Butler, 1877)

*Poecilopsaltria nicobarica* var. a Distant, 1889

**Material****Holotype:**

- a. scientificName: *Platyplectron affinis distincta* Atkinson, 1884; continent: Asia; country: India; locality: Nicobar Islands; institutionCode: NZSI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Nicobar Islands.

**Notes:** Authority: Atkinson 1884

***Platyplectron andamana* Distant, 1878****Nomenclature:**

*Platyplectron andamana* Distant, 1878

*Platyplectron roepstorffii* Atkinson, 1884

## Material

### Holotype:

- a. scientificName: *Platypleura andamana* Distant, 1878; continent: Asia; country: India; locality: Andaman Islands; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009513; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Andaman Islands; India. [Sanborn, 2014] Andaman Islands.

**Notes:** Authority: Distant 1878b

## *Platypleura assamensis* Atkinson, 1884

### Nomenclature:

*Platypleura assamensis* Atkinson, 1884

*Platypleura repanda* var. a Distant, 1889

## Materials

### Syntype:

- a. scientificName: *Platypleura assamensis* Atkinson, 1884; continent: Asia; country: India; locality: Sibsagar; institutionCode: NZSI; basisOfRecord: PreservedSpecimen
- b. scientificName: *Platypleura assamensis* Atkinson, 1884; continent: Asia; country: India; locality: Naga Hills; institutionCode: NZSI; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Platypleura assamensis* Atkinson, 1884; continent: Asia; country: India; locality: Margherita, Upper Assam; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009507; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Daejeeling; Assam: Seeksager and Naga Hills; Khasi Hills.; [Metcalf, 1963] Assam; Sibsagar; India; Uttar Pradesh. [Duffels and van der Laan, 1985] Bhutan. [Sanborn, 2014] China.

**Notes:** Authority: Atkinson 1884

## *Platypleura badia* Distant, 1888

### Nomenclature:

*Platypleura badia* Distant, 1888

*Platypleura fasuayensis* Boulard, 2005

## Materials

### Holotype:

- a. scientificName: *Platyleura badia* Distant, 1888; continent: Asia; country: Myanmar; locality: Houngdarau Valley, Tenasserim; sex: female; recordedBy: Leonardo Fea; institutionCode: MSNG; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Platyleura badia* Distant, 1888; continent: Asia; country: Myanmar; locality: Toungoo Dist., Lower Burma; eventDate: ??/??/1913; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009506; occurrenceRemarks: Specimen not part of type series, see taxon notes.; recordedBy: G.C. Clarence; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Tenasserim; Lower Burma; Indo-China; Perak; Burma; Tonkin; Malay Peninsula. [Sanborn, 2014] China, Vietnam, Thailand, India, Burma, Vietnam, Tenasserim, Burma, North Vietnam, Yunnan, Malaysia, Myanmar.

**Notes:** Authority: Distant 1888c; In the NHMUK there is a male specimen bearing a type label, however this male was described later by Distant (1913b). Holotype is a female from "Tenasserim: Houngdarau Valley" (MSNG). Not from India: Sanborn (2014) states India in reference to Sanborn et al. (2007) and Lee (2008), however their inclusion of India is in reference to previous distributions that may be incorrect, having resulted from Indo-China being included as India. Further evidence is required before this species can be included in the fauna of this region.

## *Platyleura basialba* (Walker, 1850)

### Nomenclature:

*Oxypleura basialba* Walker, 1850

## Materials

### Holotype:

- a. scientificName: *Platyleura basialba* (Walker, 1850); continent: Asia; country: India; locality: N. Bengal; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009491; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Platyleura basialba* (Walker, 1850); locality: Locality unknown; eventDate: ??/04/1919; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009490; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal; India; Northern Bengal; British India; Uttar Pradesh. [Sanborn, 2014] Pakistan, India.

**Notes:** Authority: Walker 1850

## *Platypleura basiviridis* Walker, 1850

### Nomenclature:

*Platypleura basiviridis* Walker, 1850

### Material

#### Holotype:

- a. scientificName: *Platypleura basiviridis* Walker, 1850; locality: Locality unknown; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009373; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Karwar. [Metcalf, 1963] India; Bombay; Madras; Mysore; Coorg. [Sanborn, 2014] India.

**Notes:** Authority: Walker 1850

## *Platypleura bufo* (Walker, 1850)

### Nomenclature:

*Oxypleura bufo* Walker, 1850

### Material

#### Holotype:

- a. scientificName: *Platypleura bufo* (Walker, 1850); continent: Asia; country: India; locality: E. India; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009502; recordedBy: R.H. Inglis; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Eastern India; British India.

**Notes:** Authority: Walker 1850

## *Platypleura capitata* (Olivier, 1790)

### Nomenclature:

*Cicada capitata* Olivier, 1790

*Oxypleura subrufa* Walker, 1850

### Materials

#### Holotype:

- a. scientificName: *Platypleura capitata* (Olivier, 1790); continent: Asia; country: Sri Lanka; basisOfRecord: PreservedSpecimen

#### Other material:

- a. scientificName: *Platypleura capitata* (Olivier, 1790); continent: Asia; country: India; locality: Chitleri Hills, Salem District, Madras; individualCount: 1; sex: male;

catalogNumber: BMNH(E) 1009492; recordedBy: H.A. Latham; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Ceylon; Java; India; Hyderabad; Madras; Central Provinces; United Provinces; Japan; Madhya Pradesh; Uttar Pradesh. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] Sri Lanka, India.

**Notes:** Authority: Olivier 1790

### ***Platyplectron cervina* Walker, 1850**

**Nomenclature:**

*Platyplectron cervina* Walker, 1850

*Platyplectron straminea* Walker, 1850

### **Material**

**Holotype:**

- a. scientificName: *Platyplectron cervina* Walker, 1850; continent: Asia; country: India; locality: N. Bengal; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009500; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal; Northern India; India; Northern Bengal.

**Notes:** Authority: Walker 1850

### ***Platyplectron coelebs* Stål, 1863**

**Nomenclature:**

*Platyplectron coelebs* Stål, 1863

### **Material**

**Holotype:**

- a. scientificName: *Platyplectron coelebs* Stål, 1863; continent: Asia; country: India; locality: E. India; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009508; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Dekhan. [Metcalfe, 1963] Eastern India; Northern India; India; China; Deccan; Central China; Oriental Region; Chusan Archipelago; Tonkin; Chusan Islands. [Sanborn, 2014] China, Chusan, Guangdong, Guangxi, Zhejiang, Vietnam, India.

**Notes:** Authority: Stål 1863

## *Platypleura hampsoni* (Distant, 1887)

### Nomenclature:

*Poecilopsaltria hampsoni* Distant, 1887

### Material

#### Holotype:

- a. scientificName: *Platypleura hampsoni* (Distant, 1887); continent: Asia; country: India; locality: Nilgiri Hills, northern slopes; verbatimElevation: 5000 ft; eventDate: 29/05/1887; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009374; recordedBy: G.F. Hampson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Neelgiri Hills, n. slopes, 3500 and 5000 ft. [Metcalf, 1963] Madras; India. [Sanborn, 2014] India.

**Notes:** Authority: Distant 1887a

## *Platypleura inglesi* Ollenbach, 1929

### Nomenclature:

*Platypleura inglesi* Ollenbach, 1929

### Material

#### Holotype:

- a. scientificName: *Platypleura inglesi* Ollenbach, 1929; continent: Asia; country: India; locality: Darjeeling, Kurseong; verbatimElevation: 4000 ft; individualCount: 1; sex: female; recordedBy: H. Inglis; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal; India.

**Notes:** Authority: Ollenbach 1929

## *Platypleura insignis* Distant, 1879

### Nomenclature:

*Platypleura insignis* Distant, 1879

### Materials

#### Holotype:

- a. scientificName: *Platypleura insignis* Distant, 1879; continent: Asia; country: Myanmar; locality: Upper Tenasserim; individualCount: 1; sex: male; recordedBy: Limborg; institutionCode: NZSL; basisOfRecord: PreservedSpecimen

#### Other material:

- a. scientificName: *Platypleura insignis* Distant, 1879; continent: Asia; country: Myanmar; locality: Karen Hills; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009505;

recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: Upper Tenasserim. Burma: Karen Hills. [Metcalf, 1963] Tenasserim; Hindustan; Burma; India. [Sanborn, 2014] Indochina, Thailand, Tenasserim.

**Notes:** Authority: Distant 1879; Metcalf (1963) lists "India", however the type was collected from Upper Tenasserim (southern Myanmar), which was formerly a part of "British India" but is quite distant from the India/Myanmar border. No records have been found in modern India at present.

## *Platyplectron intermedia* Liu, 1940

### Nomenclature:

*Platyplectron intermedia* Liu, 1940

### Material

#### Holotype:

- a. scientificName: *Platyplectron intermedia* Liu, 1940; continent: Asia; country: Sri Lanka; locality: Poffua, Ceylon; individualCount: 1; sex: male; institutionCode: MCZ; basisOfRecord: PreservedSpecimen

**Distribution:** [Liu, 1940] Ceylon: Poffua.

**Notes:** Authority: Liu 1940

## *Platyplectron mackinnoni* Distant, 1904

### Nomenclature:

*Platyplectron mackinnoni* Distant, 1904

### Materials

#### Syntype:

- a. scientificName: *Platyplectron mackinnoni* Distant, 1904; continent: Asia; country: India; locality: Dehra Dun, Mussooree; eventDate: 18/06/1903; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009503; recordedBy: P.W. Mackinnon; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Platyplectron mackinnoni* Distant, 1904; continent: Asia; country: India; locality: Dehra Dun, Mussooree; eventDate: 1259; individualCount: 1; sex: female; catalogNumber: NHMUK 010214248; recordedBy: P.W. Mackinnon; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Mysore; India; Bihar; Uttar Pradesh; Northern India. [Duffels and van der Laan, 1985] India. [Sanborn, 2014] Nepal, Pakistan, India.

**Notes:** Authority: Distant 1904b

## ***Platyplectron nobilis* subsp. *nobilis* (Germar, 1830)**

### **Nomenclature:**

*Cicada nobilis* Germar, 1830

*Cicada hemiptera* Guérin-Méneville, 1843

*Platyplectron gemina* Walker, 1850

*Platyplectron semilucida* Walker, 1850

### **Material**

#### **Holotype:**

- a. scientificName: *Platyplectron nobilis nobilis* (Germar, 1830); continent: Asia; country: Indonesia; locality: Java; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: Garo Hills; Samagooting; Munjpoor. Burma: Tavoy. [Metcalf, 1963] Java; Sumatra; Malay Peninsula; Borneo; Hindustan; Tenasserim; Singapore Island; India; Assam; Burma; Sarawak; Malaya; Malacea; Perak; Penang; Johore; Sarawak (?); Siam; Manipur. [Duffels and van der Laan, 1985] Andaman Islands; Nicobar Islands; Philippines. [Sanborn, 2014] China, Java, Malaysia, Peninsular Malaysia, Borneo, Sabah, Sarawak, Thailand, Philippine Republic, Indochina, Java, Sumatra, Assam, India, Burma, Siam.

**Notes:** Authority: Germar 1830

## ***Platyplectron octoguttata* subsp. *octoguttata* (Fabricius, 1798)**

### **Nomenclature:**

*Tettigonia octoguttata* Fabricius, 1798

*Oxylepta sanguiflua* Walker, 1850

### **Materials**

#### **Holotype:**

- a. scientificName: *Platyplectron octoguttata octoguttata* (Fabricius, 1798); continent: South America; country: French Guiana; locality: Cajennae; basisOfRecord: PreservedSpecimen

#### **Other material:**

- a. scientificName: *Platyplectron octoguttata octoguttata* (Fabricius, 1798); continent: Asia; country: India; locality: Jubbulpore; eventDate: ??/??/1936; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009482; recordedBy: A. Berritt; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Panjab (Wazeerabad); North Bengal; Naini Tal; Rajpootana (Mount Aboo); Jodhpoor; Sambalpoor; Karachi; Bombay; Karwar; Coimbatore; Neelgiri Hills (Southern Slopes); Shivarai Hills.; [Metcalf, 1963] French Guiana [?]; India; Bengal; Eastern India; Surinam [?]; Punjab; Northern Bengal;

Northern India; Southern India; Calcutta; Central Provinces; Bombay; Ceylon; Mysore; Madras; Central India; Rajpatana; United Provinces; Uttar Pradesh. [Duffels and van der Laan, 1985] Ceylon; India. [Sanborn, 2014] India, Thailand, Pakistan.

**Notes:** Authority: Fabricius 1798; The type locality was stated as "Cajennae" [French Guiana], however all other specimens have been collected from the Indian region.

### *Platyplectron polita* subsp. *polita* (Walker, 1850)

#### Nomenclature:

*Oxypleura polita* Walker, 1850

#### Material

##### *Holotype:*

- a. scientificName: *Platyplectron polita polita* (Walker, 1850); locality: Locality unknown; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009504; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Karwar, Canara, Trevandrum. [Metcalf, 1963] India; Bombay; British India; Travancore; Madras. [Sanborn, 2014] India.

**Notes:** Authority: Walker 1850

### *Platyplectron polita* var. *a* (Distant, 1889)

#### Nomenclature:

*Poecilopsaltria polita* var. *a* Distant, 1889

#### Material

##### *Holotype:*

- a. scientificName: *Platyplectron polita* var. *a* (Distant, 1889); locality: Locality unknown; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Karwar, Canara, Trevandrum. [Metcalf, 1963] India; Bombay; British India; Travancore; Madras.

**Notes:** Authority: Distant 1889a

### *Platyplectron sphinx* Walker, 1850

#### Nomenclature:

*Platyplectron sphinx* Walker, 1850

## Materials

### Syntype:

- a. scientificName: *Platypleura sphinx* Walker, 1850; continent: Asia; country: India; locality: N. India; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009371; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Platypleura sphinx* Walker, 1850; continent: Asia; country: India; locality: North Bengal; individualCount: 1; sex: female; catalogNumber: NHMUK 010214247; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: North Bengal, Mhow. [Metcalf, 1963] Northern Bengal; Northern India; India; Bengal.

**Notes:** Authority: Walker 1850

## *Platypleura watsoni* (Distant, 1897)

### Nomenclature:

*Poecilopsaltria watsoni* Distant, 1897

*Platypleura mokensis* Boulard, 2003

### Material

### Holotype:

- a. scientificName: *Platypleura watsoni* (Distant, 1897); continent: Asia; country: Myanmar; locality: North Chin Hills; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009372; recordedBy: Watson; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; Tenasserim. [Sanborn, 2014] Thailand, India, Myanmar, Siam.

**Notes:** Authority: Distant 1897; Sanborn (2014) lists India in reference to Sanborn et al. (2007) whose distribution list was generated from Metcalf (1963), which only states Burma and Tenasserim. The type locality (Chin Hills) extends into India (Lushai Hills - Nagaland), thus this species may be recorded in Nagaland in future.

## *Platypleura westwoodi* Stål, 1863

### Nomenclature:

*Platypleura westwoodi* Stål, 1863

### Materials

### Holotype:

- a. scientificName: *Platypleura westwoodi* Stål, 1863; continent: Asia; country: Sri Lanka; individualCount: 1; sex: female; institutionCode: NHRS; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Platyleura westwoodi* Stål, 1863; continent: Asia; country: Sri Lanka; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009512; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Ceylon. [Duffels and van der Laan, 1985] Ceylon.

**Notes:** Authority: Stål 1863

### ***Polyneura ducalis* Westwood, 1840**

**Nomenclature:**

*Polyneura ducalis* Westwood, 1840

**Materials****Holotype:**

- a. scientificName: *Polyneura ducalis* Westwood, 1840; continent: Asia; country: India; recordedBy: Hardwicke; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Polyneura ducalis* Westwood, 1840; continent: Asia; country: India; locality: Simla; eventDate: ??/??/1930; individualCount: 1; sex: male; recordedBy: Jones; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92 and Distant, 1906] Continental India: Nepal; North-Western Province, Mussooree; Ranikhet; Sikkim and Assam; Darjeeling. Burma: Rangoon, Se-Tchouen; Tibet.; [Metcalf, 1963] India; Nepal; East Indies; Sikkim; Assam; Burma; Mysore; United Provinces; Szechwan; China; Tibet; Oriental Region; North Western Province; Cochin China; Central China; Sikang; Uttar Pradesh. [Duffels and van der Laan, 1985] China; Nepal. [Sanborn, 2014] India, China, Szechuan, Tibet, Assam, Sikkim, Hunan, Guangxi, Sichuan, Yunnan, Xizang, Indonesia, Burma, Nepal, South Vietnam,, Tibet, Myanmar.

**Notes:** Authority: Westwood 1840

### ***Polyneura laevigata* Chou & Yao, 1986**

**Nomenclature:**

*Polyneura laevigata* Chou & Yao, 1986

**Material****Holotype:**

- a. scientificName: *Polyneura laevigata* Chou & Yao, 1986; continent: Asia; country: China; eventDate: ??/09/1958; individualCount: 1; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Sanborn, 2014] China, Jiangxi, Nepal.

**Notes:** Authority: Chou and Yao 1986

### **Pomponia cinctimanus (Walker, 1850)**

#### **Nomenclature:**

*Dundubia cinctimanus* Walker, 1850

#### **Material**

##### *Holotype:*

- a. scientificName: *Pomponia cinctimanus* (Walker, 1850); continent: Asia; country: Bangladesh; locality: Silhet; sex: male; catalogNumber: BMNH(E) 1009389; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; Silhet. [Sanborn, 2014] Sylhet, Vietnam.

**Notes:** Authority: Walker 1850

### **Pomponia cyanea Fraser, 1948**

#### **Nomenclature:**

*Pomponia cyanea* Fraser, 1948

#### **Materials**

##### *Syntype:*

- a. scientificName: *Pomponia cyanea* Fraser, 1948; continent: Asia; country: India; locality: Munnar, Travancore, Eastern Outlet; verbatimElevation: 4000 ft; eventDate: ??/05/??; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009394; recordedBy: F.C. Fraser; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Pomponia cyanea* Fraser, 1948; continent: Asia; country: India; locality: Munnar, Travancore; eventDate: ??/??/1933; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009395; recordedBy: F.C. Fraser; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- c. scientificName: *Pomponia cyanea* Fraser, 1948; continent: Asia; country: India; locality: Munnar, Travancore; eventDate: ??/??/1933; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009396; recordedBy: F.C. Fraser; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- d. scientificName: *Pomponia cyanea* Fraser, 1948; continent: Asia; country: India; locality: Munnar, Travancore; eventDate: ??/??/1933; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009397; recordedBy: F.C. Fraser; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- e. scientificName: *Pomponia cyanea* Fraser, 1948; continent: Asia; country: India; locality: Munnar, Travancore; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009398; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Coorg; Travancore. [Sanborn, 2014] India.

**Notes:** Authority: Fraser 1948

## **Pomponia linearis (Walker, 1850)**

### **Nomenclature:**

*Dundubia linearis* Walker, 1850

### **Materials**

#### **Holotype:**

- a. scientificName: *Pomponia linearis* (Walker, 1850); locality: Locality unknown; sex: male; catalogNumber: BMNH(E) 1009401; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

#### **Other material:**

- a. scientificName: *Pomponia linearis* (Walker, 1850); continent: Asia; country: India; locality: Tenmalai, Travancore, S. India; verbatimElevation: 500 - 800 ft; eventDate: 11-17/10/1938; individualCount: 1; sex: female; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Margherita, Assam; Naga Hills; Seesagar; Neelgiri Hills (north slopes); Sylhet and Cachar (Bangladesh). [Metcalf, 1963] Sumatra; Bengal; Assam; India; Silhet; Java; Philippine Islands; Aru Islands; Hindustan; Malay Peninsula; Japan; Malacca; Tonkin; Malay Archipelago; Palaearctic Japan; Formosa; Ryukyu Islands; China; Singapore Island; Perak; Johore; Penang; British India; Sunda Islands; Indochina; Kyushu (?); Kwangtung; East Indies; Siam; Selangor; New Guinea; East Indies (?); Eastern India; Japan (?); Loochoo Islands; Sarawak; Ishigaki Island; Kwangsi; Jehol; Naga Hills; Madras; Yaeyama Islands; Chekiang; Fukien; Sikang; Burma; Uttar Pradesh; Borneo; Malaya. [Duffels and van der Laan, 1985] Taiwan; Ryukyu Islands; Japan; China; Malaysia; India; Yaeyama Islands (Japan); Nepal; Thailand. [Sanborn, 2014] Japan, Malaysia, China, Hunan, Taiwan, Indonesia, Kratatau, Borneo, Sabah, Peninsular Malaysia, Indo-China, New Guinea, Java, Sarawak, Shaanxi, Anhui, Jiangxi, Zhejiang, Fujian, Taiwan, Guangdong, Guangxi, Sichuan, Yunnan, Xizang, Philippines, Indonesia, Malaysia, India, Thailand, Malay Peninsula, Borneo, Taiwan, Vietnam, Laos, Cambodia, Singapore, Indonesia, Myanmar, Bangladesh, Nepal, Manipur, Assam, Margherita, Naga Hills, Nilgiri Hills, Sibsagar, Sylhet, Philippines, Bhutan, Philippine Republic, Southeast Asia, Laos, Bangladesh.

**Notes:** Authority: Walker 1850

## **Pomponia picta (Walker, 1870)**

### **Nomenclature:**

*Dundubia picta* Walker, 1870

*Cicada fusca* Olivier, 1790 (nec Müller, 1776)

*Pomponia fusca* Boulard, 2001 (nec Olivier, 1790)

## Material

### *Holotype:*

- a. scientificName: *Pomponia picta* (Walker, 1870); continent: Asia; country: Indonesia; locality: Sumatra; sex: female; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1916] Ceylon: Pattipola [Metcalf, 1963] Sumatra; Borneo; Java; Sarawak; Ceylon; Malay Peninsula; New Guinea. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] China, Han-lik, Canton, Kwangsi, Sylhet, Assam, Margherita, Naga Hills, Sibsagar, Cachar, Nilgiri Hils, Malay Peninsula, Java, Philippines, Japan, Malaysia, Borneo, Sabah, Borneo, Sarawak, Sumatra, Java, New Guinea, Taiwan, Indonesia, Sri Lanka, Sumatra, Nias Island, Thailand, Philippine Republic, Malay Archipelago, Japan, Malacca, Indochina, Vietnam, Nepal.

**Notes:** Authority: Walker 1870

## *Pomponia ramifera* (Walker, 1850)

### **Nomenclature:**

*Dundubia ramifera* Walker, 1850

## Material

### *Holotype:*

- a. scientificName: *Pomponia ramifera* (Walker, 1850); continent: Asia; country: Bangladesh; locality: Silhet; sex: male; catalogNumber: BMNH(E) 1009390; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; Silhet. [Sanborn, 2014] Sylhet, Vietnam.

**Notes:** Authority: Walker 1850

## *Pomponia secreta* Hayashi, 1978

### **Nomenclature:**

*Pomponia secreta* Hayashi, 1978

## Material

### *Holotype:*

- a. scientificName: *Pomponia secreta* Hayashi, 1978; continent: Asia; country: Nepal; locality: Tatopani, C. Nepal; verbatimElevation: 1200 m; eventDate: 11/05/1974; individualCount: 1; sex: male; recordedBy: T. Aoki and S. Yamaguchi; institutionCode: NSMT; basisOfRecord: PreservedSpecimen

**Distribution:** [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Hayashi 1978

## **Pomponia solitaria Distant, 1888**

### **Nomenclature:**

*Pomponia solitaria* Distant, 1888

### **Material**

#### **Holotype:**

- a. scientificName: *Pomponia solitaria* Distant, 1888; continent: Asia; country: India; locality: Narkondam, Andaman Islands; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009404; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Andaman Islands; Narkondam Island. [Duffels and van der Laan, 1985] Andaman Islands; Nicobar Islands.

**Notes:** Authority: Distant 1888b

## **Pomponia surya Distant, 1904**

### **Nomenclature:**

*Pomponia surya* Distant, 1904

### **Materials**

#### **Syntype:**

- a. scientificName: *Pomponia surya* Distant, 1904; continent: Asia; country: India; locality: Mussoorie; verbatimElevation: 5000 ft; eventDate: 30/05/1903; sex: male; catalogNumber: BMNH(E) 1009405; recordedBy: P.W. Mackinnon; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Pomponia surya* Distant, 1904; continent: Asia; country: India; locality: Mussoorie (Masuri); verbatimElevation: 5000 ft; eventDate: 30/05/1903; sex: female; recordedBy: P.W. Mackinnon; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Mysore; India; Uttar Pradesh. [Duffels and van der Laan, 1985] Bhutan.

**Notes:** Authority: Distant 1904b

## **Pomponia urania (Walker, 1850)**

### **Nomenclature:**

*Dundubia urania* Walker, 1850

### **Material**

#### **Holotype:**

- a. scientificName: *Pomponia urania* (Walker, 1850); continent: Asia; country: India; locality: E. India; sex: male; catalogNumber: BMNH(E) 1009393; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India. [Sanborn, 2014] East India?, Vietnam.

**Notes:** Authority: Walker 1850

### **Pomponia zebra Bliven, 1964**

**Nomenclature:**

*Pomponia zebra* Bliven, 1964

### **Material**

**Holotype:**

- a. scientificName: *Pomponia zebra* Bliven, 1964; continent: Asia; country: India; locality: Kadamparai, Anamalai Hills; verbatimElevation: 3500 ft; eventDate: ??/05/1963; individualCount: 1; sex: male; recordedBy: P. Susai Nathan; institutionCode: CAS; basisOfRecord: PreservedSpecimen

**Distribution:** [Duffels and van der Laan, 1985] Southern India.

**Notes:** Authority: Bliven 1964

### **Proarna hilaris (Germar, 1834)**

**Nomenclature:**

*Cicada hilaris* Germar, 1834

*Cicada subtincta* Walker, 1850

*Cicada albiflos* Walker, 1850

*Cicada tomentosa* Walker, 1858

### **Material**

**Holotype:**

- a. scientificName: *Proarna hilaris* (Germar, 1834); continent: Oceania; locality: Australasia; recordedBy: Hope; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Australia [?]; Assam [?]; Cuba; Saint Thomas Island; Jamaica; East Bengal [?]; Santo Domingo; Philippine Islands [?]; Molucca Islands [?]; Mexico; Antilles; Dominica; South America; Saint Croix Island; Porto Rico; West Indies. [Sanborn, 2014] Puerto Rico, Dominican Republic, French Antilles, Guadeloupe, Martinique, Guana Island, British West Indies, Jamaica, Mexico, Caribbean Islands, Venezuela, Hispaniola.

**Notes:** Authority: Germar 1834; A junior synonym (*Cicada subtincta* Walker, 1850) of this species was described from Silhet (Bangladesh). It should be noted that the other two junior synonyms (*Cicada albiflos* Walker, 1850 and *Cicada tomentosa* Walker, 1858) were described from Jamaica and West Indies, while the senior synonym, *Proarna hilaris* (Germar, 1834) was described from Australasia. Thus if the type locality

of the junior synonym (*Cicada subtincta*) is correct it may have been incorrectly synonymised with *Proarna hilaris* by Stål (1862). Though not officially recorded from India it is highly likely that the junior synonym *C. subtincta* occurs in India.

### ***Psalmocharias querula* (Pallas, 1773)**

#### **Nomenclature:**

*Cicada querula* Pallas, 1773

*Cephaloxys quadrimacula* Walker, 1850

*Cicada steveni* Stal, 1854

#### **Material**

##### **Holotype:**

- a. scientificName: *Psalmocharias querula* (Pallas, 1773); continent: Asia; country: Russia; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Russia; Ural Mountains; Siberia; India; Southern Russia; Orenburg; Transcaucasia; Chkalov; Saratov; Southern Europe; Dagestan; St. Petersburg; Germany; Austria; Sweden; France; Northern India; Tunisia; Persia; Turkey; Turkestan; Afghanistan; Caucasus; Southern France; Algeria; Caspian Region; Quetta-Pishin; Palearctic Region; Northwestern India; Asiatic Russia; Syr Darya; Uzbek; Crimea; Russian Transcaspia; Baluchistan; Eastern Palearctic Region; Armenia; Tashkent; Palestine; Balistan; Iran. [Duffels and van der Laan, 1985] Himalaya; Europe; Afghanistan; Spain; Uzbekistan; U.S.S.R.; Israel; South-East U.S.S.R.; Egypt; Mongolia; Kazakhstan S.S.R.; South of France; Algeria; Iran; Tunisia. [Sanborn, 2014] Tajikistan, Iran, Afghanistan, Turkey, Algeria, France, Israel, Mongolia, Tunisia, USSR, Uzbekistan, Tadzhikistan, Ukraine, Russia, Spain, Kirghizia, Transcaucasia, Crimea, Egypt, Pakistan, India, China, Central Asia, Xinjiang, Turkestan, Europe, Mongoia.

**Notes:** Authority: Pallas 1773

### ***Psalmocharias rugipennis* (Walker, 1858)**

#### **Nomenclature:**

*Cicada rugipennis* Walker, 1858

*Sena querula* var. \_\_\_\_\_ Distant, 1906

#### **Materials**

##### **Holotype:**

- a. scientificName: *Psalmocharias rugipennis* (Walker, 1858); continent: Asia; country: India; locality: Hindostan; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009574; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Psalmocharias rugipennis* (Walker, 1858); continent: Asia; country: Pakistan; locality: Quetta, Baluchistan; verbatimElevation: 5500 ft; eventDate: 23/06/1930; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009575; recordedBy: W.H. Evans; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Hindustan; India; Pakistan; Baluchistan; Afghanistan; Northwestern India. [Sanborn, 2014] Pakistan, India, Afghanistan.

**Notes:** Authority: Walker 1858a; Species description states type specimen is male but the labelled type specimen in NHMUK is female. This observation agrees with Distant (1892a) which illustrates type specimen as a female.

***Purana campanula* Pringle, 1955****Nomenclature:**

*Purana campanula* Pringle, 1955

**Material****Holotype:**

- a. scientificName: *Purana campanula* Pringle, 1955; continent: Asia; country: Sri Lanka; locality: Kanneliya (S. P.); eventDate: 20/05/1953; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009415; recordedBy: J.W.S. Pringle; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Duffles and van der Laan, 1985] Ceylon.

**Notes:** Authority: Pringle 1955

***Purana guttularis* (Walker, 1858)****Nomenclature:**

*Cicada guttularis* Walker, 1858

**Material****Holotype:**

- a. scientificName: *Purana guttularis* (Walker, 1858); continent: Asia; country: Myanmar; locality: Burma; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009414; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; Eastern India; Philippine Islands; India; Nias; Borneo; Sarawak; Java; Assam; Tenasserim; Siam; Pahang; Malay Peninsula; Sumatra; Kwangtung. [Sanborn, 2014] Malaysia, Peninsular Malaysia, China, Burma, Philippines, Nias Island, Borneo, Sarawak, Java, Singapore, Sabah, Guangdong, Kalimantan, India, Vietnam, Siam, Thailand, Indonesia, Philippine Republic, Myanmar, Brunei, Mindanao, Sumatra.

**Notes:** Authority: Walker 1858b; Metcalf (1963) states "Eastern India, India, Assam" in reference to *India orientalis*. Lee (2010b) states that the type locality is Myanmar and that records from China, Philippines, Indonesia, Malaysia, and Thailand may have been based on mididentifications of closely allied species. Subsequent references to India in Sanborn (2014) are likely to be due to previous inaccurate literature localities.

### ***Purana morrissi* (Distant, 1892)**

#### **Nomenclature:**

*Leptopsaltria morrissi* Distant, 1892

#### **Material**

#### **Holotype:**

- a. scientificName: *Purana morrissi* (Distant, 1892); continent: Asia; country: India; locality: Shivarai Hills, Madras Province; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009417; recordedBy: A.W. Morris; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Madras. [Sanborn, 2014] India.

**Notes:** Authority: Distant 1892c

### ***Purana tigrina* (Walker, 1850)**

#### **Nomenclature:**

*Dundubia tigrina* Walker, 1850

*Purana tigrina* mjöbergi Moulton, 1923

#### **Material**

#### **Holotype:**

- a. scientificName: *Purana tigrina* (Walker, 1850); continent: Asia; country: India; locality: Malabar; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009413; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Malabar; Trivandrum (Travancore). [Metcalf, 1963] Madras; Assam (?); India; Malay Peninsula; Travancore; Tibet; Malaya; Borneo; Malabar; Malacca; Singapore Island; Perak; Johore; Penang; Philippine Islands; Sumatra; Burma. [Sanborn, 2014] Pakistan, India, Tibet, Peninsular Malaysia, Malaysia, Borneo, Sarawak, Malabar, India, Tibet, Philippines, Singapore, Sabah, Java, Madras, Sumatra, Burma, Thailand, Sundaland, Nias Island, Malayan Peninsula, Bunguran Island, Kalimantan Timur, Bunguran Island, Sundaland, Thailand, Tibet, Burma, Indonesia, Philippine Republic, Gogala Thailand, Malabar, Bangladesh.

**Notes:** Authority: Walker 1850

## *Pycna himalayana* (Naruse, 1977)

### Nomenclature:

*Suisha himalayana* Naruse, 1977

### Material

#### Holotype:

- a. scientificName: *Pycna himalayana* (Naruse, 1977); continent: Asia; country: Nepal; locality: Ghora Tobela, Langtang Valley, Bagmati Zone; verbatimElevation: 3000 m; eventDate: 23/09/1975; individualCount: 1; sex: male; institutionCode: EIHU; basisOfRecord: PreservedSpecimen

**Distribution:** [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] Nepal.

**Notes:** Authority: Naruse in Naruse and Takagi 1977; An additional 1 male paratype (EIHU) was designated in the species description.

## *Pycna minor* Liu, 1940

### Nomenclature:

*Pycna minor* Liu, 1940

### Materials

#### Holotype:

- a. scientificName: *Pycna minor* Liu, 1940; continent: Asia; country: India; locality: Koolloo; individualCount: 1; sex: male; recordedBy: Carleton; institutionCode: MCZ; basisOfRecord: PreservedSpecimen

#### Paratype:

- a. scientificName: *Pycna minor* Liu, 1940; continent: Asia; country: India; locality: Koolloo; individualCount: 1; sex: male; recordedBy: Carleton; institutionCode: MCZ; basisOfRecord: PreservedSpecimen
- b. scientificName: *Pycna minor* Liu, 1940; continent: Asia; country: India; locality: Koolloo; individualCount: 3; sex: female; recordedBy: Carleton; institutionCode: MCZ; basisOfRecord: PreservedSpecimen

**Distribution:** [Liu, 1940] India: Koolloo. [Sanborn, 2014] India.

**Notes:** Authority: Liu 1940

## *Pycna montana* Hayashi, 1978

### Nomenclature:

*Pycna montana* Hayashi, 1978

## Material

### Holotype:

- a. scientificName: *Pycna montana* Hayashi, 1978; continent: Asia; country: Nepal; locality: Kambachen [to] Lhonak; verbatimElevation: 3900 - 4550 m; eventDate: 16/07/1963; individualCount: 1; sex: male; recordedBy: T. Fujioka; institutionCode: NSMT; basisOfRecord: PreservedSpecimen

**Distribution:** [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] Nepal.

**Notes:** Authority: Hayashi 1978; An additional 1 male paratype (private collection of Dr T. Fujikoa) was designated in the species description.

## *Pycna repanda* subsp. *repanda* (Linneaus, 1758)

### Nomenclature:

*Cicada repanda* Linnaeus, 1758

*Platypleura phalaenoides* Walker, 1850

*Platypleura interna* Walker, 1852

*Platyplerua congregata* Butler, 1874

## Material

### Holotype:

- a. scientificName: *Pycna repanda repanda* (Linnaeus, 1758); continent: Asia; locality: Indiis; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92; Distant, 1906] Continental India: Kashmeer Valley; North Bengal; Sikkim; Darjeeling; Himalaya; Assam (Margherita and Naga Hills); Khasi Hills; Sylhet; Seebsagar. Burma: Kakhien Hills. [Metcalf, 1963] India; Uttar Pradesh; India (?); Bengal; Northern India; Assam; Java (?); Ceylon; Sylhet; Northern Bengal; Burma; Japan; Europe; Asia; Kashmir; Sikkim; Kyushu; Ryukyu Islands; Formosa; China; Malaya; Indonesia; Oriental Region; Southern Japan; Szechwan; Japan (?); Sikang; Punjab; Honshu. [Duffels and van der Laan, 1985] Himalaya; China; Nepal; Bhutan. [Sanborn, 2014] Cashmere, China, India, Pakistan, Nepal, Hunan, Shaanxi, Jiangxi, Zhejiang, Taiwan, Guizhou, Sichuan, Yunnan, Xizang, Kashmir, Sikkim, Burma, Bhutan, Tibet, Sri Lanka, Japan, Indonesia.

**Notes:** Authority: Linnaeus 1758

## *Pycna verna* Hayashi, 1982

### Nomenclature:

*Pycna verna* Hayashi, 1982

## Materials

### Holotype:

- a. scientificName: *Pycna verna* Hayashi, 1982; continent: Asia; country: India; locality: Darjeeling, Bengal; verbatimElevation: 1400 m; eventDate: 21/04/1938; individualCount: 1; sex: male; recordedBy: T.C. Maa; institutionCode: BPBM; basisOfRecord: PreservedSpecimen

### Paratype:

- a. scientificName: *Pycna verna* Hayashi, 1982; continent: Asia; country: India; locality: Darjeeling, Bengal; verbatimElevation: 1400 m; eventDate: 21/04/1938; individualCount: 2; sex: male; recordedBy: T.C. Maa; institutionCode: BPBM; basisOfRecord: PreservedSpecimen

**Distribution:** [Hayashi, 1982] India: Darjeeling. Nepal: Kathmandu Val, Gokarna Forest (1370 m). [Sanborn, 2014] India, Nepal.

**Notes:** Authority: Hayashi 1982; An additional 7 male paratypes (2 BPBM; 5 OMNH) were designated in the species description, however only the material from India is included in this paper.

## *Quintilia pomponia* Distant, 1912

### Nomenclature:

*Quintilia pomponia* Distant, 1912

### Material

### Holotype:

- a. scientificName: *Quintilia pomponia* Distant, 1912; continent: Asia; country: India; locality: near Dehra Dun, N. India; eventDate: ??/06/1909; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009610; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] United Provinces; Northern India.

**Notes:** Authority: Distant 1912c

## *Rustia dentivitta* (Walker, 1862)

### Nomenclature:

*Cicada dentivitta* Walker, 1862

*Rustia pedunculata* Stål, 1866

*Tibicen amussitatus* Distant, 1888

## Materials

### Holotype:

- a. scientificName: *Rustia dentivitta* (Walker, 1862); continent: Asia; country: Thailand; locality: (Tha) Chaut; sex: male; catalogNumber: BMNH(E) 1009557; recordedBy: Mouhot; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Rustia dentivitta* (Walker, 1862); continent: Asia; country: India; locality: Margherita, Upper Assam; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009558; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Margherita (Assam). Burma: Rangoon. [Metcalf, 1963] Siam; Cambodia; India; Burma; Mysore; Assam; Himalayas; Indochina; Uttar Pradesh. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] Thailand, Cambodia, Indonesia, Borneo, Philippine Republic, Korea, Siam, Cambodia, Assam, Burma, India, Himalaya, Indochina, Nepal, Vietnam, Myanmar.

**Notes:** Authority: Walker 1862

## *Rustia tigrina* (Distant, 1888)

### Nomenclature:

*Tibicen tigrina* Distant, 1888

### Material

### Holotype:

- a. scientificName: *Rustia tigrina* (Distant, 1888); continent: Asia; country: India; locality: Kulluur; eventDate: ??/05/1888; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009559; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Kulluur. [Metcalf, 1963] Burma; India.

**Notes:** Authority: Distant 1888d

## *Scieroptera crocea* subsp. *crocea* (Guérin-Méneville, 1838)

### Nomenclature:

*Cicada crocea* Guérin-Méneville, 1838

### Material

### Holotype:

- a. scientificName: *Scieroptera crocea crocea* (Guérin-Méneville, 1838); continent: Asia; country: India; locality: Bengal; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Bombay. [Metcalf, 1963] Bengal; Asia; Malacca; India; Java; Borneo; Tonkin; Bombay; Sumatra; Malay Archipelago; Sarawak; Malaya; Sikkim; Assam; Burma; Tenasserim; Malay Peninsula. [Sanborn, 2014] China, Hainan, Guangxi, India, Indonesia, Kalimantan, North Vietnam, Malaysia, Java, Sumatra, Myanmar, Vietnam.

**Notes:** Authority: Guérin-Méneville 1838

### ***Scieroptera fumigata* (Stål, 1854)**

#### **Nomenclature:**

*Huechys fumigata* Stål, 1854

#### **Materials**

##### ***Holotype:***

- a. scientificName: *Scieroptera fumigata* (Stål, 1854); continent: Asia; locality: India Orientalis; institutionCode: NHRS; basisOfRecord: PreservedSpecimen

##### ***Other material:***

- a. scientificName: *Scieroptera fumigata* (Stål, 1854); continent: Asia; country: India; locality: Margherita, Assam; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009588; recordedBy: William Doherty; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: "Ind. Orient."; North Bengal; Margherita (Assam). [Metcalf, 1963] Eastern India; Hindustan; India; Bengal; Assam; East Indies; Northern Bengal.

**Notes:** Authority: Stål 1854

### ***Scieroptera montana* Schmidt, 1918**

#### **Nomenclature:**

*Scieroptera montana* Schmidt, 1918

#### **Material**

##### ***Holotype:***

- a. scientificName: *Scieroptera montana* Schmidt, 1918; continent: Asia; country: India; locality: Darjeeling, Juni; eventDate: ??/06/??; individualCount: 1; sex: male; recordedBy: Fruhstorfer; institutionCode: MZPW; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal.

**Notes:** Authority: Schmidt 1918

## ***Scieroptera splendidula* subsp. *cuprea* (Walker, 1870)**

### **Nomenclature:**

*Huechys cuprea* Walker, 1870

*Scieroptera splendidula* var. a Distant, 1982

### **Material**

#### **Holotype:**

- a. scientificName: *Scieroptera splendidula cuprea* (Walker, 1870); continent: Asia; country: Indonesia; locality: Tondano (on Celebes); sex: female; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Sikkim; Khasi Hills. Burma: Momeit. [Metcalf, 1963] Celebes; Sikkim; Assam; Burma; Borneo; Siam; Sarawak; Hindustan; Java; Malaya; India; Bombay; Tenasserim; Philippine Islands; Formosa; Sunda Islands; China. [Sanborn, 2014] Thailand, India, Southeast Asia, Indonesia, China, Japan, Philippine Republic, Taiwan, Celebes, Siam.

**Notes:** Authority: Walker 1870

## ***Scieroptera splendidula* subsp. *splendidula* (Fabricius, 1775)**

### **Nomenclature:**

*Tettigonia splendidula* Fabricius, 1775

*Scieroptera splendidula vittata* Kato, 1940

### **Materials**

#### **Holotype:**

- a. scientificName: *Scieroptera splendidula splendidula* (Fabricius, 1775); continent: Asia; country: China; recordedBy: Dru Drury; basisOfRecord: PreservedSpecimen

#### **Other material:**

- a. scientificName: *Scieroptera splendidula splendidula* (Fabricius, 1775); continent: Asia; country: India; locality: Assam; eventDate: ??/?/1906; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009589; recordedBy: W.F. Badgley; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Margherita (Assam). Burma: Tenasserim. [Metcalf, 1963] China; Germany; Asia; East Indies; India; Java; Assam; Borneo; Hindustan; Tenasserim; Northern India; Silhet; Nias; Celebes; Laos; Indochina; Sikkim; Malay Region; Oriental Region; Formosa; Sunda Islands; Kwangsi; Northern Bengal; Sumatra; Hainan; Kwangtung; Fukien; Bihar; Uttar Pradesh; Burma; Philippine Islands. [Duffels and van der Laan, 1985] Nepal; China. [Sanborn, 2014] China, Kwangsi, Tien-mushan, Sikkim, Assam, Margherita, Khasi, Hills Burma, Momeit, Tenasserim, Java, Borneo, Celebes, Formosa, Hunan, Peninsular Malaysia, Malaysia, Sumatra, India, Java, Borneo, Sarawak, Langkawi Island, Zhejiang, Fujian, Taiwan, Guangdong,

Hunan, Guizhou, Guangxi, Sichuan, Indonesia, Kalimantan, Celebes, Burma, Sabah, Manipur, Meghalaya, Vietnam, Thailand, Tenasserim, Kwangsi, Burma, Hainan, Kwangtung, Nepal, Philippines, Laos, Myanmar.

**Notes:** Authority: Fabricius 1775

### *Scieroptera splendidula* var. *c* Distant, 1892

**Nomenclature:**

*Scieroptera splendidula* var. *c* Distant, 1892

**Material**

**Holotype:**

- a. scientificName: *Scieroptera splendidula* var. *c* Distant, 1892; continent: Asia; country: India; locality: North India; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Northern India; India.

**Notes:** Authority: Distant 1892c

### *Scieroptera splendidula* var. *d* Fabricius, 1775

**Nomenclature:**

*Scieroptera splendidula* var. *d* Distant, 1892

**Material**

**Holotype:**

- a. scientificName: *Scieroptera splendidula* var. *d* Distant, 1892; continent: Asia; country: Myanmar; locality: Momeit [Mong Mit]; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Burma: Momeit. [Metcalf, 1963] Burma; India.

**Notes:** Authority: Fabricius 1775; Metcalf (1963) states India in references to Kato (1932) who listed the distribution as "India" when referring to Burma as it was considered part of "British India" at the time. Currently there are no known records from modern day India.

### *Subtibicina tigris* Lee, 2012

**Nomenclature:**

*Subtibicina tigris* Lee, 2012

## Material

### Holotype:

- a. scientificName: *Subtibicina tigris* Lee, 2012; continent: Asia; country: India; locality: Phedong; eventDate: 18/04/1883; individualCount: 1; sex: male; recordedBy: R. Oberthur; institutionCode: IRSNB; basisOfRecord: PreservedSpecimen

**Distribution:** [Lee, 2012] India.

**Notes:** Authority: Lee 2012a

## *Sulphogaeana sulphurea* (Westwood, 1839)

### Nomenclature:

*Cicada sulphurea* Westwood, 1839

*Cicada pulchella* Westwood, 1942

## Materials

### Holotype:

- a. scientificName: *Sulphogaeana sulphurea* (Westwood, 1839); continent: Asia; country: India; institutionCode: OUMNH; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Sulphogaeana sulphurea* (Westwood, 1839); continent: Asia; country: Myanmar; locality: Nam Tamai, Burma; verbatimElevation: 4500 ft; eventDate: 7/05/1926; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009592; recordedBy: F. Kingdon Ward; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Sikkim; Nepal; Darjeeling. [Metcalf, 1963] India; Himalaya; Asia; Nepal; Northern India; Sikkim; Mysore; Bengal; Assam; Uttar Pradesh. [Duffels and van der Laan, 1985] Nepal; Bhutan. [Sanborn, 2014] India, China, Yunnan, Sikkim, Bangladesh, Nepal.

**Notes:** Authority: Westwood 1839

## *Talainga binghami* Distant, 1890

### Nomenclature:

*Talainga binghami* Distant, 1890

## Materials

### Syntype:

- a. scientificName: *Talainga binghami* Distant, 1890; continent: Asia; country: Myanmar; locality: Karen Hills, Burma; eventDate: ??/03/1887; sex: female; catalogNumber: BMNH (E) 1009618; recordedBy: C.T. Bingham; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Other material:**

- a. scientificName: *Talainga binghami* Distant, 1890; continent: Asia; country: Vietnam; locality: Chapa., Tonkin; eventDate: ??/05/06/1916; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009600; occurrenceRemarks: Specimen not part of type series, see taxon notes.; recordedBy: R.V. de Salvaza; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; Indochina; Tonkin; China. [Sanborn, 2014] China, Vietnam, Jiangxi, Yunnan, Burma, Thailand, Indochina, Tonkin, Myanmar.

**Notes:** Authority: Distant 1890b; In the NHMUK there is a male specimen bearing a type label, however the type series is comprised of multiple females from "Burma, Kr. Hills (Bingham)".

***Talainga japrona* Ollenbach, 1929****Nomenclature:**

*Talainga japrona* Ollenbach, 1929

**Material****Holotype:**

- a. scientificName: *Talainga japrona* Ollenbach, 1929; continent: Asia; country: India; locality: Jakhama, Japro, Naga Hills; verbatimElevation: 5500 ft; individualCount: 1; sex: female; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; Burma; India.

**Notes:** Authority: Ollenbach 1929

***Talainga naga* Ollenbach, 1929****Nomenclature:**

*Talainga naga* Ollenbach, 1929

**Materials****Syntype:**

- a. scientificName: *Talainga naga* Ollenbach, 1929; continent: Asia; country: India; locality: Kohima, Naga Hills (on the Manipur Road); verbatimElevation: 5000 ft; eventDate: ??/04/1924; sex: male; institutionCode: IFRI; basisOfRecord: PreservedSpecimen
- b. scientificName: *Talainga naga* Ollenbach, 1929; continent: Asia; country: India; locality: Kohima, Naga Hills (on the Manipur Road); verbatimElevation: 5000 ft; eventDate: ??/04/1924; sex: female; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Assam; Burma; India.

**Notes:** Authority: Ollenbach 1929

***Tanna bhutanensis* Distant, 1912****Nomenclature:**

*Tanna bhutanensis* Distant, 1912

**Material****Holotype:**

- a. scientificName: *Tanna bhutanensis* Distant, 1912; continent: Asia; country: Bhutan; locality: Bhoutan Anglais; eventDate: ??/??/1900; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009434; recordedBy: R. Oberthur; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bhutan; China. [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Distant 1912d

***Tanna minor* Hayashi, 1978****Nomenclature:**

*Tanna minor* Hayashi, 1978

**Materials****Holotype:**

- a. scientificName: *Tanna minor* Hayashi, 1978; continent: Asia; country: Nepal; locality: Dana, C. Nepal; verbatimElevation: 1600 m; eventDate: 5/06/1974; individualCount: 1; sex: male; recordedBy: T. Aoki and S. Yamaguchi; institutionCode: NSMT; basisOfRecord: PreservedSpecimen

**Paratype:**

- a. scientificName: *Tanna minor* Hayashi, 1978; continent: Asia; country: Nepal; locality: Hinku, C. Nepal; verbatimElevation: 2640 m; eventDate: 16/06/1974; individualCount: 1; sex: female; recordedBy: T. Aoki and S. Yamaguchi; institutionCode: NSMT; basisOfRecord: PreservedSpecimen

**Distribution:** [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Hayashi 1978

***Taungia abnormis* Ollenbach, 1929****Nomenclature:**

*Taungia abnormis* Ollenbach, 1929

## Material

### Holotype:

- a. scientificName: *Taungia abnormis* Ollenbach, 1929; continent: Asia; country: Myanmar; locality: Karen Hills, Thandaung; individualCount: 1; sex: female; recordedBy: W.S. Wood; institutionCode: IFRI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Burma; India.

**Notes:** Authority: Ollenbach 1929; Metcalf (1963) listed India in reference Burma being part of "British India". The type locality (Thandaung) is within modern day Myanmar and the species has not yet been recorded from modern day India.

## *Terpnosia abdullah* Distant, 1904

### Nomenclature:

*Terpnosia abdullah* Distant, 1904

## Material

### Holotype:

- a. scientificName: *Terpnosia abdullah* Distant, 1904; continent: Asia; country: Malaysia; locality: Pahang, Malay Peninsula; sex: male; recordedBy: Craddock; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: N.W. India and Sikkim. [Metcalf, 1963] Malay Peninsula; India; Sikkim; Northern India; North-western India; Java (?); Pahang; Java; Malaya; Uttar Pradesh. [Sanborn, 2014] Thailand, Malay, Peninsula, India, Sikkim, Malaysia, Java.

**Notes:** Authority: Distant 1904b

## *Terpnosia clio* (Walker, 1850)

### Nomenclature:

*Dundubia clio* Walker, 1850

## Material

### Syntype:

- a. scientificName: *Terpnosia clio* (Walker, 1850); locality: Locality unknown; sex: male; catalogNumber: BMNH(E) 1009547; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: Sikkim. [Metcalf, 1963] India; Sikkim; Mysore; Burma; Tenasserim; Indochina; Yunnan; Uttar Pradesh; Western Himalayas; China. [Duffels and van der Laan, 1985] Nepal; China. [Sanborn, 2014] China, Yunnan, Himalaya, Sikkim, Burma, Tenasserim, Sikkim, India, Nepal, Southeast Asia, Myanmar.

**Notes:** Authority: Walker 1850

### ***Terpnosia collina* (Distant, 1888)**

#### **Nomenclature:**

*Pomponia collina* Distant, 1888

#### **Material**

#### **Syntype:**

- a. scientificName: *Terpnosia collina* (Distant, 1888); continent: Asia; country: India; locality: North Khasi Hills; sex: male; catalogNumber: BMNH(E) 1009546; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Khasi Hills; Burma: Ruby Mines. [Metcalf, 1963] Assam; India; Burma. [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Distant 1888c

### ***Terpnosia confusa* Distant, 1905**

#### **Nomenclature:**

*Terpnosia confusa* Distant, 1905

#### **Materials**

#### **Syntype:**

- a. scientificName: *Terpnosia confusa* Distant, 1905; continent: Asia; country: India; sex: male; catalogNumber: BMNH(E) 1009540; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Terpnosia confusa* Distant, 1905; continent: Asia; country: India; locality: Sikkim; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1905] India: Sikkim. [Metcalf, 1963] India; Ceylon; Java; Sikkim.

**Notes:** Authority: Distant 1905b

### ***Terpnosia elegans* (Kirby, 1891)**

#### **Nomenclature:**

*Pomponia elegans* Kirby, 1891

#### **Material**

#### **Holotype:**

- a. scientificName: *Terpnosia elegans* (Kirby, 1891); continent: Asia; country: Sri Lanka; locality: Kandapola near Kandy; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009542; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Ceylon.

**Notes:** Authority: Kirby 1891

### ***Terpnosia ganesa* Distant, 1904**

**Nomenclature:**

*Terpnosia ganesa* Distant, 1904

**Material**

**Holotype:**

- a. scientificName: *Terpnosia ganesa* Distant, 1904; continent: Asia; country: India; locality: Masuri [Mussoorie]; eventDate: 15/04/1903; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009537; recordedBy: P.W. Mackinnon; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Mysore; India; Uttar Pradesh. [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Distant 1904b

### ***Terpnosia jenkinsi* Distant, 1912**

**Nomenclature:**

*Terpnosia jenkinsi* Distant, 1912

**Materials**

**Syntype:**

- a. scientificName: *Terpnosia jenkinsi* Distant, 1912; continent: Asia; country: India; locality: Paresnath, W. Bengal; verbatimElevation: 4000 - 4400 ft; eventDate: ??/05/1909; sex: male; catalogNumber: BMNH(E) 1009552; recordedBy: J.T. Jenkins; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Terpnosia jenkinsi* Distant, 1912; continent: Asia; country: India; locality: Paresnath, W. Bengal; verbatimElevation: 4000 - 4400 ft; sex: male; recordedBy: J.T. Jenkins; institutionCode: NZSI; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal.

**Notes:** Authority: Distant 1912d; Multiple specimens (number unknown) used in species description.

### ***Terpnosia lactea* (Distant, 1887)**

**Nomenclature:**

*Leptopsaltria lactea* Distant, 1887

## Material

### Holotype:

- a. scientificName: *Terpnosia lactea* (Distant, 1887); continent: Asia; country: Indonesia; locality: Sumatra; eventDate: ??/02/??; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009402; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Sumatra; Malay Peninsula; Sikkim; Java; Borneo; Malay States; India; Malaya; Perak; Malacca; Singapore Island; Johore; Penang; Indochina; Brunei; Mentawai Islands; Sipora; Borneo (?). [Sanborn, 2014] Malaysia, Borneo, Sabah, Peninsular Malaysia, Sumatra, Brunei, Java, Sarawak, Thailand, Indonesia, Indochina, Philippines, Palawan, Vietnam, Malay Peninsula, Northern India.

**Notes:** Authority: Distant 1887b

## *Terpnosia maculipes* (Walker, 1850)

### Nomenclature:

*Dundubia maculipes* Walker, 1850

## Material

### Holotype:

- a. scientificName: *Terpnosia maculipes* (Walker, 1850); continent: Asia; country: India; locality: N. Bengal; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009536; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal; India; Northern Bengal; Burma; Mysore; Uttar Pradesh. [Sanborn, 2014] India.

**Notes:** Authority: Walker 1850

## *Terpnosia polei* (Henry, 1931)

### Nomenclature:

*Pomponia polei* Henry, 1931

## Materials

### Holotype:

- a. scientificName: *Terpnosia polei* (Henry, 1931); continent: Asia; country: Sri Lanka; locality: Morningside Estate, Rakwana; eventDate: 8/05/1929; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009399; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

### Paratype:

- a. scientificName: *Terpnosia polei* (Henry, 1931); continent: Asia; country: Sri Lanka; locality: Maskeliya; eventDate: ??/05/??; individualCount: 1; sex: female; catalogNumber: BMNH

- (E) 1009400; recordedBy: J. Pole; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Terpnosia polei* (Henry, 1931); continent: Asia; country: Sri Lanka; locality: Morningside Estate, Rakwana; individualCount: 2; sex: male; institutionCode: CNMS; basisOfRecord: PreservedSpecimen
  - c. scientificName: *Terpnosia polei* (Henry, 1931); continent: Asia; country: Sri Lanka; locality: Maskeliya; individualCount: 1; sex: female; recordedBy: J. Pole; institutionCode: CNMS; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Ceylon.

**Notes:** Authority: Henry 1931

### ***Terpnosia ransonneti* (Distant, 1888)**

**Nomenclature:**

*Pomponia ransonneti* Distant, 1888

*Pomponia greeni* Kirby, 1891

### **Material**

**Holotype:**

- a. scientificName: *Terpnosia ransonneti* (Distant, 1888); continent: Asia; country: Sri Lanka; locality: Colombo; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009554; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1906] India: Mussooree. [Metcalf, 1963] Ceylon; Mysore; Indochina; India; Uttar Pradesh. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] Japan, Vietnam, Sri Lanka, India.

**Notes:** Authority: Distant 1888c

### ***Terpnosia ridens* Pringle, 1955**

**Nomenclature:**

*Terpnosia ridens* Pringle, 1955

### **Material**

**Holotype:**

- a. scientificName: *Terpnosia ridens* Pringle, 1955; continent: Asia; country: Sri Lanka; locality: Inginiyagala, E. Province; eventDate: 10/06/1953; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009541; recordedBy: J.W.S. Pringle; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Duffles and van der Laan, 1985] Ceylon.

**Notes:** Authority: Pringle 1955

## ***Terpnosia stipata* (Walker, 1850)**

### **Nomenclature:**

*Dundubia stipata* Walker, 1850

*Dundubia clonica* Walker, 1850

### **Material**

#### **Holotype:**

- a. scientificName: *Terpnosia stipata* (Walker, 1850); continent: Asia; country: Sri Lanka; sex: male; catalogNumber: BMNH(E) 1009544; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Ceylon: Ritagala (2500 ft). [Metcalf, 1963] Ceylon. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] Sri Lanka.

**Notes:** Authority: Walker 1850

## ***Tibeta zenobia* (Distant, 1912)**

### **Nomenclature:**

*Melampsalta zenobia* Distant, 1912

*Melampsalta kulingana* Kato, 1938

### **Materials**

#### **Syntype:**

- a. scientificName: *Tibeta zenobia* (Distant, 1912); continent: Asia; country: Nepal; locality: Gowchar; sex: male; catalogNumber: BMNH(E) 1009615; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Tibeta zenobia* (Distant, 1912); continent: Asia; country: Nepal; locality: Thankote; basisOfRecord: PreservedSpecimen
- c. scientificName: *Tibeta zenobia* (Distant, 1912); continent: Asia; country: Nepal; locality: Nagorkote; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1916] Nepal: Gowchar; Thankote; Nagorkote. [Metcalf, 1963] Nepal. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] China, Jiangxi, Zhejiang, Yunnan, Xizang, Vietnam.

**Notes:** Authority: Distant 1912c

## ***Tibicina casyapae* (Distant, 1888)**

### **Nomenclature:**

*Tibicen casyapae* Distant, 1888

## Material

### Holotype:

- a. scientificName: *Tibicina casyapae* (Distant, 1888); continent: Asia; country: India; locality: Cashmere Valley; verbatimElevation: 6300 ft; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009603; recordedBy: Leech; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Kashmir; India; Northern India; Afghanistan. [Duffels and van der Laan, 1985] Afghanistan; Kashmir. [Sanborn, 2014] Afghanistan, India, Pakistan.

**Notes:** Authority: Distant 1888c; Species description states female but the type specimen in NHMUK is male.

## *Tibicina reticulata* (Distant, 1888)

### Nomenclature:

*Tibicen reticulatus* Distant, 1888

## Material

### Holotype:

- a. scientificName: *Tibicina reticulata* (Distant, 1888); continent: Asia; country: Pakistan; locality: Gilgit; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009601; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Kashmir; India; Punjab; Oriental Regions; Uttar Pradesh. [Sanborn, 2014] Pakistan, India.

**Notes:** Authority: Distant 1888c; Species description describes the type specimen as a female, however it is male (Distant 1892a; Pl. XIV, Figs. 21, 21a-b).

## *Tosena albata* Distant, 1878

### Nomenclature:

*Tosena* var. *albata* Distant, 1878

*Tosena melanoptera* var. c Distant, 1906

## Material

### Holotype:

- a. scientificName: *Tosena albata* Distant, 1878; continent: Asia; country: India; locality: N.W. Himalaya; individualCount: 1; sex: male; catalogNumber: BMNH(E) 1009377; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Himalaya; Northern India; Northwestern Himalayas; India. [Sanborn, 2014] Thailand, Nepal, India, Himalayas, Vietnam, Burma.

**Notes:** Authority: Distant 1878a

### ***Tosena dives* (Westwood, 1842)**

#### **Nomenclature:**

*Cicada dives* Westwood, 1842

*Huechys transversa* Walker, 1858

#### **Materials**

##### ***Holotype:***

- a. scientificName: *Tosena dives* (Westwood, 1842); continent: Asia; country: Bangladesh; locality: Sylhet, East Indies; institutionCode: OUMNH; basisOfRecord: PreservedSpecimen

##### ***Other material:***

- a. scientificName: *Tosena dives* (Westwood, 1842); locality: Locality unknown; individualCount: 1; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Sikkim; Darjeeling; Sylhet. [Metcalf, 1963] Sylhet; East Indies; Himalayas; India; Hindustan; Sikkim; Bengal; Northern Bengal; Assam. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] Bhutan.

**Notes:** Authority: Westwood 1842

### ***Tosena mearesiana* (Westwood, 1842)**

#### **Nomenclature:**

*Cicada mearesiana* Westwood, 1842

#### **Material**

##### ***Holotype:***

- a. scientificName: *Tosena mearesiana* (Westwood, 1842); continent: Asia; country: India; locality: Himalayas; recordedBy: D. Meares; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: Himalaya; Sikkim. [Metcalf, 1963] Himalayas; Sylhet; India; Northern India; Sikkim; Bengal; Malay Archipelago (?). [Duffels and van der Laan, 1985] Nepal.

**Notes:** Authority: Westwood 1842

## ***Tosena melanoptera* (White, 1846)**

### **Nomenclature:**

*Cicada (Tosena) melanoptera* White, 1846

*Tosena fasciata* Moulton, 1923 (nec Fabricius, 1787)

*Tosena melanopteryx* Kirkaldy, 1909

*Tosena fasciata* var. d Distant, 1889

### **Materials**

#### **Syntype:**

- a. scientificName: *Tosena melanoptera* (White, 1846); continent: Asia; country: India; locality: N. India; individualCount: 1; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen
- b. scientificName: *Tosena melanoptera* (White, 1846); continent: Asia; country: Bangladesh; locality: Silhet; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] India: N.W. Himalaya; Sikkim; Darjeeling; N. Khasi Hills; Seebsagar; Sylhet (Bangladesh). Burma: Bhamo. [Metcalf, 1963] Assam; Northern India; Sylhet; Sibsagar; Sikkim; India; Burma; Tonkin; Bengal; Indochina; Himalayas; Upper Burma; Northwestern Himalayas. [Sanborn, 2014] China, Guangxi, Xizang, India, Sikkim, Burma, Bangladesh, Himalaya, Thailand, Vietnam, Indochina, Nepal, Laos, Myanmar.

**Notes:** Authority: White 1846

## ***Zaphsa princeps* Lee & Emery, 2014**

### **Nomenclature:**

*Zaphsa princeps* Lee & Emery, 2014

### **Materials**

#### **Holotype:**

- a. scientificName: *Zaphsa princeps* Lee & Emery, 2014; continent: Asia; country: India; locality: Javadu Hills, Kavalore; verbatimElevation: 600 m; eventDate: ??/06/2006; individualCount: 1; sex: male; catalogNumber: MNHN (EH) 16437; institutionCode: MNHN; basisOfRecord: PreservedSpecimen

#### **Paratype:**

- a. scientificName: *Zaphsa princeps* Lee & Emery, 2014; continent: Asia; country: India; locality: Javadu Hills, Kavalore; verbatimElevation: 600 m; eventDate: ??/06/2006; individualCount: 2; sex: female; institutionCode: AMS; basisOfRecord: PreservedSpecimen
- b. scientificName: *Zaphsa princeps* Lee & Emery, 2014; continent: Asia; country: India; locality: Javadu Hills, Vellore Kavalore; verbatimElevation: 600 m; eventDate: ??/06/2006; individualCount: 3; sex: male; institutionCode: AMS; basisOfRecord: PreservedSpecimen

**Distribution:** [Lee and Emery, 2014] India.

**Notes:** Authority: Lee and Emery 2014b

## Checklist 2 - Species removed from the fauna of India, Bangladesh, Bhutan, Myanmar, Nepal and Sri Lanka

### *Abricta brunnea* (Fabricius, 1798)

#### Nomenclature:

*Tettigonia brunnea* Fabricius, 1798

#### Material

#### Holotype:

- a. scientificName: *Abricta brunnea* (Fabricius, 1798); continent: Africa; country: Mauritius; locality: Isle de France; recordedBy: Dom. Daldorff; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Mauritius; Italian Somaliland; Bengal. [Sanborn, 2014] Mauritius, Reunion Island, Réunion Island.

**Notes:** Authority: Fabricius 1798; Not from India: the record of "Bengal" stems from the incorrect synonymy with *Cicada maculicollis* Guérin-Méneville 1838 by Stål (1866b).

### *Abricta pusilla* (Fabricius, 1803)

#### Nomenclature:

*Tettigonia pusilla* Fabricius, 1803

#### Material

#### Holotype:

- a. scientificName: *Abricta pusilla* (Fabricius, 1803); continent: Asia; country: Indonesia; locality: Amboina; individualCount: 1; sex: female; recordedBy: Dom. Billardiere; institutionCode: ZMUC; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Amboina; India; Molucca Islands.

**Notes:** Authority: Fabricius 1803; Not from India: Incorrectly listed from "Amboina, India" by Atkinson (1886), which is in Indonesia.

### *Birrima varians* (Germar, 1834)

#### Nomenclature:

*Cicada varians* Germar, 1834

## Material

### Holotype:

- a. scientificName: *Birrima varians* (Germar, 1834); continent: Oceania; locality: Australasia; recordedBy: Hope; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Australia; Assam; Silhet; Queensland. [Sanborn, 2014] Queensland, Australia, New South Wales, Australia.

**Notes:** Authority: Germar 1834; Not from India: Listed from Silhet (Assam) by Walker (1852) and then Atkinson (1884) in error when examining misidentified specimens of *Dundubia vaginata* (Metcalf 1963). *Birrima varians* is found in Australia.

## *Chremistica bimaculata* (Olivier, 1790)

### Nomenclature:

*Cicada bimaculata* Olivier, 1790

*Cicada atrovirens* Guérin-Méneville, 1838

## Material

### Holotype:

- a. scientificName: *Chremistica bimaculata* (Olivier, 1790); continent: Asia; country: Indonesia; locality: Java; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Java; China; Ceylon; Philippine Islands; Cambodia; Tonkin; Malay States; Malaya; Indochina; Borneo. [Sanborn, 2014] Borneo, Sabah, Java, Cambodia, Tonkin, Philippines, Sarawak, Peninsular Malaysia, Cambodia, Boulard, Malaysia, Sundaland, Thailand.

**Notes:** Authority: Olivier 1790; Not from Sri Lanka: An error resulting from *Cicada viridis* (Fabricius, 1803) being synonymised in error with, and thereby linking the distributions of *Cicada atrovirens* Guérin-Méneville, 1838 and *Chremistica mixta* (Kirby, 1891) by Distant (1892a). Of these only *Chremistica mixta* (Kirby, 1891) is from Sri Lanka.

## *Chremistica ochracea* subsp. *ochracea* (Walker, 1850)

### Nomenclature:

*Fidicina ochracea* Walker, 1850

*Cicada ferrifera* Walker, 1850

*Dundubia fasciceps* Stål, 1854

## Material

### Holotype:

- a. scientificName: *Chremistica ochracea ochracea* (Walker, 1850); continent: Asia; locality: Locality unknown; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] China; Formosa; Japan; Macao; Kwangtung; India; Malaya. [Sanborn, 2014] China, Fujian, Taiwan, Guangdong, Guangxi, India, Macao, Hong Kong, Japan, Malaysia, Thailand.

**Notes:** Authority: Walker 1850; Unlikely to be from India: Metcalf (1963) stated India in reference to Kato (1927) who listed a distribution without referencing specimens and this is likely an error. Subsequent "India" records in Sanborn (2014), by Boulard (2001a) and Sanborn et al. (2007) are likely a result of the Metcalf (1963) inclusion.

## *Chremistica tridentigera* (Breddin, 1905)

### Nomenclature:

*Cicada tridentigera* Breddin, 1905

## Material

### Lectotype:

- a. scientificName: *Chremistica tridentigera* (Breddin, 1905); continent: Asia; country: Malaysia; locality: Banguey; individualCount: 1; sex: male; institutionCode: MZH; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Banguey [Sanborn, 2014] Kalimantan, Brunei, Southeast Asia, Malaysian Archipelago, Philippines, India, Sri Lanka, Borneo, Sabah, Sarawak, Banguey Island, Sumatra, Sundaland.

**Notes:** Authority: Breddin 1905; Additional paralectotypes designated in the species description: 1 male, 3 female (ZMH); 7 male (NHMUK). Not from India: Sanborn (2014) states India in reference to Bregman (1985), however India is listed for the *Chremistica tridentigera* group as a whole in reference to *Chremistica seminiger* (Distant, 1909), only known from southern India, and not *Chremistica tridentigera* sensu stricto Breddin (1905), which is known from Banguey island and Kalimantan, Borneo.

## *Chremistica viridis* (Fabricius, 1803)

### Nomenclature:

*Tettigonia viridis* Fabricius, 1803

## Material

### Holotype:

- a. scientificName: *Chremistica viridis* (Fabricius, 1803); continent: South America; locality: Locality unknown; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Kedah; South America [error]; America [error]; Java; Philippine Islands; Sumatra; Surinam; Ceylon; Indochina; Siam; Malay Peninsula. [Sanborn, 2014] Vietnam, Southeast Asia, Thailand, Philippine Republic, Indonesia, Malaysia, Indochina, Sri Lanka.

**Notes:** Authority: Fabricius 1803; Type locality listed as "America meridionali" [South America], however Metcalf (1963) states this was an error. Not from Sri Lanka: Errors synonymizing *Chremistica viridis* (Fabricius, 1803), with *Cicada atrovirens* Guérin-Méneville, 1838 and *Chremistica mixta* (Kirby, 1891) by Distant (1892a), of which only *Chremistica mixta* (Kirby, 1891) is from Sri Lanka.

## ***Cicada complex* Walker, 1850**

### **Nomenclature:**

*Cicada complex* Walker, 1850

### **Material**

#### *Holotype:*

- a. scientificName: *Cicada complex* Walker, 1850; locality: Locality unknown; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Locality Unknown; India.

**Notes:** Authority: Walker 1850; Not from India: Metcalf (1963) incorrectly stated India in reference to Dohrn (1859) who listed it with an unknown locality. The species was described by Walker (1850) without a known locality. The type specimen is not in the NHMUK and this species has not been mentioned in literature since Distant (1906a). This species was not included in the Fauna of British India by Distant (1906c).

## ***Cicada orni* Linnaeus, 1758**

### **Nomenclature:**

*Cicada orni* Linnaeus, 1758

*Cicada pallida* var. a Petagna, 1787

*Tettigonia punctata* Fabricius, 1798

*Tettigonia orni* var. b Billberg, 1820 (nom. nud.)

*Macroptopus oleae* Costa, 1877

*Cicada orni lesbosiensis* Boulard, 2000

### **Material**

#### *Holotype:*

- a. scientificName: *Cicada orni* Linnaeus, 1758; continent: Europe; country: Italy; locality: Italia; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Europe. [Sanborn, 2014] France, Romania, Spain, Italy, Europe, Iran, Turkey, Albania, Austria, Czechoslovakia, Egypt, Germany, Greece, Hungary, Israel, Jordan, Lebanon, Switzerland, Spain, Balearic Island, Tunisia, USSR, Yugoslavia, Albania, Cyprus, Czechoslovakia, Crimea, Bulgaria, Turkmenistan, North Africa, Portugal, Armenia, Azerbaijan, Georgia, Turkmenia, Croatia, Mediterranean, Lesbos Island, Macedonia, Corsica, Caucasus, Slovenia, Istria, Dalmatia, Iberian Peninsula, Ukraine, Middle East, Western Asia, Southern Europe.

**Notes:** Authority: Linnaeus 1758; Not from India: While this species has a wide distribution across Europe and the Mediterranean region, the isolated records from "India" (Goeze 1778) and "Africa", are assumed to be errors until proven otherwise.

### *Cryptotympana acuta* (Signoret, 1849)

#### Nomenclature:

*Cicada acuta* Signoret, 1849

*Cicada vicina* Signoret, 1849

*Fidicina nivifera* Walker, 1850

*Fidicina bicolor* Walker, 1852

#### Materials

##### Holotype:

- a. scientificName: *Cryptotympana acuta* (Signoret, 1849); continent: Asia; country: Indonesia; locality: Java; sex: male; recordedBy: Patrie; basisOfRecord: PreservedSpecimen

##### Other material:

- a. scientificName: *Cryptotympana acuta* (Signoret, 1849); continent: Asia; country: Indonesia; locality: Soekapoerakolot; eventDate: ??/03-05/1899; individualCount: 1; sex: male; recordedBy: Z.O. Preanger R.; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Distant, 1889/92] Continental India: "Bhutan Duars ". [Metcalf, 1963] Java; Assam; East Bengal; China; Philippine Islands; Timor; India; Sumatra; Borneo; Hong Kong Island; Lombok; Bhutan; Malay States; Palawan; Malaya; Bengal; Sulu Islands; Moluccas; Amboina; Sumbawa; British India; Kwangtung; North Borneo (?); India (?); Sunda Islands; Negros. [Sanborn, 2014] China, Guangzhou, Philippines, Kalimantan, Timor, Indonesia, Malaysia, Bhutan, India, Banda Islands, Java, Bali, Malay Peninsula, Lesser Sunda Islands, Canton, Bhutan, Lombok, Timor.

**Notes:** Authority: Signoret 1849; Not from India: Hayashi (1987a) states this species is restricted to Java and Bali. Signoret (1849) [translated] states: "The Museum has a copy with the label of Montevideo, but I think there is a mistake".

***Cryptotympana atrata* (Fabricius, 1775)****Nomenclature:**

*Tettigonia atrata* Fabricius, 1775

*Tettigonia pustulata* Fabricius, 1787

*Cicada nigra* Olivier, 1790

*Fidicina bubo* Walker, 1850

*Cryptotympana sinensis* Distant, 1887

*Cryptotympana dubia* Haupt, 1917

*Cryptotympana coreanus* Kato, 1925

*Cryptotympana santoshonis* Matsumura, 1927

*Cryptotympana wenchewensis* Ouchi, 1938

*Cryptotympma pustulata castanea* Liu, 1940

*Cryptotympana pustulata fukienensis* Liu, 1940

**Material****Holotype:**

- a. scientificName: *Cryptotympana atrata* (Fabricius, 1775); continent: Asia; country: China; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] China; South America [error]; Java; Hupeh; Hong Kong Island; Philippine Islands; India; Japan; Shantung; Australia; Malay Archipelago; Australia (?); Northern China; Java (?); Formosa; Hopeh; Oriental Region; Kwangtung; Malaya; Tonkin (?); Annam (?); Kiangs; Chekiang; Hainan Island; Jehol; Manchoukuo; Southern China; Honan; Eastern China; Anhwel; Fukien; Shansi; Eastern Asia. [Sanborn, 2014] Korea, China, Tsingtau, Peiping, Lushan, Canton, Hongkong, Soochow, Hangchow, Malaysia, Australia, Formosa, Japan, Santosho, Shantung, Taiwan, Indo-China, Hunan, Macao, Hong Kong, Guangdong, Hebei, Zhejiang, Yunnan, Liaoning, Inner Mongolia, Shaanxi, Shandong, Shatosho, Anhui, Hebei, Henan, Jiangsu, Jiangxi, Zhejiang, Fujian, Hainan, Guizhou, Guangxi, Sichuan, Laos, Vietnam, Philippines, Shandong, Zhejiang, Jiangsu, Southeast Asia, Thailand.

**Notes:** Authority: Fabricius 1775; Not from India: Atkinson (1886) stated "but likely found in India" but no records have been made to specimens from India. Metcalf (1963) also report *Cryptotympma bubo* (Walker, 1850), a junior synonym of *C. atrata*, as from India according to Atkinson (1886) but this was a typo by Metcalf.

## ***Cryptotympana facialis* (Walker, 1858)**

### **Nomenclature:**

*Cicada facialis* Walker, 1858

*Cryptotympana facialis formosana* Kato, 1925

*Cryptotympana japonensis* Kato, 1925

*Cryptotympana japonensis riukiensis* Kato, 1925

*Cryptotympana okinawana* Matsumura, 1927

*Cryptotympana facialis yonakunina* Ishihara, 1968

### **Material**

#### **Syntype:**

- a. scientificName: *Cryptotympana facialis* (Walker, 1858); continent: Asia; country: Thailand; locality: Siam; individualCount: 3; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Siam; China; Japan; Northern China; Shantung; Ryukyu Islands; Java; Palaearctic China; Oriental Region; Loochoo Islands; Formosa; Kansu; Thailand; Honshu; Okinawa; Kyushu. [Duffels and van der Laan, 1985] Ryukyu Islands; Kuroshima Island; Japan. [Sanborn, 2014] Japan, Tsushima Island, Goto Islands, Koshiki Islands, Osumi Islands, Tokara Islands, Ryukyus, Taiwan, China, Tsinan, Formosa, Siam, Santosho, Liu-ku Island, Indo-China, Thailand, Shandong, Liaoning, Hebei, Henan, Shandong, Anhui, Jianxi, Zhejiang, Guangxi.

**Notes:** Authority: Walker 1858b; Unlikely to be from India: Incorrectly listed in India by Matsumura (1907) and Matsumura (1917). According to Metcalf (1963) Matsumura referred to a specimen misidentified as *Cryptotympana intermedia* (actually *Cryptotympana japonensis* Kato, 1925) and likely stated the locality information associated with *C. intermedia* and not *C. japonensis*.

## ***Cryptotympana holsti* subsp. *holsti* Distant, 1904**

### **Nomenclature:**

*Cryptotympana holsti* Distant, 1904

*Cryptotympana vitalisi* Distant, 1917

*Cryptotympana fusca* Kato, 1925

*Cryptotympana capillata* Kato, 1925

*Cryptotympana holsti inornata* Matsumura, 1927

*Cryptotympana kagiana* Matsumura, 1927

## Material

### Holotype:

- a. scientificName: *Cryptotympana holsti holsti* Distant, 1904; continent: Asia; country: Taiwan; locality: Central Formosa; sex: male; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Formosa, Japan, China, Indochina, Southern China, Annam, Jehol, Tonkin. [Duffels and van der Laan, 1985] Taiwan, Indo-China, China. [Sanborn, 2014] Formosa, Taiwan, China, Indo-China, Vietnam, Cambodia, Laos, Fujian, Taiwan, Guangdong, Hunan, Guangxi, Guizhou, Sichuan, Yunnan, India, Hainan, Liudau Island, South China.

**Notes:** Authority: Distant 1904a; Not from India: Sanborn (2014) stated India in reference to Hua (2000). There are no other records which suggest India, leading us to believe that there has been a mistranslation of Indo-China (Vietnam) to mean India and China. Further evidence is required before this species can be included in the fauna of this region.

## *Cryptotympana takasagona* Kato, 1925

### Nomenclature:

*Cryptotympana takasagona* Kato, 1925

*Cryptotympana intermedia* Schumacher, 1915 (nec Signoret, 1849)

*Cryptotympana argenteus* Kato, 1925

## Material

### Holotype:

- a. scientificName: *Cryptotympana takasagona* Kato, 1925; continent: Asia; country: Taiwan; locality: Locality unknown; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Formosa; India; Ceylon; Java; China; Ryukyu Islands; Central Japan; Japan; Jehol. [Sanborn, 2014] China, Fujian, Taiwan, Japan.

**Notes:** Authority: Kato 1925; Not from India: Metcalf (1963) stated "India, Ceylon" in reference to Schumacher 1915 who listed the "wide distribution" of *Cryptotympana intermedia*. Kato (1925) subsequently described this as a new species - *C. takasagona*, which has not been recorded on the Indian subcontinent.

## *Cryptotympana varicolor* Distant, 1904

### Nomenclature:

*Cryptotympana varicolor* Distant, 1904

*Cryptotympana sumbawensis* Jacobi, 1941

## Materials

### Holotype:

- a. scientificName: *Cryptotympana varicolor* Distant, 1904; continent: Asia; country: Indonesia; locality: Sumbawa Island; sex: female; institutionCode: MNHN; basisOfRecord: PreservedSpecimen

### Other material:

- a. scientificName: *Cryptotympana varicolor* Distant, 1904; continent: Asia; country: Indonesia; locality: Sumbawa; individualCount: 1; sex: female; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Sumbawa; Ceylon; Palawan. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] Sumatra, Sumbawa, Lesser Sunda Islands, Sumbawa.

**Notes:** Authority: Distant 1904c; Not from Sri Lanka: Hayashi (1987a) states "In BM, there is a male specimen of *varicolor* collected from Ceylon bearing the "Type" label and Distant's determination; this is not identical to *varicolor* Distant but with *exalbida*, as discussed in part 1 of this paper." Subsequent records in Duffels and van der Laan (1985), from Pringle (1955) are as a result of this misidentification.

## *Diceropyga obtecta* (Fabricius, 1803)

### Nomenclature:

*Tettigonia obtecta* Fabricius, 1803

*Dundubia bicaudata* Walker, 1858

### Material

### Holotype:

- a. scientificName: *Diceropyga obtecta* (Fabricius, 1803); continent: Asia; country: Indonesia; locality: Amboina; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Amboina; Ceram; India; Sula Island; Aru Islands; Batjan; Gilolo; Ternate; Northern India; Northern Bengal; Nepal; Assam; Sumatra; New Guinea; Salawati; Duke of York Islands (Bismarck Archipelago); Malay Archipelago; Obi Islands; New Britain; Lifu; Halmahera Island; Papua; Dutch New Guinea; Queensland; Northern Queensland; Buru; Southern New Guinea; Netherlands New Guinea; Aroe Islands; Territory of Papua; Admiralty Islands; Molucca Islands. [Sanborn, 2014] Moluccas, Waigeo, Gebe Island, Maluku, Selatan, Buru, Seram, Ambon, Sula, Molucca Islands, South Maluku.

**Notes:** Authority: Fabricius 1803; Not from India: Metcalf (1963) listed "India, N. India, N. Bengal, Nepal, Assam" in reference to Atkinson (1884), however this record stems from a misidentification by Atkinson.

## *Hamza ciliaris* (Linnaeus, 1758)

### Nomenclature:

*Cicada ciliaris* Linnaeus, 1758  
*Cicada ocellata* De Geer, 1773  
*Cicada varia* Olivier, 1790  
*Tettigonia marmorata* Fabricius, 1803  
*Platyplectron arcuata* Walker, 1858  
*Platyplectron catocaloides* Walker, 1870  
*Platyplectron bouruensis* Distant, 1898  
*Platyplectron lyricen* Kirkaldy, 1913  
*Hamza uchiyamae* Matsumura, 1927

### Material

#### *Holotype:*

- a. scientificName: *Hamza ciliaris* (Linnaeus, 1758); continent: Asia; locality: Indiis; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Sweden; South America; Tranquebar; Cape of Good Hope; Amboina; Natal; Ceram [?]; Amboina [?]; Ternate; Philippine Islands; Ceram; Morty; South Africa; Java; China; Molucca Islands; Cochin China; Indo-Australian Archipelago; Malay Archipelago; Indo-China. [Sanborn, 2014] Indo-China, Banda, Ambione, Indonesia, Buru, Buru Island, Caroline Islands, Palau Islands, Ambon, Ambona, Morotai, Ceram, Saparau, Anguar Island, Mindanao, Molucca Islands, Maluku, Banda Islands, Timor, Kai Island, South Maluku, Sula Islands, North Maluku, Vietnam, Philippines, Malaysian Archipelago, India, Panay, Philippines, Palau, Indonesia, Banggai Archipelago.

**Notes:** Authority: Linnaeus 1758; Not from India: Metcalf (1963) stated India in reference to the type specimen location that was listed as "Indiis". Duffels (1991) states that this species is from Indonesia, and that the Indian listing by Metcalf is erroneous. Thus subsequent references to India in Sanborn (2014) are likely to be due to previous inaccurate literature localities.

## *Huechys incarnata* subsp. *incarnata* (Germar, 1834)

### Nomenclature:

*Cicada incarnata* Germar, 1834  
*Cicada sanguinolenta* Brulle, 1835 (nec Fabricius, 1775)  
*Cicada germari* Guerin-Meneville, 1838

## Material

### Holotype:

- a. scientificName: *Huechys incarnata incarnata* (Germar, 1834); continent: Asia; locality: India orientali; recordedBy: de Haan; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Java; Asia; Locality Unknown; Molucca Islands; Sumatra; Amboina; Celebes; Malay Archipelago; Java (?); Sumbawa. [Sanborn, 2014] Sulawesi, West Melanesia.

**Notes:** Authority: Germar 1834; Unlikely to be from India: Metcalf (1963) states "India", however the species description states "India orientali" with no specific location listed. As all subsequent specimens have been recorded from the Indonesian region.

## *Huechys phaenicura* (Germar, 1834)

### Nomenclature:

*Cicada phaenicura* Germar, 1834

*Huechys phaenicura balabakensis* Haupt, 1924

*Huechys phaenicura palawanensis* Haupt, 1924

## Material

### Holotype:

- a. scientificName: *Huechys phaenicura* (Germar, 1834); continent: Asia; locality: India orientali; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Asia; Locality Unknown; Eastern India; Philippine Islands; Java; Malay Archipelago; Sikkim; Luzon; Samar. [Sanborn, 2014] Philippines, Palawan, Samar, Luzon, Balabac Island, Malaysia, Indonesia, Java, India, Laos, Brazil, Mindanao, Samar.

**Notes:** Authority: Germar 1834; Unlikely to be from India: Metcalf (1963) states "India", "Eastern India" and "Sikkim", however the species description states "India orientali" with no specific location listed. Furthermore, Distant (1892a) states that "According to Mr. Atkinson this species is "reported from India, Sikkim," but at present it seems extremely doubtful that it is found on the Continent at all. I certainly have seen it in none of the many collections examined from India, Burma, Tenasserim, or the Malay Peninsula, and it is probably an insular species". Thus the subsequent "India" locality in Sanborn (2014), in reference to Lee (2009a), is likely to be a continuation of this earlier error.

## *Macrosemia juno* (Distant, 1905)

### Nomenclature:

*Platylomia juno* Distant, 1905

## Material

### Holotype:

- a. scientificName: *Macrosemia juno* (Distant, 1905); continent: Asia; country: China; locality: Ta-tsien-lou, Se-Tchouen; sex: male; recordedBy: R.P. Gros-Jean; institutionCode: MHNH; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Szechwan, China, Se-Tchouen, Central China [Duffels, 1985] China [Sanborn, 2014] China, Szechuan, Hunan, Zhejiang, Fujian, Taiwan, Guangdong, Guangxi, Sichuan, Xizang, India, Malaysia.

**Notes:** Authority: Distant 1905c; Not from India: Sanborn (2014) stated India in reference to Hua (2000). There are no other records that suggest India, leading us to believe that there has been a mistranslation of Indo-China (Vietnam) to mean India and China.

## *Megapomponia imperatoria* (Westwood, 1842)

### Nomenclature:

*Cicada imperatoria* Westwood, 1842

## Material

### Holotype:

- a. scientificName: *Megapomponia imperatoria* (Westwood, 1842); continent: Asia; locality: East Indies and the Indian Islands; institutionCode: OUMNH; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] East Indies; Indian Islands; Nepal; India; Assam; Malaya; Borneo; Sumatra; Penang; Cambodia; Laos; Siam; Malay Peninsula; Java; Malay Islands; Malay States; Sarawak; Malacca; Perak; Singapore Island; Johore. [Duffels and van der Laan, 1985] Nepal. [Sanborn, 2014] Thailand, India, Nepal, Malaysia, Borneo, Cambodia, Laos, Sarawak, Indonesia, Indian Islands, Peninsular Malaysia.

**Notes:** Authority: Westwood 1842; Multiple localities listed in species description. Not from India: Metcalf (1963), in error, listed "India, Assam, Nepal" in reference to Walker (1850). The type description does not give a specific locality (East Indies and the Indian Islands), while recent literature indicates that this species is confined to the Malaysian Peninsula (Lee 2014). Subsequent references to India (and Nepal) in Metcalf (1963), Duffels and van der Laan (1985) and Sanborn (2014) are likely to be based on this previous error.

## *Mogannia hebes* (Walker, 1858)

### Nomenclature:

*Cephaloxys hebes* Walker, 1858

*Mogannia spurcata* Walker, 1858

- Mogannia hebes* var. a Kato, 1925  
*Mogannia hebes* var. b Kato, 1925  
*Mogannia hebes* var. c Kato, 1925  
*Mogannia flavescens* Kato, 1925  
*Mogannia delta* Kato, 1925  
*Mogannia hebes* var. d Kato, 1925  
*Mogannia ritozana* Matsumura, 1927  
*Mogannia ritozana dorsovitta* Matsumura, 1927  
*Mogannia katonis* Matsumura, 1927  
*Mogannia subfuscata* Kato, 1928  
*Mogannia hebes concolor* Kato, 1932  
*Mogannia janea* Hua, 2000

#### Material

##### Holotype:

- a. scientificName: *Mogannia hebes* (Walker, 1858); continent: Asia; country: China; locality: North China; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Northern China; China; Formosa; Tonkin; Ryukyu Islands; Hong Kong Island; Malaya; India; Japan; Indochina; Korea; Java; Kwangtung; Kotosho Island; Fukien; Kiangsu; Anhwei; Chekiang; Manchuria; Chusan Island; Eastern China; Kwangsi; Szechwan; Sikang. [Sanborn, 2014] China, Manchuria, Nanking, Soochow, Chekiang, Foochow, Amoy, Canton, Hongkong, Hangchow, Korea, Formosa, Taiwan, Hunan, Zhejiang, Macao, Korea, India, Myanmar, China, Chejiang, Fujian, Guangdong, Guangxi, Jiangsi, Sichuan, Yunnan, Inner Mongolia, Henan, Hubei, Anhui, Jiangsu, Jiangxi, Zhejiang, Fujian, Taiwan, Guangdong, Hong Kong, Sichuan, Vietnam, Taiwan, Southeast Asia, Liudau Island, Lanya Island, Fujian.

**Notes:** Authority: Walker 1858b; Unlikely to be from India: Matsumura (1910) stated this species to be from "Indien" but no specimens have been recorded from this region.

#### *Nabalua mascula* (Distant, 1889)

##### Nomenclature:

*Leptopsaltria mascula* Distant, 1889

#### Material

##### Holotype:

- a. scientificName: *Nabalua mascula* (Distant, 1889); continent: Asia; country: Malaysia; locality: Kina Balu Mountain, North Borneo; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] North Borneo; Borneo; Johore; Malay Peninsula; India. [Sanborn, 2014] Borneo, Sarawak, Sabah, Johore.

**Notes:** Authority: Distant 1889c; Unlikely to be from India: Only Kato (1932) listed India as a locality, without reference to an examined specimen. All other references list Borneo, Johore and Malay Peninsula.

### *Platyplectron stridula* (Linnaeus, 1758)

#### Nomenclature:

*Cicada stridula* Linnaeus, 1758

*Cicada catenata* Drury, 1773

*Cicada nigrolinea* De Geer, 1773

*Platyplectron stridula* var. a Stål, 1866

#### Material

#### Lectotype:

- a. scientificName: *Platyplectron stridula* (Linnaeus, 1758); continent: Asia; locality: Indiis; individualCount: 1; institutionCode: UUZM; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; Cape of Good Hope; South Africa; Natal; Transvaal; Africa. [Sanborn, 2014] South Africa, Zambezi, Zambia, Australia.

**Notes:** Authority: Linnaeus 1758; Not from India: Type locality stated as "Indiis", which was reported as India in Metcalf (1963), however all other specimens have been collected from southern Africa.

### *Platyplectron takasagona* Matsumura, 1917

#### Nomenclature:

*Platyplectron takasagona* Matsumura, 1917

#### Material

#### Syntype:

- a. scientificName: *Platyplectron takasagona* Matsumura, 1917; continent: Asia; country: Taiwan; locality: Kiirun, Formosa; individualCount: 2; sex: male; institutionCode: EIHU; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Formosa; Britih India; Assam; Burma; China; Japan; Hyukyu Islands; Honshu. [Sanborn, 2014] China, Taiwan.

**Notes:** Authority: Matsumura 1917; Unlikely to be from India: Incorrectly listed in India and Burma by Schumacher (1915). According to Metcalf (1963), Schumacher referred to a specimen misidentified as *Pycna repanda* (actually *Platyplectron takasagona*) and likely stated the locality information associated with *P. repanda* and not *P. takasagona*.

## ***Platypleura testacea* (Walker, 1858)**

### **Nomenclature:**

*Zammara testacea* Walker, 1858

### **Material**

#### **Holotype:**

- a. scientificName: *Platypleura testacea* (Walker, 1858); locality: Locality unknown; individualCount: 1; sex: female; catalogNumber: BMNH(E) 1009498; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Oman; Iran; India. [Sanborn, 2014] Iran, India, Oman.

**Notes:** Authority: Walker 1858a; Unsure of number of specimens used in description, however only one female specimen in the NHMUK collection. Not from India: Myers (1928) claimed the locality of this species to be "India (locality unknown)" which is incorrect as it is restricted to the Arabian peninsula. Subsequent reference to India in Sanborn (2014) by Mozaffarian and Sanborn (2010) likely due to previous inaccurate literature.

## ***Pomponia adusta* (Walker, 1850)**

### **Nomenclature:**

*Cicada adusta* Walker, 1850

*Cicada buddha* Kirkaldy, 1909

### **Material**

#### **Holotype:**

- a. scientificName: *Pomponia adusta* (Walker, 1850); continent: Asia; country: Indonesia; locality: Java; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Java; Siam; Malay Peninsula; Borneo; Sumatra; Burma; Assam. [Sanborn, 2014] Malaysia, Langkawi Island, Java, Sumatra, Borneo, Peninsular Malaysia, Siam.

**Notes:** Authority: Walker 1850; Not from India: Metcalf (1963) incorrectly listed the species from Burma and Assam in reference to Moulton (1929) who was suggesting possible distributions, however the species has been recorded from Malaysia and Indonesia.

## ***Scieroptera formosana* Schmidt, 1918**

### **Nomenclature:**

*Scieroptera formosana* Schmidt, 1918

*Scieroptera formosana ater* Kato, 1925

*Scieroptera formosana trigutta* Kato, 1926

*Scieroptera formosana albifascia* Kato, 1926

## Material

### Holotype:

- a. scientificName: *Scieroptera formosana* Schmidt, 1918; continent: Asia; country: Taiwan; locality: Alikang, Formosa; eventDate: ??/06/??; individualCount: 1; sex: female; recordedBy: S. Sauter; institutionCode: MZPW; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Formosa; Japan; China; Philippine Islands; Malay Archipelago; Borneo; Java; India; Burma; Celebes; Chekiang; Eastern China. [Sanborn, 2014] China, Schumacher China, Jiangxi, Zhejiang, Fujian, Taiwan, Guangdong, Hubei, Hunan, Guangxi, Sichuan, India, Burma, Philippines, Malaysia, Taiwan, Vietnam, Southeast Asia.

**Notes:** Authority: Schmidt 1918; Unlikely to be from India: Incorrectly listed in India and Burma by Matsumura (1917). According to Metcalf (1963) Matsumura referred to a specimen misidentified as *Scieroptera formosana* (but in fact *Scieroptera splendidula*) and likely stated the locality information associated with *S. splendidula* and not *S. formosana*.

## *Scieroptera sumatrana* subsp. *sumatrana* Schmidt, 1918

### Nomenclature:

*Scieroptera sumatrana* Schmidt, 1918

### Materials

### Syntype:

- a. scientificName: *Scieroptera sumatrana sumatrana* Schmidt, 1918; continent: Asia; country: Indonesia; locality: Soekaranda, Sumatra; eventDate: ??/01/1894; sex: male; recordedBy: Dr H. Dohrn; institutionCode: MZPW; basisOfRecord: PreservedSpecimen
- b. scientificName: *Scieroptera sumatrana sumatrana* Schmidt, 1918; continent: Asia; country: Indonesia; locality: Soekaranda, Sumatra; eventDate: ??/01/1894; sex: female; recordedBy: Dr H. Dohrn; institutionCode: MZPW; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Sumatra (Soekaranda); China; Malay Archipelago; Sarawak; Northern India; Assam; Tenasserim; India; Burma; Java; Borneo; Celebes; Oriental Region; Formosa; Indochina; Nias; Malay Peninsula; Celebes (?). [Sanborn, 2014] Vietnam, Malaysia, Indonesia, Java, Sumatra, Myanmar, India.

**Notes:** Authority: Schmidt 1918; Unlikely to be from India and Burma: Incorrectly listed in India and Burma by Moulton (1923). According to Metcalf (1963) Moulton referred to a specimen misidentified as *Scieroptera splendidula* (actually *Scieroptera sumatrana*) and likely stated the locality information associated with *S. splendidula* and not *S. sumatrana*.

***Tacua speciosa* subsp. *speciosa* (Illiger, 1800)****Nomenclature:**

*Tettigonia speciosa* Illiger, 1800

*Cicada indica* Donovan, 1800

*Tettigonia gigantea* Weber, 1801

**Material****Holotype:**

- a. scientificName: *Tacua speciosa speciosa* (Illiger, 1800); continent: Asia; country: Indonesia; locality: Sumatra; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Bengal; Sumatra; India; Java; Asia; Borneo; Hindustan; Europe; Eastern India; Sunda Islands; Penang; Sarawak; Malay States; Malaya; Malacca; Singapore Island; Perak; Johore; East Indies (?); Bengal (?); Malay Peninsula. [Sanborn, 2014] Malaysia, Borneo, Sarawak, Sumatra, Java, Sabah, Peninsular Malaysia, Malausia, Indonesia.

**Notes:** Authority: Illiger 1800; Unlikely to be from India: Metcalf (1963), among others, states India in reference to the type locality of *Cicada indica* Donovan, 1800 which is a junior synonym of *Tacua speciosa speciosa* (Illiger, 1800). Distant (1892a), however noted that "According to Donovan, a single specimen of this species was found in Bengal by Mr. Fichtel, and deposited in the Imperial Cabinet at Vienna, but that habitat I consider liable to the greatest doubt." *Cicada indica* is illustrated in Fig. 1.

***Tanna japonensis* subsp. *japonensis* (Distant, 1892)****Nomenclature:**

*Pomponia japonensis* Distant, 1892

*Leptopsaltria japonica* Horvath, 1892

*Tanna* (?) *sasaii* Matsumura, 1939

*Tanna japonensis kimotoi* Kato, 1943

*Tanna japonensis nigrofusca* Kato, 1940

*Tanna obliqua* Liu, 1940

**Materials****Syntype:**

- a. scientificName: *Tanna japonensis japonensis* (Distant, 1892); continent: Asia; country: Japan; sex: male; recordedBy: Pryer; basisOfRecord: PreservedSpecimen
- b. scientificName: *Tanna japonensis japonensis* (Distant, 1892); continent: Asia; country: Japan; locality: Tokoe; sex: male; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Japan; Laos; Hokkaido; Honshu; Kyushu; Shikokii; India; Malay Archipelago; Quelpart Island; Korea; Southern Manchuria; Manchuria; China; Kwantung; Central Japan; Chekiang; Awaji-shima; Formosa. [Sanborn, 2014] China, Manchuria, Hangchow, Japan, Korea, Hunan, Laos, Guangxi, Sichuan, Xizang, Querpart Islands, India, Anhui, Hubei, Jiangxi, Zhejiang, Fujian.

**Notes:** Authority: Distant 1892c; Not from India: Distant (1916) listed the species (without a specimen) from India but no subsequent specimens have been collected from India. Subsequent listing of "India" in Sanborn (2014) in reference to Hua (2000) may have been a subsequent error from Distant (1916) and Metcalf (1963).

### *Terpnosia psecas* (Walker, 1850)

#### Nomenclature:

*Dundubia psecas* Walker, 1850

#### Material

##### Holotype:

- a. scientificName: *Terpnosia psecas* (Walker, 1850); continent: Asia; country: Indonesia; locality: Java; sex: female; institutionCode: NHMUK; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Java; Ceylon; Sikkim; Borneo; India; British India; Sumatra; Siam (?); Sunda Islands; Burma. [Duffels and van der Laan, 1985] Ceylon. [Sanborn, 2014] Java, Peninsular Malaysia, Ceylon, Borneo, Sarawak, Siam, Sabah.

**Notes:** Authority: Walker 1850; Distant (1906a) refers to a male specimen, but lists two locations. Unlikely to be from India or Sri Lanka: Lee (2012b) states that the type specimen of *Terpnosia psecas* (Walker, 1850) is a female from Java. Male specimens identified by former authors were not true *T. psecas* but were *T. elegans* (Kirby, 1891) from Sri Lanka. The possible confusion with India has not been resolved due to specimen unavailability Kato (1932), however it is highly unlikely given the reported range (Indonesia and Malaysia). Subsequent references to India and Sri Lanka in Duffels and van der Laan (1985) and Sanborn (2014) are likely in reference to these previous misidentifications.

### *Unduncus connexa* (Distant, 1910)

#### Nomenclature:

*Lemuriana connexa* Distant, 1910

#### Material

##### Holotype:

- a. scientificName: *Unduncus connexa* (Distant, 1910); continent: Asia; country: Malaysia; locality: Lawas, Sarawak; sex: female; recordedBy: Moulton; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] Borneo; Sarawak; Ceylon; India. [Sanborn, 2014] Borneo, Sabah, Sarawak, Oriental Region.

**Notes:** Authority: Distant 1910; Unlikely to be from India: Incorrectly listed in Ceylon and India by Moulton (1912). According to Metcalf (1963) Moulton incorrectly referred to a specimen of *Lemuriana connexa* as *Abroma nubifurca* and likely stated locality information associated with *A. nubifurca* and not *L. connexa*.

### **Zouga fornicata (Linnaeus, 1758)**

#### **Nomenclature:**

*Cicada fornicata* Linnaeus, 1758

*Cicada fornicata* Olivier, 1790

*Cicada dimidiata* Olivier, 1790

*Carineta leuconeura* Walker, 1850

#### **Material**

#### **Holotype:**

- a. scientificName: *Zouga fornicata* (Linnaeus, 1758); continent: Africa; country: South Africa; locality: Indiis; basisOfRecord: PreservedSpecimen

**Distribution:** [Metcalf, 1963] India; South America [?]; Cape of Good Hope; Africa; Southern Africa; South Africa. [Sanborn, 2014] South Africa.

**Notes:** Authority: Linnaeus 1758; Not from India: Type specimen recorded from "Indiis", which Metcalf 1963 reported as India, however all subsequent specimens have only been collected from southern Africa.

## **Discussion**

In this paper we have presented a major taxonomic update over Distant's (Distant 1906c, Distant 1916) faunistic work on cicadas of "British India", which included all of South Asia - i.e. the Indian subcontinent. The current species total for modern political India and Bangladesh stands at 189 species and increases to 256 species when including Bhutan, Myanmar, Nepal and Sri Lanka from the present study (Table 2) and Pakistan (Ahmed and Sanborn 2010). This represents a substantial increase from Distant (1916) figure of 172 species for "British India". No doubt this modern figure will increase further as cicadas are sampled more extensively and studied more intensively using modern techniques such as acoustic and molecular analyses, unavailable in Distant's time. Many of the cicada groups may contain cryptic species that will be discovered using these methods, which is a common experience in Cicadidae (e.g. Price et al. 2007, Price et al. 2010, Popple 2013, Marshall et al. 2015, Hertach et al. 2015, Wade et al. 2015) especially in recently neglected biodiversity hotspots such as India. We hope that this current taxonomic update will

facilitate species discovery and further systematic and ecological work on cicadas of the Indian region.

Table 2.

Checklist summary of the species recorded in each country of the Indian subcontinent. Bold values are totals for each grouping (tribe or subfamily).

The cicada fauna inventoried above for the Indian region represents approximately 17% of the currently recognized global cicada genera (73 of 434 genera: data derived from Sanborn 2014). At a country level the generic diversity of India (including Bangladesh) ranks highest in the world (64 of 434 genera), followed by China (61 of 434 genera). The species diversity also compares favourably with that of other countries in the region which have recently been studied (Table 3). Of the 30 species currently recorded from Pakistan (Ahmed and Sanborn 2010, Ahmed et al. 2010) 21 are recorded from India, while 9 are either not present or yet to be recorded. Although India has larger landmass compared to most of its neighboring countries, the biogeographic placement of modern India and the topographic and climatic diversity of its bioregions may have contributed more to its rich cicada fauna than the size of the landmass. However, this needs to be explored further with phylogenetic / phylogeographic studies.

Table 3.

Regional comparison of species and generic diversity, ordered by the number of valid species recorded in each country.

Country	Species	Genera	Citation

India is rapidly developing and expanding its scientific infrastructure and personnel, and investing heavily in scientific research. There is also growing interest in biodiversity studies and conservation among professional biologists and citizen scientists, which will help in

exploration and mapping of the current state of Indian biodiversity. As a result, we expect rapid scientific developments involving cicadas of India. To facilitate this development, we have launched a website on Indian cicadas (<http://www.indiancicadas.org/>), which will act as a central repository of reference images representing spot records, and various species attributes such as cicada songs and other phenotypic variation. Acoustic recordings of Indian cicadas may also be found at: <http://bio.acousti.ca/>). Following the publication of this paper, we aim to provide newly generated taxonomic and biological information on Indian cicadas through the Cicadas of India website, where updated information may be readily accessed in a centralised database.

## Acknowledgements

The authors would like to express their sincere gratitude to Mick Webb for hosting BWP and ELA on their first visit to the NHM; Valerie Lemaître for searching the NHM collections for Indian specimens to examine; and Young June Lee for checking some records and providing literature. Dr. Sudhir Singh kindly provided images of type material in the Forest Research Institute, Dehradun. The librarians of Rhodes University, the University of Connecticut and the Natural History Museum are thanked for processing multiple inter-library loan requests for older literature which facilitated this research. Anuradha Joglekar kindly provided figure 3. BWP and ELA were supported by the NSF Family Cicadidae grant to CS (DEB-0955849). KK was supported by a Ramanujan Fellowship from the Dept of Science and Technology, Govt of India. VS, KM and KK were supported by a research grant through the USAID PEER Science Program to KK (grant no. AID-OAA-A-11-00012).

## Author contributions

BWP: Conceived the project, compiled data, inspected type materials, verified records, and wrote the manuscript. ELA: Compiled data, inspected type materials, verified records, and assisted in manuscript writing. KM: Compiled data, and verified records. VS: Compiled data, and verified records. CS: Supervised and coordinated research, assisted in manuscript writing. KK: Supervised and coordinated research, verified records, assisted in manuscript writing.
